December 27, 2016

Honorable Mayor, Members of the City Council and
Citizens of the City of Jackson

State law requires that all local governments, subject to certain size criteria, publish within six months of the close of each fiscal year a complete set of financial statements presented in conformity with generally accepted accounting principles (GAAP) and audited in accordance with generally accepted auditing standards by a firm of licensed certified public accountants. Pursuant to that requirement, we hereby issue the comprehensive annual financial report of the City of Jackson for the fiscal year ended June 30, 2016.

This report consists of management's representations concerning the finances of the City of Jackson. Consequently, management assumes full responsibility for the completeness and reliability of all of the information presented in this report. To provide a reasonable basis for making these representations, City management has established a comprehensive internal control framework that is designed both to protect the government's assets from loss, theft, or misuse and to compile sufficient reliable information for the preparation of the City's financial statements in conformity with GAAP. Because the cost of internal controls should not outweigh their benefits, the City's comprehensive framework of internal controls has been designed to provide reasonable rather than absolute assurance that the financial statements will be free from material misstatement. As management, we assert that, to the best of our knowledge and belief, this financial report is complete and reliable in all material respects.

The City's financial statements have been audited by Rehmann Robson, a firm of licensed certified public accountants. The goal of the independent audit was to provide reasonable assurance that the financial statements of the City for the fiscal year ended June 30, 2016, are free of material misstatement. The independent audit involved examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements; assessing the accounting principles used and significant estimates made by management; and evaluating the overall financial statement presentation. The independent auditor concluded, based upon the audit, that there was a reasonable basis for rendering an unmodified opinion that the City's financial statements for the fiscal year ended June 30, 2016, are fairly presented in conformity with GAAP. The independent auditor's report is presented as the first component of the financial section of this report.

GAAP require that management provide a narrative introduction, overview, and analysis to accompany the basic financial statements in the form of Management's Discussion and Analysis (MD&A). This letter of transmittal is designed to compliment MD&A and should be read in conjunction with it. The City's MD&A can be found immediately following the report of the independent auditors.

Profile of the Government

The City of Jackson was founded in 1829, incorporated as a city in 1857 and became a Home Rule City in 1914. It is located in south-central Michigan. The City currently has a land area of approximately 11 square miles and a population of 33,445 based on the 2010 census. The City is an industrial and commercial oriented community serving as a principal business, marketing, and cultural center for the surrounding suburban and agricultural territory. The government is empowered to levy a property tax on both real and personal property located within its boundaries.

The City operates under the Council-Manager form of government. The Mayor is elected on a non-partisan, at-large basis. The six council members are elected on a non-partisan, city ward basis. A ballot proposal passed by the voters on November 6, 2001 staggered and extended the terms of council members elected by ward to four years. The Mayor continues to serve two-year terms. The City Treasurer is also elected on a non-partisan at-large basis. This position serves a four-year term. The City Manager, City Clerk, City Assessor and City Attorney are appointed by the Council for indefinite terms and serve at the pleasure of the Council.

Policymaking and legislative authorities are vested in the City Council. The Council is responsible, among other things, for passing ordinances and resolutions; making public policy decisions; confirming the appointments of department heads; adopting annual budgets; appointing boards, commissions, and committees; approving contracts; authorizing real estate transactions; approving payments; awarding bids; selling personal property; and hiring the government's manager, clerk, assessor and attorney. The City Manager is responsible for carrying out the policies and ordinances of the Council, for supervising the day-to-day operations of the government, and for appointing the heads of the government's departments.

The City of Jackson provides a full range of services, including police and fire protection; the construction and maintenance of highways, streets and other infrastructure; sanitary sewage treatment and disposal; water treatment and distribution; economic development; recreational activities; and cultural events.

Factors Affecting Financial Condition

The information presented in the financial statements is perhaps best understood when it is considered from the broader perspective of the specific environment within which the City of Jackson operates.

Local economy. The Jackson area currently enjoys a somewhat limited but gradually diversifying economy that has demonstrated growth in the last decade. Because of its central location, Jackson provides access to employment opportunities in Lansing, Battle Creek and Ann Arbor.

The Michigan Avenue Utility Replacement Project was completed in the fall of 2015 and replaced century-old underground water and sewer infrastructure in a three block area in the core of downtown. In addition, Consumers Energy replaced underground electrical and gas utility services, new sidewalk and pavement were installed and new traffic signals and parking spaces were added. This Project followed the completion of the Blackman Park addition on the site of the former Consumer Energy Headquarters as well as the \$ 1.3 million Parking Lot Improvement Project which added 149 spaces on Pearl St. just north of the Michigan Avenue Project.

Efforts to improve the downtown corridor are all part of the "Anchor Initiative" headed by Jackson's two largest employers - Allegiance Health and Consumer Energy. Unveiled in December of 2014, this "Initiative" promotes living, buying and innovating in downtown Jackson. Interest in living and working in the downtown as well as increased traffic in restaurants and other cultural venues has increased in recent months and is expected to continue to draw more interest in commercial and residential development over the next several years as a result of these efforts.

More recent related developments include the "Lofts On Louis", a new four-story mixed-use \$5.4 million development which broke ground in early November 2016. In addition, two new restaurants, the Dirty Bird and the Junkyard Dog, have recently opened and the possibility of a future locally sourced restaurant and market is hopeful. Gilbert Chocolates has also opened downtown after 52 years in a neighboring township. The conversion of the perimeter traffic loop downtown from one-way to two-way next spring is expected to spur even more development.

Major industries with headquarters or divisions located within the City include a statewide gas and electric utility, aerospace, automobile and industrial component manufacturers, retail sales and several financial institutions.

Long-term financial planning. By 2009, the City's ad valorem (real and personal property) taxable value had grown nearly 57% since fiscal year 2002 to over \$768 million. The City has experienced, as have other communities in Michigan as well as across the country, a decline in the past eight fiscal years to approximately \$588 million. State equalized values (50% of estimated true market values) have also declined in a similar pattern, however, the past two fiscal years have shown increases in these values. Market values, especially in the residential sector, have begun to show slow but steady growth and should continue into the next few years as real estate sales prices improve and the City continues its demolition program of vacant and abandoned housing.

This increase in the assessed value of taxable property in the City mentioned above will be constrained by the Headlee Amendment (which limits the annual increase in the State Equalized Value of real property) and the provisions of Proposal A (which limits increases in taxable property values to 5 percent or the rate of inflation, whichever is less). Taken together, these fiscal factors create a trend toward ever tightening budgets, even in periods of recovery, under which the City must operate.

State shared revenues, which are now subject to the City, Village and Township Revenue Sharing (CVTRS) Program, showed relatively no change in the total constitutional and statutory components of state shared revenues, which amounted to \$4,253,116.

One of the City's major revenue categories - income taxes - continues to reflect stability after declining over \$1.1 million in fiscal year 2010. The City saw its unemployment rate decline to 7.8% (as of June 2016) from the previous fiscal year rate of 10.0%. While there was also a decline in the total labor force of 4.3% to 13,805, actual employment levels declined only 2.0%, to 12,730. The actual number of unemployed declined from 1,441 to 1,075, or 25.4%.

Another continuing financial challenge for the City is the escalating costs of insurance - particularly for employees and retirees but also for property and liability. Greater revenue growth together with cost containment measures will continue to be necessary to mitigate future stress on City finances. Together, these two issues continue to impose increasing burdens on the City's fiscal structure and therefore affect the long-term stability of City finances. In an effort to better control these costs, the City implemented a self-funded health insurance program on July 1, 2014. Substantial savings have since been realized as a result and, at the same time, the City has been able to maintain its health coverage levels for its employees and retirees than would otherwise be possible in the open market.

Relevant Financial Policies. There have been no situations that have affected the application of the City's standard financial policies.

The City has always taken steps to reduce operating costs in an effort to maintain fund balances, especially within the governmental funds area. Related to this effort, the City Council adopted a fund balance policy in December 2012, as recommended by the Government Finance Officers Association. This adopted policy prescribes a minimum 15% fund balance with a desired fund balance level of 30% within the general fund and also provides timeframes that the City would have to "replenish" fund balance and attain these higher levels.

Major Initiatives. Police and fire services have always acted in unison with the surrounding townships and county and efforts to further that cooperation are constantly being investigated. The City's Public Works Department continues to work with the County Road Commission more closely than in the past on matters such as bidding for materials (road salt, etc...) and the City provides traffic signal maintenance to many outlying areas. As indicated earlier, the City, along with some of its larger employers as well as the State, continue to work together on the "Anchor Initiative" effort which is making it more attractive to live and work in the downtown area. In the fall of 2014, the City was awarded \$5.5 million in State grant funds that has enabled the continuing demolition of approximately 225 vacant structures, thus furthering the City's efforts towards neighborhood revitalization. These are just some of the more major efforts the City is taking to not only reduce operating costs and become more cost efficient, but to set the framework for the City to become a more viable and thriving place to live and work in the coming fiscal years.

Awards and Acknowledgements

The Government Finance Officers Association (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Jackson for its comprehensive annual financial report (CAFR) for the fiscal year ended June 30, 2015. This was the twenty-fourth consecutive year that the government has received this prestigious award. In order to be awarded a Certificate of Achievement, the government published an easily readable and efficiently organized CAFR. This report satisfied both GAAP and applicable legal requirements.

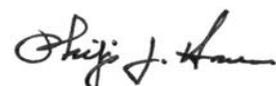

A Certificate of Achievement is valid for a period of one year only. We believe that our current CAFR continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The preparation of this report would not have been possible without the efficient and dedicated services of the entire staff of the City of Jackson. We would like to express our appreciation to all members of the departments who assisted and contributed to the preparation of this report. Credit also must be given to the Mayor and the City Council for their unfailing support for maintaining the highest standards of professionalism in the management of the City of Jackson's finances.

Respectfully submitted,

Patrick H. Burtch, City Manager

INDEPENDENT AUDITORS' REPORT

December 27, 2016

Honorable Mayor and
Members of the City Council
City of Jackson, Michigan

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the *City of Jackson, Michigan* (the "City") as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Independent Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Jackson, Michigan, as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof and the respective budgetary comparison for the general fund and major special revenue fund for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that management's discussion and analysis and the schedules of pension and other postemployment benefits plans, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The combining and individual fund financial statements and schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund financial statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund financial statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory section and statistical tables have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 27, 2016, on our consideration of the City of Jackson’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City’s internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS

CITY OF JACKSON, MICHIGAN

Management's Discussion and Analysis

As management of the *City of Jackson, Michigan* (the "City"), we offer readers of the City's financial statements this narrative overview and analysis of the financial activities of the City for the fiscal year ended June 30, 2016. We encourage readers to consider the information presented here in conjunction with additional information that we have furnished in our letter of transmittal.

Financial Highlights

- The assets and deferred outflows of resources of the City exceeded its liabilities and deferred inflows of resources at the close of the most recent fiscal year by \$65,828,508 (net position). The City is required to report its net pension liability on the statement of net position. This change has resulted in a negative unrestricted net position of (\$45,259,723).
- The government's total net position increased by \$439,513 from operations during the fiscal year. This change is a combination of a decrease in the governmental activities net position of (\$2,282,898) and an increase in the business-type activities net position of \$2,722,411.
- As of the close of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$13,539,405, a decrease of (\$1,193,011) in comparison with the prior year. Approximately 36 percent of this total amount, or \$4,909,006, is *available for spending* at the government's discretion (*unassigned fund balance*).
- At the end of the current fiscal year, unassigned fund balance for the general fund was \$6,041,453, or 29 percent of total general fund expenditures.
- The City's total bonded debt decreased by \$434,125 during the current fiscal year. New bonded debt was issued in the amount of \$1,300,000 and existing bonded debt was retired in the amount of \$1,734,125.

Overview of the Financial Statements

This discussion and analysis is intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

Government-wide financial statements. The *government-wide financial statements* are designed to provide readers with a broad overview of the City's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all of the City's assets, deferred outflows of resources, liabilities and deferred inflow of resources with the difference reported as *net position*. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information that shows how the government's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, *regardless of the timing of related cash flows*. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., earned but unused vacation leave).

Both of the government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities*) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (*business-type activities*). The governmental activities of the City include legislative, general government, public safety, public works, culture and recreation and community enrichment and development. The business-type activities of the City include the golf practice center, parking system and water and sewer operations. Separate storm water utility activity was discontinued in the fiscal year 2015.

CITY OF JACKSON, MICHIGAN

Management's Discussion and Analysis

The government-wide financial statements include not only the City itself (known as the primary government), but also two legally separate authorities - the Downtown Development Authority and the Brownfield Redevelopment Authority - for which the City is financially accountable. Financial information for these component units are reported separately from the financial information presented for the primary government itself. The City of Jackson Building Authority, although also legally separate, functions for all practical purposes as a department of the City, and therefore has been included as an integral part of the primary government.

Fund financial statements. A *fund* is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the City can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds. Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term inflows and outflows of spendable resources*, as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities*.

The City maintains 29 individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the general, major streets special revenue and special assessment capital projects funds, each of which are considered to be major funds. Data from the other 26 governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The City adopts an annual appropriated budget for its general and special revenue funds. Budgetary comparison statements or schedules have been provided herein to demonstrate compliance with those budgets.

Proprietary funds. The City maintains two different types of proprietary funds. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The City uses three major enterprise funds to account for its sanitary sewer, water purification and distribution and parking deck operations while the operations of the City's golf practice center and its remaining parking system are considered nonmajor and are combined into a single, aggregated presentation. Internal service funds are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its workers compensation and prescription drug and health care deductible self-insurance programs, the motor pool and garage operations, public works and engineering administration and for the Brownfield Redevelopment Authority's local site remediation activities. Because these services predominantly benefit governmental rather than business-type functions, they have been included within governmental activities in the government-wide financial statements. All of the City's individual internal service fund data is provided in the form of combining statements elsewhere in this report.

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The proprietary fund financial statements provide separate information for the sewage, water and parking deck operations, all of which are considered to be major funds of the City.

Fiduciary funds. Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds.

Management's Discussion and Analysis

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information. This includes schedules concerning the City's progress in funding its obligation to provide pension and other postemployment benefits to its employees.

The combining statements referred to earlier in connection with nonmajor funds are presented immediately following the required supplementary information.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City of Jackson, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$65,828,508 at the close of the most recent fiscal year.

The City's net position reflects its investment in capital assets (e.g., land, buildings, vehicles, equipment and infrastructure), less any related debt used to acquire those assets that is still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the City's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

CITY OF JACKSON, MICHIGAN

Management's Discussion and Analysis

The government's net position increased by \$439,513 during the current fiscal year. Governmental activities decreased \$2,282,898 and business-type activities increased \$2,722,411. The decrease in the governmental activities is due largely to a significant increase in expenses related to the City's housing demolition program. Governmental activities revenues in total increased over the prior year by \$3,262,881, or 8%, while governmental activities expenses increased \$5,903,747, or 16%. The increase in net position in the business-type activities was significantly larger than the increase of \$1,218,904 from last fiscal year. Business-type activities revenues increased \$769,001, or 6%, while business-type activities expenses declined \$179,158, or 1%.

Governmental activities. Governmental activities decreased the City's net position by \$2,282,898 during fiscal year 2016. Some significant elements of this decrease are as follows:

- Income taxes decreased \$536,694, or 6%, from the prior fiscal year. This decrease follows a fiscal year that saw an increase of 9% which was largely attributable to a one-time windfall.
- Capital grants and contributions increased \$1,766,390 largely as a result of major street construction funding for supplemental road and bridge construction.
- With the exception of public safety, expenses, for the most part, were comparable to prior year's. The largest change, an increase in public safety of nearly \$3.5 million, included the addition of over \$2.5 million in blight elimination expenses (demolitions) as well as several smaller increases.

Business-type activities. Business-type activities increased the City's net position by \$2,722,411 during fiscal year 2016 compared to an increase of \$1,218,904 during fiscal year 2015. This \$1,503,507 change resulted from an increase in the sewage activity of \$209,358 and the water activity of \$1,319,566 offset by a decrease in the parking deck activity of \$224,862.

Key elements of this net increase are as follows:

- During the fiscal year there was an approximate 10% increase in sewer and water rates. This follows two fiscal years that saw no rate increases. Prior to that there were increases in both rates of approximately 10% and 2.7% in 2012 and 2013, respectfully.
- Sewer charges for services increased \$344,594, or 8% from the prior fiscal year. Sewer operating expenses increased \$542,651, or 13%. Some of the increase is due to larger than normal sludge removal costs and there was also an increase in the write off of a large receivable due to bankruptcy.
- Water charges for services increased \$557,325, or 8%. The total number of customers declined slightly by 189, or 1.3%, however, the amount of water sold increased by 230 million gallons, or 11.3%. Both residential and commercial user-class revenues declined somewhat while the industrial class showed a significant increase of approximately 82%. Fluctuations, historically, are usually more significant from year to year in the industrial class, as a rule.
- The stormwater utilities expenses decreased by \$679,023, or 100%. This is due to the Stormwater discontinuing operations in fiscal 2015.

Financial Analysis of the Government's Funds

As noted earlier, the City uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

CITY OF JACKSON, MICHIGAN

Management's Discussion and Analysis

As of the end of the current fiscal year, the City's governmental funds reported combined ending fund balances of \$13,539,405, a decrease of \$1,193,011 from the prior year. Approximately 36 percent of this total amount, or \$4,909,006 is available for spending at the government's discretion (unassigned fund balance). The remainder of fund balance is 1) nonspendable to indicate that it is not available for new spending because it must be maintained intact for inventories \$336,116, prepaid expenditures \$81,863, funds advanced on a long-term basis \$90,000, cemetery perpetual care \$1,920,993 and endowments related to Ella Sharp Park and facilities \$1,110,719; 2) restricted to indicate limitations on its use imposed by grants or legislation, which total \$4,137,161; and 3) committed which indicate funds that have self-imposed limitations, which total \$953,547. A summary of the nonspendable, restricted and committed components of fund balance can be found in the notes to financial statements section of this report.

The general fund is the chief operating fund of the City. At the end of the current fiscal year, unassigned fund balance of the general fund was \$6,041,453, while total fund balance was \$6,108,880. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 28.8 percent of total general fund expenditures while total fund balance represents 29.1 percent of total general fund expenditures.

The fund balance of the City's general fund increased by \$567,157 during the current fiscal year. The City continues to experience declines in its tax base, although much smaller than in prior years. State equalized values, which represent 50% of true cash values, actually increased for the second straight year in 2016, signaling what is hoped for as the continuance of an upward trend in taxable values. Income tax revenues, which showed significant growth in the prior year, decreased \$536,694, or 6.0%, from the prior fiscal year. This decline would normally be of concern, however, the prior fiscal year saw an increase of 9.0%, largely due to a one-time windfall, as indicated previously.

The major streets special revenue fund's fund balance decreased \$247,733 from the prior fiscal year leaving a total surplus of \$1,492,026 at fiscal year-end. Total street and state highway construction increased substantially in comparison with the prior fiscal year due largely to approximately \$2.2 million in reconstruction on West Avenue, a state trunkline street running north and south through the west side of the City. Another large project was the Lewis St. Bridge reconstruction, a federal grant-funded project that slightly exceeded \$1 million in costs.

The special assessment capital projects fund, which is used to account for special assessments levied to finance public improvements or services deemed to benefit only the properties against which the assessments are levied, increased the amount of its fund deficit by \$32,093. This fund, which has a deficit by its nature, recorded \$379,311 in new assessment rolls receivable during the fiscal year while receiving collections on such receivables totaling \$347,218.

Proprietary funds. The City's proprietary funds provide the same type of information found in the government-wide financial statements for business-type activities but in more detail.

Unrestricted net position of the sewage fund and water fund at the end of the year amounted to \$10,571,760 and \$10,907,721, respectively. The sewage fund had an increase in net position for the year of \$209,358, and the water fund had an increase of \$1,319,566. Other factors concerning the finances of these two funds have already been addressed in the discussion of the City's business-type activities. The parking deck fund had a decrease in net position of \$224,862. Effective January 1, 2016, the largest user of the parking decks negotiated an agreement with the City to maintain the two decks, as well as some smaller surface lots, in exchange for parking permits that were previously paid for.

General Fund Budgetary Highlights

Differences between the original and final amended budgeted revenues were largely minor adjustments made for the most part during the budget process. Total revenues were unfavorable when compared to budget by \$378,734.

Expenditures were favorable when compared to budget in total by \$1,271,737. The actual increase in fund balance of \$567,157 exceeded the anticipated budgeted decrease of \$444,575 by \$1,011,732, or 4.8 percent of expenditures.

Management's Discussion and Analysis

Capital Assets and Debt Administration

Capital assets. The City's investment in capital assets for its governmental and business-type activities as of June 30, 2016, amounted to \$141,890,953 (net of accumulated depreciation). This investment in capital assets includes land, systems, land improvements, infrastructure, buildings and improvements, park and recreation facilities and machinery and equipment. The total net increase in the City's investment in capital assets for the current fiscal year was \$6,444,376 or 4.8 percent.

Major capital asset events during the fiscal year included the following:

- Infrastructure improvements of approximately \$4.3 million comprised largely of street and bridge construction.
- Various parking as well as water and sewer system improvements totaled approximately \$5 million. Included were water distribution mains of \$2.1 million, sewer line replacements of approximately \$1.2 million and parking lot improvements of \$1.4 million.

Additional information related to capital assets can be found in Note 7 to the financial statements.

Long-term debt. At the end of the current fiscal year, the City had total general obligation debt outstanding of \$38,448,945. Of this amount, \$38,049,452 comprises debt backed by the full faith and credit of the government.

The City issued new debt in the amount of \$1,300,000 and retired existing bonded debt in the amount of \$1,734,125 (4.5 percent) during the current fiscal year.

The City has an "A+" rating from Standard & Poor's for general obligation debt. The sewer fund revenue bonds were not rated.

State statutes limit the amount of general obligation debt a governmental entity may issue to ten percent of its total assessed valuation. The current debt limitation for the City is \$63,299,340, which is significantly in excess of the City's outstanding general obligation debt of \$38,448,945.

Management's Discussion and Analysis

Additional information related to long-term debt can be found in the Note 10 to the financial statements.

Economic Factors and Next Year's Budgets and Rates

The following factors were considered in preparing the City's budget for the 2016/17 fiscal year:

- The unemployment rate for the City is currently 7.4% (October 2016), which is an increase from a rate of 6.7% a year ago (October 2015). While this compares unfavorably to the state's average unemployment rate of 4.7% and the national average rate of 4.9%, the City has maintained consistent employment levels - from 12,689 to 12,686 - which should have a stable, if not positive, effect on this year's income tax revenues.
- Ad valorem (real and personal) taxable values of property have decreased 2.5% over the prior fiscal year. State equalized values, however, as indicated earlier, actually increased for the second consecutive fiscal year since 2009. As a result, it is expected that taxable values will begin to show slow but steady growth in the coming years.
- Inflationary trends in the region compare favorably to national indices.

During the 2016 fiscal year, unassigned fund balance in the general fund increased to \$6,041,453. The current budget anticipates that this fund balance amount will increase by \$191,504.

Fund Balances of Governmental Funds
to Net Position of Governmental Activities
June 30, 2016

Fund balances - total governmental funds	\$ 13,539,405
Amounts reported for <i>governmental activities</i> in the statement of net position are different because:	
Capital assets used in governmental activities are not financial resources, and therefore not reported in the funds.	
Capital assets not being depreciated	2,428,780
Capital assets being depreciated, net	77,441,135
Less capital assets in internal service funds	(812,096)
Because the focus of governmental funds is on short-term financing, some assets will not be available to pay for current-period expenditures. Those assets (such as certain receivables) are offset by deferred inflows in the governmental funds, and thus are not included in fund balance.	
Deferred loans receivable	70,875
Deferred special assessments	1,135,986
Certain pension-related amounts, such as the net pension liability and deferred amounts are not due and payable in the current period or do not represent current financial resources and therefore are not reported in the funds.	
Net pension liability	(55,303,822)
Deferred inflows related to the net pension liability	(5,472,102)
Deferred outflows related to the net pension liability	7,807,919
Internal service funds are used by management to charge the costs of certain activities, such as insurance and other centralized costs, to individual funds. The assets and liabilities of certain internal service funds are included in governmental activities in the statement of net position.	
Net position of governmental activities accounted for in internal service funds	3,320,622
Portion of internal service funds net position attributed to business-type activities	208,325
Certain liabilities, such as bonds payable, are not due and payable in the current period, and therefore are not reported in the governmental funds.	
Unamortized bond discount	109,795
Unamortized deferred loss on refunding	732,897
Bonds and installment contracts	(38,448,945)
Unamortized bond premium	(439,415)

Reconciliation

Net Changes in Fund Balances of Governmental Funds
to Changes in Net Position of Governmental Activities
For the Fiscal Year Ended June 30, 2016

Net change in fund balances - total governmental funds \$ (1,193,011)

Amounts reported for *governmental activities* in the statement of activities
are different because:

Governmental funds report capital outlays as expenditures. However, in the statement
of activities, the cost of those assets is allocated over their estimated useful lives and
reported as depreciation expense.

Capital outlay	8,311,294
Depreciation expense	(4,340,277)

Revenues in the statement of activities that do not provide current financial resources
are not reported as revenues in the funds, but rather are deferred to the following
fiscal year.

Current year special assessment levied greater than receipts	31,045
Current year loan receivable receipts	(115,750)

Bond proceeds provide current financial resources to governmental funds, but issuing
debt increases long-term liabilities in the statement of net position. Repayment of bond
principal is an expenditure in the governmental funds, but the repayment reduces
long-term liabilities in the statement of net position.

Principal payments on long-term liabilities	1,694,125
Proceeds from issuance of long-term liabilities	(1,759,493)

Some expenses reported in the statement of activities do not require the use of current
financial resources and therefore are not reported as expenditures in governmental funds.

Change in accrued interest payable on bonds	(12,194)
Amortization of bond discount	(7,959)
Amortization of bond premium	36,735
Amortization of refunding loss	(56,552)
Change in net other postemployment benefit obligation	(3,208,852)
Change in net pension liability and related deferred amounts	(2,148,675)
Change in the accrual of compensated absences	(35,581)

Internal service funds are used by management to charge the costs of certain activities,
such as insurance and other centralized costs, to individual funds. The net revenue
(expense) of certain internal service funds is reported with governmental activities.

Net operating income from governmental activities accounted for in internal service funds	632,153
Net operating loss attributable to business-type activities	(159,152)
Interest revenue from governmental internal service funds	49,246

Change in net position of governmental activities \$ (2,282,898)

NOTES TO THE FINANCIAL STATEMENTS

CITY OF JACKSON, MICHIGAN

Notes to Financial Statements

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The City of Jackson, Michigan (the “City”) was incorporated in 1857 and is the seat of Jackson County. The City operates under a Council-Manager form of government and provides the following services: public safety, public works, community development, culture and recreation.

The financial statements of the City of Jackson, Michigan have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the City’s accounting policies are described below.

Reporting Entity

As required by generally accepted accounting principles, the financial statements of the reporting entity include those of the City (the primary government) and its component units. The component units discussed below are included in the City’s reporting entity because of the significance of their operational or financial relationship with the City. Each blended or discretely presented component unit has a June 30 year end.

Blended Component Unit

Blended component units, although legally separate entities, are essentially part of the government’s operations and so data from these units are combined with data of the primary government. Each discretely presented component unit, on the other hand, is reported in a separate column in the government-wide financial statements to emphasize it is legally separate from the government.

City of Jackson Building Authority - All Board Members of the City of Jackson Building Authority are selected by the City Council and the annual budget is approved by the City Council. Proceeds from a limited-tax full faith and credit general obligation bond issue are used to finance certain improvements and renovations in City Hall. The Authority’s activity is presented in the capital projects and debt service funds.

Discretely Presented Component Units

Discretely presented component units are entities that are legally separate from the City but for which the City is financially accountable, or their relationship with the City is such that exclusion would cause the City’s financial statements to be misleading or incomplete. The discretely presented component units, each with a June 30 fiscal year end, are as follows:

City of Jackson Brownfield Redevelopment Authority - The Brownfield Redevelopment Authority was established by the City to facilitate the revitalization of environmentally distressed areas utilizing tax increment financing. The majority of Board members are appointed by the Mayor and subject to City Council approval. The City has the ability to significantly influence operations and has accountability for financial matters. Separate financial statements are not prepared. The Authority uses governmental fund type accounting and is reported in a separate column. The Brownfield Redevelopment Authority is accounted for as a capital projects fund.

City of Jackson Downtown Development Authority - The Downtown Development Authority is responsible for directing improvements in a taxing district within the City. The Mayor appoints the members of the Authority’s governing board, subject to City Council approval. The City has the ability to significantly influence operations and has accountability for financial matters. The Authority uses governmental fund type accounting and is reported in a separate column.

Basis of Presentation

Government-wide and Fund Financial Statements

Government-wide Financial Statements. The statements of net position and activities display information about the primary government and its component units. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. Interfund services provided and used are not eliminated in the process of consolidation. These statements distinguish between the City's *governmental* and *business-type* activities. Governmental activities generally are financed through taxes, intergovernmental revenues and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are payments in lieu of taxes and other charges between the government's water and sewer function and various other functions of the government. Elimination of these charges would distort the direct costs and program revenues reported for the various functions concerned.

The statement of activities presents a comparison between direct expenses and program revenues for the different business-type activities of the City and for each function of the City's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Indirect expense allocations that have been made in the funds have been reversed for the statement of activities. Program revenues include (a) fees, fines and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements. The fund financial statements provide information about the City's funds, including its fiduciary funds and blended component unit. Separate statements for each fund category - *governmental*, *proprietary* and *fiduciary* - are presented. The emphasis of fund financial statements is on major governmental and enterprise funds, each displayed in a separate column. All remaining governmental and enterprise funds are aggregated and reported as nonmajor funds.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Government-wide, Proprietary and Fiduciary Fund Financial Statements. The government-wide, proprietary and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, except for agency funds, which do not have a measurement focus. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Proprietary funds distinguish *operating* revenues and expenses from *nonoperating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the City's enterprise funds and internal service funds are charges to customers for sales and services. Operating expenses for enterprise funds and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

CITY OF JACKSON, MICHIGAN

Notes to Financial Statements

Nonexchange transactions, in which the City gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes, grants, entitlements and donations. On an accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements. Governmental fund financial statements are reported using the *current financial resources measurement focus* and the *modified accrual basis of accounting*. Under this method, revenues are recognized when measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within sixty days of the end of the current fiscal period, except for reimbursement-based grants which must be collected within one year. Property taxes, franchise taxes, licenses and interest are considered to be susceptible to accrual.

Expenditures generally are recorded when a related fund liability is incurred, except for debt service expenditures, compensated absences, and claims and judgments, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds from general long-term debt and acquisitions under capital leases, if any, are reported as other financing sources.

Under the terms of grant agreements, the City funds certain programs by a combination of specific cost-reimbursement grants, categorical block grants, and general revenues. Thus, when program expenses are incurred, there are both restricted and unrestricted net position available to finance the program. It is the City's policy to first apply cost-reimbursement grant resources to such programs, followed by categorical block grants, and then by general revenues.

The City reports the following major governmental funds:

The *general fund* is the government's primary operating fund. It accounts for all the financial resources of the general government, except those accounted for and reported in another fund.

Major streets special revenue fund. This fund is used to control the expenditures of motor fuel taxes which are earmarked by law for major street and highway purposes.

Special assessment capital projects fund. This fund accounts for public improvement expenditures deemed to benefit only the properties against which the special assessments are levied.

The City reports the following major enterprise funds:

Sewage enterprise fund. This fund accounts for the activities of the City's sewage disposal and sewage treatment systems.

Water enterprise fund. This fund accounts for the operations of the City's water distribution and water treatment systems.

Parking deck enterprise fund. This fund accounts for the operations of the City's East and West parking deck structures as well as surface parking constructed on Water Street.

CITY OF JACKSON, MICHIGAN

Notes to Financial Statements

Additionally, the City reports the following fund types:

The *special revenue funds* are used to account for and report the proceeds of specific revenue sources that are restricted or committed to expenditures for specified purposes other than debt service or capital projects.

The *debt service funds* are used to account for and report financial resources that are restricted, committed, or assigned to expenditures for principal and interest on long-term general obligation debt of governmental funds.

The *capital projects funds* are used to account for and report financial resources that are restricted, committed, or assigned to expenditures for capital outlays, including the acquisition or construction of capital facilities and other capital assets that are not being financed by proprietary funds.

The *permanent funds* account for and report resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs—that is, for the benefit of the government or its citizenry.

The *enterprise funds* account for those operations that are financed and operated in a manner similar to private business or where the City has decided that the determination of revenues earned, costs incurred and/or net income is necessary for management accountability.

The *internal service funds* are proprietary funds used to account for major machinery and equipment purchases and maintenance, as well as risk management services provided to other departments of the City on a cost reimbursement basis.

The *pension and other employee benefits trust funds* account for the activities of the City's three retirement funds and the retiree health care fund, which accumulate resources for retirement benefit payments and future retiree health care costs to qualified employees.

The *agency funds* account for assets held by the City as an agent for individuals, private organizations, other governments and/or other funds. Agency funds account for property tax collections, are custodial in nature (assets equal liabilities), and do not involve the measurement of results of operations.

Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Equity

Deposits and Investments

The City Treasurer maintains a cash management pool that is used by all funds and component units of the government, except for the pension trust funds and the downtown development authority component unit. In addition to their participation in the cash management pool, certain funds and component units also have separate checking accounts. The cash management pool has the general characteristics of a demand deposit account in that deposits and withdrawals may be made at any time without prior notice or penalty. Accordingly, each fund's portion of this pool, along with any amounts in separate demand deposit accounts, is reported as "pooled cash and investments".

The City's cash and cash equivalents are considered to be cash on hand, demand deposits and short-term investments with original maturities of three months or less from the date of acquisition.

CITY OF JACKSON, MICHIGAN

Notes to Financial Statements

State statutes authorize the government to deposit in the accounts of federally insured banks, credit unions, and savings and loan associations, and to invest in obligations of the U.S. Treasury, certain commercial paper, repurchase agreements, bankers acceptances, and mutual funds composed of otherwise legal investments. The State's Pension Investment Act, as amended, authorizes the pension trust fund to invest in common stocks, real estate, and various other investment instruments, subject to certain limitations.

Investments are stated at fair value. Short-term investments are reported at cost, which approximates fair value. Securities traded on a national or international exchange are valued at the last reported sales price at current exchange rates. Mortgages are valued on the basis of future principal and interest payments, and are discounted at prevailing interest rates for similar instruments. Investments that do not have established market values are reported at estimated fair value. Cash deposits are reported at carrying amounts, which reasonably approximates fair value.

Unrealized appreciation or depreciation on pension trust and permanent fund investments due to changes in fair value are recognized each year.

Receivables and Payables

All trade and delinquent property tax receivables are shown net of an allowance for uncollectibles, as applicable.

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as either interfund receivables/payables (i.e., the current portion of interfund loans) or *advances to/from other funds* (i.e., the non-current portion of interfund loans). All other outstanding balances between funds are reported as *due to/from other funds*. Any residual balances outstanding between the governmental and business-type activities are reported in the government-wide financial statements as internal balances.

Inventories, Prepaid Items and Other Assets

All inventories are valued at cost using the first-in/first-out method. Inventories of governmental funds, with the exception of the Major Streets Fund, are recorded as expenditures when purchased.

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items when purchased in both government-wide and fund financial statements.

Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the applicable governmental or business type activities columns in the government-wide financial statements. The government defines capital assets as assets with an initial, individual cost of more than \$5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated acquisition at the date of donation.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities, if any, is included as part of the capitalized value of the assets constructed. No such interest expense was incurred during the current fiscal year.

CITY OF JACKSON, MICHIGAN

Notes to Financial Statements

Capital assets of the primary government are depreciated using the straight line method over the following estimated useful lives:

	Years
Public domain infrastructure	16-50
Land improvements	50
Buildings and improvements	50
Park and recreation facilities	50
Machinery and equipment	5-15
Water and sewage systems	10-50

Deferred Outflows of Resources

In addition to assets, the statement of net position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then. A deferred charge on refunding results from the difference in the carrying value of refunded debt and its reacquisition price. This amount is deferred and amortized over the shorter of the life of the refunded or refunding debt. The City reports deferred outflows of resources for change in expected and actual investment returns, assumptions, and benefits provided in its pension plans.

Compensated Absences

It is the government's policy to permit employees to accumulate earned but unused vacation and compensatory time benefits, subject to certain limitations. Certain bargaining unit employees are also permitted to accumulate earned but unused sick leave. All vacation and compensatory time pay and 50 percent of sick leave are accrued when incurred in the government-wide and proprietary fund financial statements. A liability for these amounts is reported in governmental funds only if they have matured, for example, as a result of employee resignations or retirements.

Long-term Obligations

In the government-wide financial statements, and proprietary fund types in the fund financial statements, long-term debt and other long-term obligations are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund type statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

CITY OF JACKSON, MICHIGAN

Notes to Financial Statements

Deferred Inflows of Resources

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to one or more future periods and so will not be recognized as an inflow of resources (revenue) until that time. The governmental funds also report unavailable revenues, which arise only under a modified accrual basis of accounting that are reported as deferred inflows of resources. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The City also reports deferred inflows of resources for change in expected and actual investment returns.

Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Plan and additions to/deductions from the plan fiduciary net position have been determined on the same basis as they are reported by the plan. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Fund Balances

Governmental funds report nonspendable fund balance for amounts that cannot be spent because they are either (a) not in spendable form or (b) legally or contractually required to be maintained intact. Restricted fund balance is reported when externally imposed constraints are placed on the use of resources by grantors, contributors, or laws or regulations of other governments. Committed fund balance is reported for amounts that can only be used for specific purposes pursuant to constraints imposed by formal action of the government's highest level of decision-making authority, the City Council. A formal resolution of the City Council is required to establish, modify, or rescind a fund balance commitment. Authority rests with the City Council to assign fund balances. Assigned fund balances are reported in instances where the City Council has authorized for the making of such assignments. The general fund is the only fund that reports a positive unassigned fund balance amount. Governmental funds other than the general fund may find it necessary to report a negative unassigned fund balance if expenditures incurred for a specific purpose exceed the amounts that are restricted, committed, or assigned to that purpose. Unassigned fund balance is the residual classification used only for the general fund and any deficits reported in other governmental funds.

When the government incurs expenditures for purposes for which various fund balance classifications can be used, it is the government's policy to use restricted fund balance first, then committed, assigned and finally unassigned fund balance.

2. BUDGETARY INFORMATION

Annual budgets are adopted on a basis consistent with generally accepted accounting principles for the general and special revenue funds. All annual appropriations lapse at year end, except for those approved by the City Council for carry forward. The City Council requires the City Manager to submit an estimate of revenues and anticipated expenditures for the succeeding fiscal year in June. The City Manager is then authorized to assign and transfer budget amounts within each fund to the extent that the net total fund appropriation (which the City defines as gross authorized expenditures less related revenues that are specifically designated to fund those activities) is not exceeded.

CITY OF JACKSON, MICHIGAN

Notes to Financial Statements

An operating budget is adopted each fiscal year for the general and special revenue funds on a basis consistent with GAAP. Budgets are legally required for the general and special revenue funds. Budgetary control is exercised at the activity level within the general fund and the community development block grant special revenue fund, and on the fund level for all other funds. Accordingly, financial statement presentation is made on this basis. A City Council resolution is required to increase activity budget amounts within the general fund and the community development block grant special revenue fund and any supplemental appropriations that increase the total expenditures of any other fund. Management can make budget transfers between line items within an activity for the general fund and the community development block grant special revenue fund and between line items for the fund as a whole for other funds.

Council reported budgeted amounts are as originally adopted or are amended by department revision or resolution. Supplemental budgetary appropriations were made during the year, the total of which was not significant in relation to the original appropriations.

Encumbrances

Encumbrance accounting, under which purchase orders, contracts and other firm commitments are used for the expenditure of monies, is utilized as an extension of formal budgetary control in the governmental funds. Encumbered amounts lapse at year-end, however, material encumbrances generally are reappropriated as part of the following year's budget.

3. EXCESS OF EXPENDITURES OVER APPROPRIATIONS

During the year ended June 30, 2016, the City incurred expenditures in certain budgetary funds which were in excess of the amounts appropriated, as follows:

	Total Appropriations	Amount of Expenditures	Budget Variance
General fund			
General government:			
City Clerk - Elections	\$ 111,387	\$ 124,633	\$ 13,246
Personnel	275,222	286,544	11,322
City Treasurer	329,472	335,971	6,499
Nonmajor governmental funds			
Public improvement special revenue fund	285,969	617,587	331,618
Recreation activity special revenue fund	228,650	235,241	6,591

4. FUND DEFICIT

At June 30, 2016, the special assessment capital projects fund had a fund deficit of \$1,132,447. This deficit will be eliminated as deferred special assessments become due.

Cash on hand			16,065
Total			\$ 112,282,978

Deposits and Investments - Cash and Investment Pool

Custodial Credit Risk - Deposits. For deposits, custodial credit risk is the risk that, in the event of a bank failure, the City's deposits may not be returned to it. As of June 30, 2016, \$18,662,750 of the City's total bank balance of \$22,083,249 (total book balance was \$21,336,863) was exposed to custodial credit risk as it was uninsured and uncollateralized.

The City's investment policy does not specifically address this risk, although the City believes that due to the dollar amounts of cash deposits and the limits of FDIC insurance, it is impractical to insure all bank deposits. As a result, the City evaluates each financial institution with which it deposits City funds and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Custodial Credit Risk - Investments. Following is a summary of the City's investments as of June 30, 2016:

U.S. treasuries	\$ 1,066,714
U.S. agencies	778,672
Domestic equities	20,815
Money markets	13,059,071
Total	\$ 14,925,272

CITY OF JACKSON, MICHIGAN

Notes to Financial Statements

For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the System will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The City's investment policy requires that investment securities be held in third-party safekeeping by a designated institution and that the safekeeping agent follow the procedure of delivery vs. payment. As of June 30, 2016, none of the City's investments, excluding the money market accounts which are not subject to custodial credit risk, were exposed to risk since the securities are held in the City's name by the counterparty.

Credit Risk. As of June 30, 2016, all of the City's investments in securities of U.S. agencies were rated AA+ by Standard & Poor's. The City also held investments in U.S. treasuries and money market accounts, which are not rated. The City's investment policy does not have specific limits in excess of state law on investment credit risk.

Concentration of Credit Risk. The City's investment policy does not address this risk. At June 30, 2016, there were no concentrations in securities of any one issuer greater than 5% of investment fair market value.

Interest Rate Risk. As of June 30, 2016, maturities of the City's debt securities were as follows:

	Investment Maturities (fair value by years)			
	Fair Value	Less Than 1	1-5	6-10
U.S. treasuries	\$ 1,066,714	\$ 105,261	\$ 613,874	\$ 347,579
U.S. agencies	778,672	502,322	276,350	-
	<u>\$ 1,845,386</u>	<u>\$ 607,583</u>	<u>\$ 890,224</u>	<u>\$ 347,579</u>

The City's investment policy does not address interest rate risk. The City's investments in U.S. agencies are non-callable.

Fair Value Measurements. The City categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs.

As of June 30, 2016, the recurring fair value measurements for the City's investments were: the domestic equities and money market accounts were Level 1 and the U.S. treasuries and agencies were Level 2.

Deposits and Investments - Pension and Other Employee Benefits Trust Funds

The City maintains three pension trust funds (see Note 16) and one other employee benefits trust fund (see Note 17) where deposits and investments are maintained separately from the City's pooled cash and investments, and are subject to separate investment policies and state statutes. Accordingly, the required disclosures for the pension and other employee benefits trust funds' deposits and investments are presented separately.

Deposits - The pension and other employee benefits trust funds do not maintain any checking or other demand/time deposit accounts.

CITY OF JACKSON, MICHIGAN

Notes to Financial Statements

Investments - The Michigan Public Employees Retirement Systems' Investment Act, Public Act 314 of 1965, as amended, authorizes the pension and other employee benefit trusts to invest in stocks, government and corporate securities, mortgages, real estate, and various other investment instruments, subject to certain limitations. The Retirement Boards have the responsibility and authority to oversee the respective investment portfolios. Various professional investment managers are contracted to assist in managing the trust funds' assets. All investment decisions are subject to Michigan law and the investment policy established by each respective Retirement Board.

The pension and other employee benefits trust funds' investments are held in various financial institution or bank-administered trusts. Following is a summary of the funds' investments as of June 30, 2016:

Investments at fair value, as determined by	
quoted market price:	
U.S. treasuries	\$ 2,069,735
U.S. agencies	1,026,547
Corporate bonds:	
Domestic bonds	8,274,361
Domestic mutual funds	10,926,976
Equities:	
Domestic stocks	24,206,979
Domestic mutual funds	14,439,041
International stocks	6,463,915
International mutual funds	5,170,083
Money market accounts	<u>3,381,141</u>
Total investments	<u>\$ 75,958,778</u>

Credit Risk. The pension and other employee benefits trust funds' investment policy provides that its investments in fixed income securities should have an investment grade rating by two nationally recognized statistical rating organizations. As of June 30, 2016, the pension and other employee benefits trust funds' investments in securities of U.S. agencies were all rated AA+ by Standard & Poor's.

CITY OF JACKSON, MICHIGAN

Notes to Financial Statements

The pension and other employee benefits trust funds' investments in domestic corporate bonds were rated by Standard & Poor's as follows:

B	279,361
B-	317,119
Not rated	<u>2,869,479</u>
Totals	<u>\$ 8,274,361</u>

Custodial Credit Risk. For investments, custodial credit risk is the risk that, in the event of the failure of the counterparty, the pension and other employee benefits trust funds will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The pension and other employee benefits trust funds' investment policy requires that investment securities be held in trust by a third-party institution in each fund's name. As such, although uninsured and unregistered, the pension and other employee benefits trust funds' investments are not exposed to custodial credit risk since the securities are held by the counterparty's trust department in each funds' name.

Short-term investments in money market accounts are not subject to custodial credit risk.

Concentration of Credit Risk. The pension and other employee benefits trust funds' investment policies require that the securities of any one company or government agency should not exceed 5% of the total investment market value of each individual pension and other employee benefit trust fund. At June 30, 2016, there were no concentrations in securities of any one issuer greater than 5% of investment fair market value.

The City assumes that its callable bonds totaling \$797,695 will not be called. The pension and other employee benefits trust funds' investment policies do not address interest rate risk.

Fair Value Measurements. The pension and other employee benefits trust funds categorize the fair value measurements of its investments within the fair value hierarchy established by generally accepted accounting principles. Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities. Level 2 inputs - other than quoted prices - included within Level 1 that are observable for the asset or liability, either directly or indirectly. Finally, Level 3 inputs are unobservable and are based on estimates and assumptions. These levels are determined by the management's review of the type and substance of investments held by the pension and other employee benefits trust funds.

The pension and other employee benefits trust funds had the following recurring fair value measurements as of June 30, 2016:

	Level 1	Level 2	Level 3	Total
U.S. treasuries	\$ -	\$ 2,069,735	\$ -	\$ 2,069,735

8. PAYABLES

Payables in the governmental activities are 58.2 percent vendors, 15.3 percent claims, 22.6 percent accrued payroll, and 3.9 percent other. Business-type activities payables are 76.4 percent vendors, 17.0 percent deposits and 6.6 percent accrued payroll.

9. INTERFUND RECEIVABLES AND PAYABLES AND TRANSFERS

At June 30, 2016, amounts due from and due to other funds were as follows:

Receivable funds	Payable Funds				Total
	General Fund	Special Assessment Capital Projects	Nonmajor Governmental Funds	Internal Service Funds	
Nonmajor governmental funds	\$ 54,329	\$ 33,089	\$ 140	\$ 15,905	\$ 103,463

At June 30, 2016, long-term advances between funds were as follows:

Receivable funds	Payable Funds				Total
	Special Assessment Capital Projects	Nonmajor Governmental Funds	Nonmajor Enterprise Funds	Internal Service Funds	
General fund	\$ -	\$ 50,000	\$ -	\$ -	\$ 50,000

The City has interfund balances between many of its funds. The sum of all balances presented in the tables above agrees with the sum of interfund balances presented in the statements of net position/balance sheet for governmental funds and proprietary funds. These interfund balances resulted primarily from the time lag between the dates that (1) interfund goods and services are provided or reimbursable expenditures occur, (2) transactions are recorded in the accounting system, and (3) payments between funds are made. The advance from the nonmajor governmental funds was executed in order to assist the cash position (cash flow) of the golf practice center enterprise activity. Also, an advance from the internal service funds was used to provide cash for the special assessment capital projects fund and for the equipment revolving fund. Additionally, an advance from the general fund was used to provide cash for the community development block grant fund.

CITY OF JACKSON, MICHIGAN

Notes to Financial Statements

At June 30, 2016, the interfund receivables and payables, which resulted from negative cash balances, consisted of the following:

	Receivable Fund	Payable Fund
General fund	\$ 1,849,114	\$ -
Nonmajor governmental funds	-	1,849,114
Totals	\$ 1,849,114	\$ 1,849,114

For the year ended June 30, 2016, interfund transfers consisted of the following:

Transfers Out	Transfers In				Total
	General Fund	Major Streets Fund	Nonmajor Govern- mental Funds	Nonmajor Enterprise Funds	
General fund	\$ 4,137	\$ -	\$ 703,881	\$ 21,500	\$ 729,518

For the governmental activities, compensated absences, net pension benefit obligations and net other postemployment benefit obligations, if any, are generally liquidated by the general fund.

11. SEGMENT INFORMATION - ENTERPRISE FUNDS

The government issued revenue bonds to finance certain improvements to its water and sewage systems. Because the water and sewage funds, which are individual enterprise funds that account entirely for the government's water and sewage activities, are reported as major funds in the fund financial statements, segment disclosures herein are not required.

12. ENDOWMENTS

Ella W. Sharp Park Endowment Permanent Trust Fund. For the year ended June 30, 2016, the net appreciation on investments of donor-restricted endowments was \$36,846 and there was an overall increase in fund balance of \$12,431. Under the terms of the endowment, and consistent with State statutes, the City is authorized to spend the trust earnings, except for unrealized gains and losses, for the benefit of the Ella Sharp Park. The nonexpendable endowment balance is \$1,110,719.

Cemetery Perpetual Maintenance Permanent Trust Fund. For the year ended June 30, 2016, the net appreciation on investments of donor-restricted endowments was \$45,702 and there was an overall increase in fund balance of \$38,234. Under the terms of the endowment, and consistent with State statutes, the City is authorized to spend the trust earnings, except for unrealized gains and losses, for the benefit of the cemetery system. At year-end the nonexpendable endowment balance is \$1,920,993.

13. RISK MANAGEMENT

During the normal course of its operations, the City is exposed to various risks of loss related to liability, employee injury and other circumstances. In all instances other than workers' compensation, the City has retained coverages through commercial insurance carriers. For workers' compensation, the City has opted to protect itself from risks through means other than the purchase of traditional insurance coverage.

In 1979, the City established a self-insurance program for workers' compensation, which is accounted for in the workers' compensation internal service fund. This program is administered by a service agency, which furnishes safety inspection, claims review, and claims processing. A specific excess workers' compensation reinsurance policy indemnifies the City on a statutory basis in excess of the first \$1,000,000 per occurrence. All applicable funds are charged premiums based on payroll and workers' compensation classification. Settled claims have not exceeded insurance coverage in any of the past three fiscal years.

The claims liability of \$274,612 reported in the workers' compensation internal service fund at June 30, 2016, is based on the requirements of Governmental Accounting Standards Board Statement No. 10, as amended, which requires that a liability for claims be reported if it is probable that a liability has been incurred at the date of the financial statements and the amount of the loss can be reasonably estimated. The claims liability is estimated by management based upon historical experience. No annuity contracts have been purchased for claims liabilities. At June 30, 2016, \$111,021 of the total amount is considered to be due within one year.

The changes in the workers' compensation internal service fund liability amount for the years ended June 30, 2016 and 2015, are as follows:

	2016	2015
Claims liability at beginning of fiscal year	\$ 427,191	\$ 513,318
Claims and changes in estimates	(78,181)	(1,929)
Claims payments	<u>(74,398)</u>	<u>(84,198)</u>
Claims liability at June 30, 2016	<u>\$ 274,612</u>	<u>\$ 427,191</u>

There were no significant reductions in insurance coverage from the prior year, and no insurance settlements have exceeded coverage for each of the past three fiscal years.

14. PROPERTY TAXES

Property taxes attach as an enforceable lien on property as of December 31 each year. The City property tax is levied July 1 based on the taxable value of the property as of the preceding December 31. Real and personal property in the City for the July 1, 2015 levy was assessed and valued at approximately \$589 million, representing approximately 50% of estimated current market value.

The City's operating tax rate is 6.72 mills (cannot exceed 7.00 mills) with an additional 1.92 (cannot exceed 2.00 mills) for public improvement, 6.33 for Act 345 Pension, 1.06 for City Hall bond, and 2.00 for the Downtown Development Authority, a component unit of the City.

Taxes are payable to the City in five equal installments on the twentieth of the month commencing in July and ending in November. They are deemed delinquent immediately after the due date.

CITY OF JACKSON, MICHIGAN

Notes to Financial Statements

15. CONTINGENT LIABILITIES

Amounts received or receivable from grantor agencies are subject to audit and potential adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time, although the government expects such amounts, if any, to be immaterial.

The government is a defendant in various lawsuits. Although the outcome of these lawsuits is not presently determinable, it is the opinion of the government's counsel that resolution of these matters will not have a material adverse effect on the financial condition of the government.

On July 1, 1974 the City sold the Reynolds Municipal Airport to the County of Jackson. The terms of the transfer document indicated the property was being sold "as is". There was also language in the transfer documents providing for indemnification from the County to the City. The County is undertaking an expansion of the airport runways. During the preliminary stages of the expansion, it was discovered the City had operated a landfill on the property during the City's ownership. The landfill was licensed by the Michigan Department of Natural Resources during the City's operation. Even though the City complied with all laws in existence at the time, the City remains liable for any contamination resulting from the ownership/operation of the landfill. As part of the Airport expansion process, the County gave notice to the Michigan Department of Environmental Quality (MDEQ) that an old landfill was on the site. As a result of the County's action, the City received a Notice of Violation in 2005 from the MDEQ. In August 2007, the City released its right to the Reverter clause contained in the 1974 transfer deed to the County. In return, the City received additional indemnification from the County. It is not known at present if the MDEQ will have specific requirements during runway construction. The matter is not covered by insurance and the potential costs could be significant. No provision for the loss has been made in the accompanying financial statements.

16. PENSION PLAN - SINGLE EMPLOYER PENSION TRUST FUNDS

General Information about the Pension Plans

Plan administration. The City administers three single-employer defined benefit pension plans which provide retirement, death, and disability benefits covering substantially all City employees, subject to certain eligibility requirements. The obligation to contribute to these three plans and benefit provisions are authorized and amended by City ordinance. The plans do not issue separate or stand-alone reports.

Plan membership. At June 30, 2016, the date of the roll forward of the prior year actuarial valuations, system membership consisted of the following:

	Employees' Retirement System	Policemen's and Firemen's Pension Fund	Policemen's and Firemen's Pension - Act 345 Fund
Retirees and beneficiaries receiving benefits	187	24	169
Terminated plan members entitled to, but not yet receiving benefits	25	-	6
Active plan members	136	-	68

Employees' Retirement System

Benefits provided. The Employees' Retirement System Pension Plan (ERS) is a contributory defined benefit plan that covers substantially all City employees not covered under one of the City's policemen's and firemen's pension plans and provides for retirement, death, and disability benefits. Members contribute 2.5% of annual compensation or one-half of the actuarially computed contribution if it is greater than 5.0%. The City contributes 2.5% of total compensation as a minimum, plus additional amounts as are necessary to provide assets sufficient for the early retirement window period. Pursuant to actuarial requirements, members contribute 10.6% for employees hired before July 1, 2012, and 7.29% for employees hired after July 1, 2012 with the City contributing 9.92%. Accumulated member contributions are annually credited with interest at 0.26%. Administrative costs of the plan are financed through investment earnings.

Management of the ERS is vested in the City of Jackson Employees' Retirement System Board of Trustees, which consists of nine members, four are elected to four-year terms (with no more than one from any one department), one is a citizen appointed by the City Council, one is a city council member appointed by the City Council and the remaining three are the Mayor, City Manager and City Clerk of the City of Jackson.

Contributions. Members contribute 2.5% of annual compensation or one-half of the actuarially computed contribution if it is greater than 5.0%. The City contributes 2.5% of total compensation as a minimum, plus additional amounts as are necessary to provide assets sufficient for the early retirement window period. Pursuant to actuarial requirements, members contribute 10.6% with the City contributing 12.22%. Accumulated member contributions are annually credited with interest at 0.26%. Administrative costs of the plan are financed through investment earnings.

Actuarial assumptions. The total pension liability was determined by an actuarial valuation as of June 30, 2015, (rolled forward to June 30, 2016) using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0%
Salary increases	3.0% to 7.0%, including inflation
Investment rate of return	7.5%, net of expenses
Mortality rate	RP-2000 Mortality Table

Discount rate. A single discount rate of 6.93% was used to measure the total pension liability. The single discount rate was based on an expected rate of return on pension plan investments of 7.50% and a municipal bond rate of 3.8%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2053. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2053, and the municipal bond rate was applied to all benefit payments after that date.

Policemen's and Firemen's Pension

Benefits provided. The Policemen's and Firemen's Pension Plan is a contributory defined benefit plan that covers certain uniformed policemen and firemen hired prior to July 1, 1974, and provides for retirement, death, and disability benefits. There are no remaining active plan members. The City contributes such amounts as are necessary to provide assets sufficient to meet the benefits to be paid to plan members. Administrative costs of the Plan are financed through investment earnings.

Management of this plan is vested in a separate board of trustees, which consists of five members, two of which are elected from the plan retirees (or, if none are available or willing to serve as this is a closed plan, from active members of the Act 345 Plan described below) and three are appointed by the City Council.

Contributions. The annual required contribution for the current year was determined as part of a June 30, 2015 actuarial valuation using the entry age method. The actuarial assumptions included a 7.5% rate of return on investments and a 3.0% cost of living adjustment.

Actuarial assumptions. The total pension liability was determined by an actuarial valuation as of June 30, 2015, (rolled forward to June 30, 2016) using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	Not applicable
Salary increases	Not applicable
Investment rate of return	7.0%, net of expenses
Retirement age	Closed plan
Mortality rate	RP-2000 Combined Table

Discount rate. A single discount rate of 6.0% was used to measure the total pension liability. The single discount rate was based on an expected rate of return on pension plan investments of 6.0%. The projection of cash flows used to determine this single discount rate assumed that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates. Based on these assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Policemen's and Firemen's Pension - Act 345

Benefits provided. The Policemen's and Firemen's Pension Plan - Act 345 is a contributory defined benefit plan that covers uniformed policemen and firemen hired subsequent to July 1, 1974, and certain policemen and firemen hired prior to that date who have elected, under the provisions of the plan, to transfer from the City's Policemen's and Firemen's Pension Plan, and provides for retirement, death, and disability benefits. Members contribute 10.95% of annual compensation with the City contributing such additional amounts as are necessary to provide assets sufficient to meet the benefits to be paid to plan members. Accumulated member contributions are annually credited with interest at 2.0%. Administrative costs of the Plan are financed through investment earnings.

Management of this plan is vested in the City of Jackson Act 345 Pension Board, which consists of five members, two are elected to four-year terms (one each from the fire and police departments), two are appointed by the City Council and one is the City Treasurer of the City of Jackson.

Contributions. The annual required contribution for the current year was determined as part of a June 30, 2015 actuarial valuation using the entry age method. The actuarial assumptions included a 6.75% rate of return on investments and a 3.0% cost of living adjustment.

Actuarial assumptions. The total pension liability was determined by an actuarial valuation as of June 30, 2015, (rolled forward to June 30, 2016) using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	3.0%
Salary increases	3.00% to 9.00%
Investment rate of return	6.75%, net of expenses
Mortality rate	RP-2000 Combined Table

Discount rate. A single discount rate of 6.57% was used to measure the total pension liability. The single discount rate was based on an expected rate of return on pension plan investments of 6.75% and a municipal bond rate of 2.85%. The projection of cash flows used to determine this single discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on these assumptions, the pension plan's fiduciary net position and future contributions were sufficient to finance the benefit payments through the year 2061. As a result, the long-term expected rate of return on pension plan investments was applied to projected benefit payments through the year 2061, and the municipal bond rate was applied to all benefit payments after that date.

The plans' policy in regard to the allocation of invested assets is established and may be amended by the respective Board of Trustees. The policy pursues an investment strategy that protects the financial health of the plans and reduces risk through the prudent diversification of the portfolio across a broad selection of distinct asset classes. Plan assets will be invested in the broad investment categories and asset classes to achieve the allocation targets below. Recognizing that asset returns may vary, causing fluctuations in the relative dollar value levels of assets within classes, the plans may not maintain strict adherence to the targets in the short-term, but may allow the values to fluctuate within these ranges. Over the long-term, the plans will strive to adhere to the given targets as financially practicable and move toward target allocations in a prudent manner consistent with its fiduciary duty. The investment allocation targets for each plan are as follows:

Asset Class	Employees' Retirement System	Policemen's and Firemen's Pension Fund	Policemen's and Firemen's Pension - Act 345 Fund
Domestic fixed income	30.00%	35.00%	33.75%
Domestic equity	45.00%	50.00%	48.25%
International equity	20.00%	15.00%	18.00%
Real estate	5.00%	-	-
	<u>100.00%</u>	<u>100.00%</u>	<u>100.00%</u>

The long-term expected rate of return on pension plan investments (for each plan) was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. Best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of June 30, 2016 have not been formally adopted but are closely monitored by the Board of Trustees of each in order to achieve a blended money-weighted real rate of return of 8.0 percent.

17. POSTEMPLOYMENT BENEFITS

The City provides postemployment healthcare benefits to substantially all full-time employees who retire from the City under one of its three pension plans. The extent of the cost of those benefits paid by the City are dependent upon a variety of factors including hire date, retirement date, years of service and bargaining unit. The plan is treated as a single-employer defined benefit healthcare plan administered by the City; the plan utilizes a retirement health funding vehicle trust established with the Municipal Employees Retirement System of Michigan to invest plan assets. The plan was adopted and established by action of the City Council. The plan is reported as an other employee benefit trust fund in the accompanying financial statements. The plan does not issue a separate or stand-alone report.

CITY OF JACKSON, MICHIGAN

Notes to Financial Statements

The plan's financial statements are prepared using the accrual basis of accounting. Plan contributions are recognized in the period in which the contributions are due and the employer has made a formal commitment to provide the contribution. Benefits and refunds are recognized when due and payable in accordance with the terms of the plan.

Plan membership consisted of 194 retirees currently receiving benefits and 203 active members at June 30, 2013, the date of the latest actuarial valuation.

The City has no obligation to make contributions in advance of when the insurance premiums of benefits are due for payment; in other words, the plan may be financed on a pay-as-you-go basis. Administrative costs of the plan are paid for by the City's general fund. Plan participants are not required to contribute to the plan.

For the year ended June 30, 2016, the City estimated the cost of providing retiree healthcare benefits through an actuarial valuation as of June 30, 2013. Such valuation computes the *annual required contribution (ARC)* that represents a level of funding, that if paid on an ongoing basis, is projected to cover the normal cost each year and amortize any unfunded actuarial liabilities (or funding excess) over a period not to exceed thirty years.

For fiscal year 2016, the components of the City's annual OPEB (other postemployment benefit) cost for the year, the amount actually contributed to the plan (including *pay-as-you-go* amounts), and changes in the City's net OPEB obligation to the plan are as follows:

Annual required contribution	\$ 3,769,046
Interest on net OPEB obligation	788,286
Adjustment to annual required contribution	<u>(745,350)</u>
Annual OPEB cost	3,811,982
Payment of current costs	<u>(603,132)</u>
Increase in net OPEB obligation	3,208,850
Net OPEB obligation, beginning of year	<u>19,707,153</u>
Net OPEB obligation, end of year	<u><u>\$ 22,916,003</u></u>

The City's annual OPEB cost, the percentage of annual OPEB cost contributed to the plan, and the net OPEB obligation for 2016 and the preceding two years were as follows:

Year Ended	OPEB Cost	% of Annual OPEB Cost Contributed	Net OPEB Obligation
6/30/14	\$ 3,946,449	17.3%	\$ 16,490,535
6/30/15	3,829,789	16.0%	19,707,153
6/30/16	3,811,982	15.8%	22,916,003

The funded status of the plan as of June 30, 2013, the date of the latest actuarial valuation, was as follows:

Actuarial accrued liabilities (AAL)	\$ 48,888,510
Actuarial value of plan assets	<u>658,853</u>
Unfunded actuarial accrued liability (UAAL)	<u><u>\$ 48,229,657</u></u>
Funded ratio	1.3%
Covered payroll (active plan members)	\$ 12,653,896
UAAL as a percentage of covered payroll	381.1%

CITY OF JACKSON, MICHIGAN

Notes to Financial Statements

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions of the employer are subject to continual revision as actual results are compared to past expectations and new estimates are made about the future. The schedule of funding progress, presented as required supplementary information following the notes to the financial statements, presents multiyear trend information that shows whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liabilities for benefits.

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include the types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and plan members to that point. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations.

Significant methods and assumptions were as follows:

Actuarial valuation date	June 30, 2013
Actuarial cost method	Individual entry age
Amortization method contributions	Level percent; open for fire Level dollar; open for police and general
Remaining amortization period	30 years; open basis
Asset valuation method	Market value
Actuarial assumptions:	
Investment rate of return	5.00%
Projected salary increases	3.00% - 7.00% for the General group 3.00% - 9.00% for the Police/Fire group
Healthcare inflation rate	9% in 2014, grading to 3% in 2019
Inflation rate	3.00%

Stand alone reports have not been issued for the plans. Financial statements for the individual pension and employee benefit plans are presented in footnote 20 and after the footnotes section. In addition, GASB Statement 68 and 45 required supplementary information is presented after the footnotes section.

Notes to Schedule of Contributions

Valuation date: June 30, 2015 (and rolled forward to June 30, 2016, the measurement date)
 Notes: Actuarially determined contribution rates are calculated as of June 30 that is 12 months prior to the beginning of the fiscal year for which the contributions are reported.

Methods and assumptions used to determine contribution rates:

Actuarial cost method	Entry age normal
Amortization method	Level percentage of payroll, closed (level dollar PFP)
Remaining amortization period	30 years (12 years PFP; 20 years Act 345)
Asset valuation method	4-year smoothed market
Inflation	3.0%
Salary increases	3.0-7.0% (9.0% Act 345) including inflation
Investment rate of return	7.5% (7.0% PFP; 6.75% Act 345), net of pension plan investment expense, including inflation
Mortality rates	RP-2000 combined Mortality Table projected to 2017 with scale BB

Nonmajor Special Revenue Funds

Special revenue funds are used to account for specific revenues that are legally restricted to expenditure for particular purposes.

Local Street Fund - This fund is used to control the expenditure of motor fuel taxes which are earmarked by law for local street and highway purposes.

Ella W. Sharp Park Operating Fund - This fund is used to record the revenues and expenditures related to operating the Ella W. Sharp Golf Course and Ella W. Sharp Park.

Public Improvement Fund - This fund was established to account for tax revenue set aside for municipal public improvements.

Building Department Fund - This fund accounts for the revenues and expenditures for the Inspection Department Activity in accordance with the State Construction Code Act of 1999.

Building Demolitions Fund - This fund was established to account for revenues earmarked for building demolition expenditures that are not otherwise funded with Brownfield Redevelopment or Community Development Block Grant funds.

Drug Law Enforcement Fund - This fund is used to account for the proceeds from the sale of seized property which has been used in association with controlled substances.

LAWNET Grant Fund - This fund is used to account for activity relating to LAWNET Project Grants entered into with the City of Ypsilanti through the Office of Criminal Justice for the purpose of expanding the drug effort and impacting drug trafficking in the Jackson-Washtenaw-Livingston County Region.

Recreation Activity Fund - This fund is used to account for the expenditure of certain revenues generated from recreation fee programs.

Community Development Block Grant Fund - This fund accounts for grants under the Housing and Community Development Act of 1974, as amended. The Act provides for a series of grants over a period of years to be used for various community development activities.

Community Development Home Grant Fund - This fund is used to account for federal grants created by the National Affordable Housing Act of 1990.

Housing Code Enforcement Fund - This fund is used to account for revenues earmarked for housing code enforcement activities.

Byrne/JAG Program Grants Fund - This fund is used to account for the activity of a federal grant relating to drug enforcement.

Recreation Millage Fund - This fund is used to account for certain property taxes collected by Jackson Public Schools and donated to the City for certain recreation purposes.

212 W. Michigan Building Demolitions Fund - This fund was established to account for revenues earmarked for building demolition expenditures for the former Consumers Energy site that are not otherwise funded with Brownfield Redevelopment or Community Development Block Grant funds.

Blight Elimination Fund - This fund was established to account for revenues and expenditures earmarked for building demolition expenditures for designated blight areas within the City.

SAFER Grant Fund - This fund is used to account for the activity of a federal grant relating to fire staffing.

■ Nonmajor Enterprise Funds

Enterprise funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the government's commission is that the cost of providing goods or services to the general public on a continuing basis be financed or recovered through user charges or where the government's commission has decided that periodic determination of net income is appropriate for accountability purposes.

Ella W. Sharp Park Golf Practice Center Fund - This fund is used to account for the construction and operation of the Ella W. Sharp Park Golf Practice Center.

Automobile Parking System Fund - This fund is used to account for the operation of the downtown parking garage and capital improvements to the City's parking system.

Parking Assessment Fund - This fund is used to account for the revenues and expenses of the City's meterless parking system.

Stormwater Utility - This fund is used to account for the revenues and expenses of the City's stormwater utility system.

- (1) Ad Valorem assessments only; amounts do not include Act 189, NEZ, OPRA, Land Bank or other abated properties. The term "taxable value" rather than "assessed value" is used in determining tax liability effective 7/1/94.
- (2) The tax year 2015 taxable values are for the tax year beginning July 1, 2015, i.e... for the fiscal year ending June 30, 2016.
- (3) Above Ad Valorem assessments include those properties located within Renaissance Zones and which are exempt from all millages levied except for bonded indebtedness. This exemption is phased out beginning July 1, 2012 at which time those properties will be taxed at 25 % of their taxable value. This percentage will increase to 50% as of July 16, 2013 and 75% as of July 1, 2014. Renaissance Zones will become fully taxable July 1, 2015.

INDEPENDENT AUDITORS' REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
REQUIRED BY THE UNIFORM GUIDANCE

December 27, 2016

Honorable Mayor and
Members of the City Council
City of Jackson, Michigan

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the *City of Jackson, Michigan* (the "City"), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the basic financial statements. We issued our report thereon dated December 27, 2016, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditure of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

CITY OF JACKSON, MICHIGAN

Notes to the Schedule of Expenditures of Federal Awards

1. BASIS OF PRESENTATION

The accompanying schedule of expenditures of federal awards (the "Schedule") includes the federal grant activity of the *City of Jackson, Michigan* (the "City") under programs of the federal government for the year ended June 30, 2016. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Because the Schedule presents only a selected portion of the operations of the City, it is not intended to and does not present the financial position, changes in net position or cash flows of the City.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Expenditures reported on the Schedule are reported on the modified accrual basis of accounting, which is described in note 1 to the City's financial statements. Such expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Negative amounts, if any, shown on the Schedule represent adjustments or credits made in the normal course of business to amounts reported as expenditures in prior years. Pass-through entity identifying numbers are presented where available.

For purposes of charging indirect costs to federal awards, the City has not elected to use the 10 percent de minimis cost rate as permitted by §200.414 of the Uniform Guidance.

3. PASS-THROUGH AGENCIES

The City receives certain federal grants as subawards from non-federal entities. Pass-through entities, where applicable, have been identified in the Schedule with an abbreviation, defined as follows:

Pass-through Agency Abbreviation	Pass-through Agency Name
MSHDA	Michigan State Housing Development Authority
MSP	Michigan State Police
JTSP0	Jackson Traffic Safety Program Office

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

December 27, 2016

Honorable Mayor and
Members of the City Council
City of Jackson, Michigan

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the *City of Jackson* (the "City"), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated December 27, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the City's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY THE UNIFORM GUIDANCE

December 27, 2016

Honorable Mayor and
Members of the City Council
City of Jackson, Michigan

Report on Compliance for Each Major Federal Program

We have audited the compliance of the *City of Jackson* (the "City") with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on the City's major federal program for the year ended June 30, 2016. The City's major federal program is identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Independent Auditors' Responsibility

Our responsibility is to express an opinion on compliance for the City's major federal program based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for the major federal program. However, our audit does not provide a legal determination of the City's compliance.

Opinion on Each Major Federal Program

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on its major federal program for the year ended June 30, 2016.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for a major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Your consideration and concurrence is appreciated.

DEPARTMENT REPORT

MEMO TO: Honorable Mayor and City Councilmembers

FROM: Bethany M. Smith, City Attorney

DATE: Council Meeting – January 10, 2017

RECOMMENDATION: APPROVE the attached *Addendum to Property Transfer and Development Agreement* for 1125 Woodbridge as presented and authorize the City Manager to sign the Addendum and authorize the City Attorney to make minor modifications and to take all actions necessary to effectuate the Agreement.

SUMMARY

The attached *Addendum to Property Transfer and Development Agreement* sets out the rights and responsibilities of the City of Jackson and Brian Rockwell in regards to 1125 Woodbridge Street.

HISTORY, BACKGROUND and DISCUSSION

The City of Jackson sold 1125 Woodbridge Street to Brian Rockwell as approved by the City Council on June 28, 2016. Brian Rockwell is the owner of the adjoining property – 1121 Woodbridge. He would like to use 1125 Woodbridge to expand the yard area of his adjoining property. The City required Mr. Rockwell to execute a *Property Transfer and Development Agreement* contemporaneously with the sale.

The *Property Transfer and Development Agreement* set out the following conditions upon which Mr. Rockwell was to complete within 90 days of transfer of 1125 Woodbridge Street:

1. Mr. Rockwell shall replace the existing gravel driveway on 1125 Woodbridge Street with a new cement driveway that is ten feet by 40 feet in dimension from the right-of-way sidewalk and which otherwise conforms to City Code. (The Addendum would give Rockwell until June 15, 2017 to complete);
2. He shall remove or trim in a workmanlike manner the two existing trees located in the back corners of both 1125 Woodbridge Street and 1121 Woodbridge Street (the Addendum would give Rockwell sixty days from the signing of the Addendum to complete this); and
3. He shall construct a stockade fence which matches the existing fence on 1125 Woodbridge Street along the Southern border of 1125 Woodbridge Street. The fence on the southern border of the Property shall be three feet in height starting from the right-of-way sidewalk to the thirty-five feet to the east. The fence shall be six feet in height from the point thirty-five feet to the East of

the right-of-way sidewalk to the Southeast corner of the property (the Addendum would give Rockwell sixty days from the signing of the Addendum to complete this).

If Mr. Rockwell fails to complete these improvements within the new timelines, there is a liquidated damages provision of \$100 per day up to a maximum of \$1000.

POSITIONS

APPROVE the attached *Addendum to Property Transfer and Development Agreement* for 1125 Woodbridge as presented and authorize the City Manager to sign the Addendum and authorize the City Attorney to make minor modifications and to take all actions necessary to effectuate the Agreement.

ADDENDUM TO PROPERTY DEVELOPMENT AGREEMENT

This is an Addendum to Property Development Agreement entered into on the _____ day of _____, 2017 between the City of Jackson, a Michigan municipal corporation, with offices at 161 West Michigan Avenue, Jackson, Michigan 49201 (hereinafter “the City”), and Brian Rockwell, an individual, whose address is P.O. Box 1778, Jackson, Michigan (hereinafter “Rockwell”).

This Addendum shall be and is incorporated into the Property Development Agreement dated June 30, 2016 between the City and Rockwell (hereinafter “the Agreement”).

The City and the Rockwell agree to changes and/or additions to Paragraph 4 of the Agreement which shall now read as follows:

4. IMPROVEMENTS BY DEVELOPER. Developer shall complete the following improvements or repairs to the Property:

a. Developer shall replace the existing gravel driveway on the Property with a new cement driveway that is ten feet by 40 feet (10ft x 40ft) in dimension from the right-of-way sidewalk and otherwise conforms to the City Code on or before June 15, 2017.

b. Developer shall remove or trim in a workmanlike manner the two (2) existing trees located in both back corners of the Property within sixty (60) days from the signing of this Addendum.

**PROPERTY TRANSFER AND
DEVELOPMENT AGREEMENT**

THIS DEVELOPMENT AGREEMENT ("Agreement"), is entered into as of the date appearing below, by and between the CITY OF JACKSON, a Michigan municipal corporation, with offices located at 161 West Michigan Avenue, Jackson, Michigan, 49201 ("City"), and Brian Rockwell, an individual, whose address is P.O. Box 1778, Jackson, MI 49204 and referred to as "Developer" ("Developer"),

WITNESSETH:

WHEREAS, The City is the owner of real property in the City of Jackson commonly known as 1125 Woodbridge Street, Jackson, MI 49203, and legally described on Exhibit A, attached hereto and incorporated by reference, which will be collectively referred to within this Agreement as the "Property"; and

WHEREAS, Developer owns the neighboring property, 1121 Woodbridge Street, which Developer uses as a 2 unit residential rental property; and

WHEREAS, Developer desires to purchase the Property from the City to expand the yard area of his neighboring Property; and

WHEREAS, Developer will make improvements to the Property and pay the City ONE HUNDRED DOLLARS (\$100.00) in consideration for the City transferring ownership of the

Property to Developer; and

WHEREAS, City wishes Developer to pay the City ONE HUNDRED DOLLARS (\$100.00) and to make certain improvements to the Property as set forth in this Agreement in consideration for the City transferring ownership of the Property to Developer; and

WHEREAS, this Agreement is being entered into between the parties to establish all repairs that must be made to the Property and to provide that if Developer fails to complete the repairs or fails to comply with such other objectives as stated by this Agreement, that Developer will incur liquidated damages.

WHEREAS, City is agreeable to this request, on the terms and conditions set forth below:

NOW, THEREFORE, in consideration of the above recitals, the City and the Developer agree as follows:

1. **RECITALS.** The foregoing recitals are incorporated in this Agreement and form a part of this Agreement.

2. **SUBSTANTIAL COMPLETION.** "Substantial Completion" means that the Developer has completed the repairs and improvements stated in this Agreement, to such a degree that only minor work is required for full completion. Substantial completion shall be determined by City in its reasonable discretion based on City's inspection of the Property.

3. **TRANSFER OF PROPERTY.** Upon execution of the Development Agreement by Developer and the City and the Developer paying the City ONE HUNDRED DOLLARS (\$100.00), the City shall transfer ownership of the Property to Developer by quit claim deed.

4. **IMPROVEMENTS BY DEVELOPER.** Developer shall complete the following improvements or repairs to the Property within ninety (90) days after execution of the Development Agreement by Developer and the City and the Developer:

a. Developer shall replace the existing gravel driveway on the Property with a new cement driveway that is ten feet by 40 feet (10ft x 40ft) in dimension from the right-of-way sidewalk and otherwise conforms to the City Code.

b. Developer shall remove or trim in a workmanlike manner the two (2) existing trees located in both back corners of the Property.

c. Developer shall construct a stockade fence, which matches the existing fence on the Property, along the southern border of the Property. The fence on the southern border of the Property shall be three (3) feet in height starting from the right-of-way sidewalk to thirty-five (35) feet to the east. The fence shall be six (6) feet in height from the point thirty-five (35) feet to the east of the right-of-way sidewalk to the southeast corner of the property.

5. **DEFAULT AND LIQUIDATED DAMAGES.** Developer shall be deemed to be in breach and default of this Agreement if the Developer fails to comply with any covenants, clauses, provisions or agreements herein contained and City has provided Developer with written notice of the default and the opportunity to cure such default within fourteen (14) days from the date the City sends or delivers the written notice to the Developer. If any default has not been cured within fourteen (14) days from the date the City serves or mails the written notice to the Developer, the Developer shall pay to the City liquidated damages in the amount of One Hundred Dollars (\$100.00) per day for each day that Owner is in default of this Agreement. The maximum amount of liquidated damages owed to the City by Developer shall not exceed One Thousand Dollars (\$1,000.00).

6. **FINANCIAL ABILITY.** Developer acknowledges that he has the financial resources available at this time in order to complete all repairs necessary to comply with this

Agreement and further acknowledge that an inability to pay for any needed repairs does not excuse or delay Developer's responsibilities under this Agreement. Developer also acknowledges that he has the financial resources available at this time in order to pay the full amount of liquated damages to the City pursuant to paragraph 5 of this agreement.

7. INSPECTIONS. City shall cause an inspection of the Property to be conducted contemporaneously with the deadlines set forth in this Agreement. The Developer must permit inspections of the Property as requested by the City, and the City will provide reasonable notice to Developer unless an emergency arises, in which case, the City will make a good faith attempt to contact Developer. Developer is responsible for the timely scheduling of inspections.

8. STANDARDS. All improvements and repairs at the Property shall be performed in a workmanlike manner and be in compliance with local code requirements and all applicable ordinances and regulations of the City of Jackson.

9. COSTS AND EXPENSES. Costs and expenses incurred by the City in implementing and enforcing the provisions of this Agreement, shall be a lien on the premises which shall be enforceable in accordance with Section 15.7 of the Jackson City Charter and/or other applicable City Charter and City Ordinance provisions. In addition to any other lawful enforcement methods, the City shall have all remedies authorized by State law, the Jackson City Charter and/or City Ordinances. If the City elects to pursue collection of unpaid costs and expenses through the courts, Developer shall pay in addition to said costs and expenses all costs of litigation, including reasonable attorney fees.

10. CHANGE OF OWNERSHIP INTEREST. This Development Agreement shall be binding on and inure to the benefit of City and Developer and all of their respective heirs, successors, assigns and transferees. This Agreement binds the parties, and their respective

successors, legal representatives and assigns.

11. MODIFICATION AND ASSIGNMENT. The promises, covenants, terms and conditions herein contained may not be modified, altered, or extended without the mutual written consent of the parties.

12. NOTICE. Except as otherwise specified herein, all notices, consents, approvals, requests and other communications (collectively called "Notices") required or permitted under this Agreement must be given in writing and are effective on delivery. Delivery may be or nationally recognized overnight courier delivery service with next business day delivery, with delivery receipt obtained. Notices must be addressed as follows:

13. INDEMNIFICATION. Developer shall assume all liability for and protect, indemnify, and save City, its officers, directors, employees, volunteers, invitees, agents and representatives (hereinafter collectively "Indemnities") harmless from and against all actions, claims, demands, judgments, losses, expenses, suits or actions, (including attorney fees) for any injury or death of any person or persons, and loss or damage to property of any person or persons whomsoever, including Developer or the Indemnities, and their respective agents, contractors, subcontractors, and employees, arising either out of this Agreement or the intentional or

negligent acts, errors or omissions of the Developer or its agents, contractors, subcontractors, and employees. However, Developer shall not be required to indemnify the City for such injury, death, loss, or damage cause by the City's sole negligence. Developer's obligation to indemnify City shall survive termination and/or expiration of this Agreement.

14. SEVERABILITY. If any one or more provisions of this Agreement, or in any instrument or other document delivered pursuant to this Agreement, or the application thereof to any person or circumstance is, to any extent, declared or determined to be invalid or unenforceable, the validity, legality and enforceability of the remainder of this Agreement, or the application of such provision to persons or circumstances other than those as to which it is invalid or unenforceable, will not be affected or impaired thereby, and each provision of this Agreement is valid and enforceable to the fullest extent of the law.

15. COUNTERPARTS. This Agreement may be executed in counterparts, each of which is deemed an original document, but together constitute one instrument.

16. GOVERNING LAW AND INTERPRETATION. The laws of the State of Michigan govern this Agreement and the venue for all proceedings in connection with this Agreement shall be Jackson County, Michigan. The pronouns and relative words used are written in the masculine and singular only. If more than one joins in the execution hereof as Developer or is of the feminine sex or a corporation or limited liability company, such words are read as if written in plural, feminine, or neuter, respectively. This Agreement is a result of negotiation between the parties, and accordingly, it will not be construed against either party if a dispute or litigation arises out of this Agreement.

17. HEADINGS. The sections and paragraph headings contained in this Agreement are for reference purposes only and shall not affect in any way the interpretation of the

MEMO TO: Mayor and City Councilmembers
FROM: Patrick H. Burtch, City Manager
DATE: January 10, 2017
SUBJECT: Wastewater Treatment Plant Biosolids Hauling Contract Renewal #1

Recommendation:

Renew the contract for biosolids hauling with BioTech Agronomics, Beulah, Michigan with no increase in the cost of \$0.0311 per gallon, for an estimated total cost of \$108,850.00.

Your consideration and concurrence is appreciated.

DEPARTMENTAL REPORT

MEMO TO: Patrick Burtch, City Manager

FROM: Todd Knepper, Director of Public Works

DATE: January 10, 2017

RECOMMENDATION: Renew the contract with BioTech Agronomics for hauling and application of the City's Wastewater Treatment Biosolids.

SUMMARY

The City of Jackson awarded the biosolids hauling contract to BioTech Agronomics in 2016, and we wish to renew that contract at the same cost, per the contract renewal documents. BioTech performs satisfactorily in 2016, and we will expect the same or better service in 2017.

BUDGETARY CONSIDERATIONS

The 2016 cost for hauling and application was \$0.0311 per gallon, and that cost is to remain the same. We estimate the need to haul 3,500,000 gallons in 2017, and that equates to an estimated total cost of \$108,850.00. Funds for this activity are budgeted in 590-553-000-818.000.

HISTORY, BACKGROUND and DISCUSSION

BioTech Agronomics performed satisfactorily in 2016, and City staff recommend renewal of the hauling contract for 2017.

DISCUSSION OF THE ISSUE

This work is a major component in the operation of the City's WWTP, and this material is recycled for beneficial use on farm fields.

POSITIONS

I recommend the renewal of the biosolids hauling contract with BioTech Agronomics at the cost of \$0.0311 per gallon, for an estimated total cost of \$108,850.00.

MEMO TO: Honorable Mayor and City Councilmembers

FROM: Bethany M. Smith, City Attorney

DATE: Council Meeting – January 10, 2017

SUBJECT: **Addition of Section 14-12.1 – Transfer of Ownership to an Occupant of a Property**

Recommendation: APPROVE the attached Ordinance.

Your consideration and concurrence is appreciated.

DEPARTMENT REPORT

MEMO TO: Honorable Mayor and City Councilmembers

FROM: Bethany M. Smith, City Attorney

DATE: Council Meeting – January 10, 2017

RECOMMENDATION: **Approve the Ordinance for the Addition of Section 14-12.1 – Transfer of Ownership to an Occupant of a Property**

SUMMARY

The attached Ordinance adds Section 14-12.1 to the Code of Ordinances to provide for the addition of Section 14-12.1 – Transfer of Ownership to an Occupant of a Property.

HISTORY, BACKGROUND and DISCUSSION

The proposed ordinance would require that currently scheduled Non-owner Occupied Residential Property Registry housing inspections would continue to take place when a non-occupant owner transfers the property to an existing occupant. The reason for the ordinance is to combat landlords who seek to circumvent the housing inspection process by transferring properties by way of land contract to their tenants, while maintaining a purely landlord/tenant relationship with the occupants. The Neighborhood and Economic Operations Department frequently encounters what it feels to be illegal land contract transfers to avoid inspections.

A similar Resolution has been in place since June of 1986. The content of the Resolution is being placed into an Ordinance to make the provisions easier for citizens to locate as Resolutions are not included on-line.

POSITIONS

Approve the Ordinance for the Addition of Section 14-12.1 – Transfer of Ownership to an Occupant of a Property.

ATTACHMENTS: *Ordinance*

ORDINANCE 2017 - _____

An Ordinance amending Article I of Chapter 14 of the City of Jackson Code of Ordinances to continue property inspections under Chapter 14 when there is a transfer of ownership from a non-occupant owner of the property to an occupant of the property.

THE PEOPLE OF THE CITY OF JACKSON ORDAIN:

Section 1. Purpose.

The City Council adopts this ordinance to amend Article I of Chapter 14 of the City of Jackson Code of Ordinances to continue property inspections under Chapter 14 when there is a transfer of ownership from a non-occupant owner of the property to an occupant of the property.

Section 2. That Article I of Chapter 14 of the City of Jackson Code of Ordinances be amended to read as follows:

Sec. 14-12.1 - Transfer of ownership to in-place tenant

If the ownership of a non-owner occupied residential dwelling or unit is transferred from a non-occupant owner of the property to an occupant of the property, whether by traditional sale or by land contract, any inspections under the Non-owner occupied residential property registry scheduled prior to the transfer of ownership shall continue to be conducted. Both the previous owner and the new owner shall be notified of any such inspection.

Section 3. This Ordinance takes effect thirty (30) days from the date of adoption.

RECOMMENDATION: APPROVE the attached *Educational and Governmental Television Operating Agreement* as presented and authorize the City Manager to sign the Agreement, and authorize the City Attorney to make minor modifications and to take all actions necessary to effectuate the Agreement.

SUMMARY

The attached *Educational and Governmental Television Operating Agreement* sets out the rights and responsibilities of the City of Jackson and JTV, Inc. (“JTV”) in regards to broadcasting on Channel 21.

HISTORY, BACKGROUND and DISCUSSION

The City of Jackson and JTV are updating their agreement for educational and governmental programming on Channel 21. The City will retain JTV to operate and provide educational and governmental programming for Channel 21 for \$20,000 per year. The Agreement has a five year term and there is a \$3,500 signing bonus payable to JTV. JTV will provide live and taped coverage of local events requested by the City. The Agreement also gives the City priority in programming over other users of Channel 21. JTV will provide at its expense all equipment necessary to operate the channel, as well as all staff.

POSITIONS

APPROVE the attached *Educational and Governmental Television Operating Agreement* as presented and authorize the City Manager to sign the Agreement, and authorize the City Attorney to make minor modifications and to take all actions necessary to effectuate the Agreement.

EDUCATIONAL AND GOVERNMENT TELEVISION
OPERATING AGREEMENT

THIS AGREEMENT is made this ____ day of _____, 2016, between the **City of Jackson**, Jackson County, Michigan, a Michigan municipality, 161 West Michigan Avenue, Jackson, Michigan 49201 (“Municipality”) and **JTV, Inc.**, a Michigan corporation, 152 West Michigan Avenue, Jackson, Michigan 49201 (“JTV”).

RECITALS:

A. The City of Jackson, Jackson County, Michigan (“Municipality”) has entered into a cable communications system franchise agreement and renewal agreement with MediaOne of Metropolitan Detroit, Inc. now known as Comcast of Michigan, LLC (“Comcast”), whereby Comcast is obligated, among other things, to provide certain cable services within Municipality and also provide for certain educational and government (“EG”) channels (the “Franchise Agreement”).

B. Contemporaneously with this Agreement, Comcast has agreed to make Channel 21 available to Municipality for EG purposes, which channel is to be shared by Municipality with Jackson Public Schools, Jackson Intermediate Schools, Jackson District Library, and Summit Township, albeit with the Municipality at all times to have priority in the usage thereof.

C. JTV is engaged in the business of operating educational and government television channels and producing programming for such channels.

D. Municipality is desirous of engaging JTV, and JTV is desirous of being engaged, to operate and provide EG programming for Channel 21, and for any successor or substitute EG channel in Jackson, on the terms and conditions described in this Agreement.

NOW, THEREFORE, the parties agree as follows:

1. **Programming Provided.** JTV shall operate Channel 21, or any successor or substitute EG channel (hereinafter “the EG Channel”), and shall produce and provide EG programming thereon for Municipality on a 24 hours per day, seven days per week basis, as follows:

(a) The video programming shall include original programming, bulletin boards, interactive bulletin boards or items substantially equivalent as technology develops. The programming shall include notices of public meetings, meeting agendas, job postings and listings of City and school related events, and live and recorded telecasts of all Jackson City Council meetings.

(b) The programming shall also include, and shall be limited to, news, sports, weather and original programming which has a local or regional interest or orientation and which features items of local or regional interest and locally announced special events not available elsewhere.

(c) The programming of the EG Channel shall not include any commercial advertising or programming of a commercial nature which solicits any income, barter, trade or other revenue for any commercial, promotion or mention of another parties’ goods or services. Programming may include, however, corporate or other sponsorships of the type permissible for public access channels consisting of audio mentions and video presentations of name and logo of sponsors both before and after the programming where special materials or assistance has been donated by a commercial or charitable enterprise to defray the costs or producing the programming.

(d) The programming shall not contain any material of an obscene, libelous, or defamatory nature, or which would violate or infringe the copyright of any person or entity.

(e) JTV shall provide full motion video with audible sound including live and tape delayed coverage of local originated events as Municipality may from time to time request.

(f) In the absence of direction by Municipality to the contrary, Municipality shall at all times enjoy priority in programming and broadcast time over Jackson Public Schools, Jackson Intermediate Schools, Jackson District Library, and Summit Township. JTV acknowledges and agrees that any conflict between Municipality, Jackson Public Schools, Jackson Intermediate Schools, Jackson District Library, and/or Summit Township as to the priority of programming or broadcast time shall be resolved in such manner as Municipality, in its sole discretion, shall determine.

(g) JTV shall be responsible for determining the content of all programming, subject to all of the foregoing, but agrees to consult frequently with Municipality about the programming and to comply with Municipality programming requests whenever possible.

2. **Facility/Equipment/Staff.** JTV will, at its expense, provide all of the facilities, equipment and staff necessary to operate the EG Channel and to record and produce the programming required by this Agreement.

3. **Program Schedules.** JTV shall maintain appropriate program schedules and log sheets accurately reflecting the programs broadcast on the EG Channel, including the time of each program, its approximate length and a brief description of the content. Program schedules and log sheets shall be retained for a period of at least two (2) years after the programming is broadcast and shall be made available to Municipality upon its written request. All programming provided by JTV under this Agreement will be listed and included in all channel guides publishes by JTV either in electronic or print media form. JTV shall also, for a period of at least 120 days from the effective date of this Agreement, provide regular and frequent notification to viewers of its Channel 17 that City Council meetings and other governmental and educational programming is and will be broadcast on Channel 21.

4. **Amount of Programming.** JTV will provide at least ten (10) hours, or more if reasonably requested by Municipality, of original full motion video programming of material during each calendar week during the term of this Agreement.

5. **JTV Fee.** In consideration of the programming and other services to be provided by JTV, Municipality shall pay JTV Twenty Thousand (\$20,00.00) Dollars a year, plus an additional Three Thousand Five Hundred (\$3,500.00) Dollars shall be paid as a one-time signing bonus on January 10, 2016. The yearly fee shall increase by Five Hundred (\$500.00) Dollars for each year of the term and be paid in four equal installments on January 10th, April 10th, July 10th and November 10th of each year of the term. Payments will be made according to the following schedule:

2017	Year 1	\$3500 signing bonus paid upon signing. \$20,000 additional paid as follows: January 10, 2017 = \$5,000 April 10, 2017 = \$5,000 July 10, 2017 = \$5,000 November 10, 2017 = \$5,000
2018	Year 2	\$20,500 paid as follows: January 10, 2018 = \$5,125 April 10, 2018 = \$5,125 July 10, 2018 = \$5,125 November 10, 2018 = \$5,125
2019	Year 3	\$21,000 paid as follows: January 10, 2019 = \$5,250 April 10, 2019 = \$5,250 July 10, 2019 = \$5,250 November 10, 2019 = \$5,250
2020	Year 4	\$21,500 paid as follows: January 10, 2020 = \$5,375 April 1, 2020 = \$5,375 July 10, 2020 = \$5,375 November 10, 2020 = \$5,375
2021	Year 5	\$22,000 paid as follows: January 10, 2021 = \$5,500 April 1, 2021 = \$5,500 July 10, 2021 = \$5,500 November 1, 2021 = \$5,500

6. **Compliance with Laws, Regulations and Ordinances.** JTV shall at all times during the term of this Agreement comply with all applicable laws, regulations and ordinances, including but not limited to the Franchise Agreement, as amended, the Federal Cable Communications Policy Act of 1984, as amended, applicable rules and regulations now in effect or hereinafter adopted by the Federal Communications Commission and the Family Educational Rights and Privacy Act of 1974.

7. **Term.** Unless terminated as provided elsewhere in the Agreement, the term of this Agreement shall be for five (5) years from the effective date. JTV and the City may agree to extend the term for another five (5) years with the fee in Paragraph 5 being increased to Twenty-Four Thousand (\$24,000.00) Dollars; provided, however, Municipality shall have the option, at its sole discretion, to terminate this Agreement in any of the following situations:

- (a) Without further notice if JTV or Bart Hawley cease to lease channel capacity from Comcast or its transferors or assignees;
- (b) With notice, any time after the first two years of this Agreement; or
- (c) Without further notice upon termination of Franchise Agreement.

The notice required in subsection (b) above shall be given at least ninety (90) days prior to the effective date of the termination. Upon termination of this Agreement by Municipality, JTV shall promptly return to Municipality all equipment and facilities provided or supplied by Comcast or its predecessors which pertain to operation of the EG Channel. Said equipment and facilities are more specifically identified on Attachment A, attached hereto and incorporated by reference.

8. **Termination.** This Agreement may be terminated before the expiration of the term on the first to occur of any of the following:

(a) In the event all parties mutually agree, in writing, this Agreement may be terminated on the terms and dates stipulated therein.

(b) In the event of a substantial breach of this Agreement by either of the parties if a non-defaulting party provides written notice of the breach to the defaulting party and the breach is not corrected within thirty (30) days then this Agreement may be terminated at the option of the non-defaulting party.

(c) In the event the EG Channel is deactivated or for any other reason becomes unavailable for the programming required by this Agreement, this Agreement shall be automatically terminated.

9. **Copyright Assignment.** Upon request by Municipality, JTV agrees to grant to Municipality a non-exclusive right to use, in any form whatsoever, any copyrightable programming or related material created in whole or in part by JTV and cablecast on the EG Channel pursuant to this Agreement, such that Municipality shall have the right to duplicate, air, distribute, and use such referenced copyrightable material as Municipality deems appropriate. To comply with Federal copyright law and fulfill its obligation under the preceding sentence, JTV agrees to enforce a requirement that all employees or other persons using JTV's equipment or otherwise creating programming or related material to be cable cast on the EG Channel, assign to JTV and Municipality separately a non-exclusive copyright in all works created for the EG Channel in JTV studios or with JTV equipment pursuant to this Agreement.

10. **Copies.** Upon request, JTV shall provide Municipality with a videotape of any program aired on the EG Channel at JTV's cost of reproduction but not to exceed \$25.00 per videotape; provided, however, that JTV shall provide Municipality with one free copy of the videotape of each Jackson City Council meeting.

11. **Indemnification.** JTV shall indemnify, defend and hold harmless Municipality, its management, council members and employees, against all claims, suits and causes of action of any kind whatsoever, including but not limited to libel, slander, or copyright infringement actions, arising out of JTV's performance of its obligations under this Agreement, including without limitation, the operation of the EG Channel and the programming on such channel.

12. **Insurance.** During the term of this Agreement, JTV shall secure and continuously maintain insurance of the following types and amounts and shall promptly submit proof of such coverages to Municipality upon written request.

A. Public liability insurance, including automobile liability, covering persons and property with limits of not less than \$500,000.00 per person, not less than \$2,000,000.00 per occurrence for bodily injury, and not less than \$50,000.00 aggregate in one policy against property damage of \$2,000,000.00 single limit per occurrence;

B. Broadcasters liability insurance, including coverage of copyright infringement and defamation liability, in an amount of not less than \$1,000,000.00;

C. Workers Compensation insurance coverage in compliance with the laws of the State of Michigan.

Municipality shall be named as an additional named insured on all of the foregoing insurance coverages, except Workers Compensation insurance, and the policies shall provide for written notification to Municipality thirty (30) days prior to any cancellation, non-renewal, or material change or reduction of any of the aforementioned insurance. JTV shall provide endorsements naming Municipality as an additional insured.

13. **Transfer.** Upon termination of this Agreement, JTV at Municipality's request, shall provide access to and copies of all records and documents as Municipality may reasonably

request to aid in the orderly transfer of functions performed by JTV to a new entity and otherwise to aid in the orderly transfer of responsibility for the EG Channel, in order to provide for continuous production of programming for Municipality's EG Channel.

14. **Non-Assignability.** This Agreement may not be assigned by JTV without Municipality's prior written request.

15. **Resale of Broadcast Time.** The resale by JTV of EG Channel broadcast time is expressly prohibited without Municipality's prior written consent.

16. **Independent Contractor Relationship.** The relationship of JTV to Municipality is that of an independent contractor and no liability or benefits such as Workers Compensation, pension rights or liabilities, insurance rights or liabilities, or other provisions or liabilities arising out of related to a contract for hire or employer/employee relationship, shall arise or accrue to either party, or to either parties' agents or employees as a result of the performance of this Agreement, unless expressly stated in this Agreement.

17. **Grants.** The parties agree to cooperate in making applications to public and private sources for grants for equipment and the programming services contemplated by this Agreement.

18. **Channel Change.** In the event the EG Channel is changed from Channel 21 to another channel, JTV shall, for a period of at least 120 days thereafter, provide regular and frequent notice of the change, and of the new EG Channel number, on all other channels operated by JTV.

19. **Miscellaneous.**

(a) **Entire Agreement.** This Agreement contains the entire Agreement between the parties and shall not be changed except by further written agreement signed by both parties.

(b) Non-Discrimination. In performing its obligations under this Agreement JTV shall not unlawfully discriminate against any person on the basis of religion, race, color, national origin, age, sex, height, weight, marital status, or disability.

(c) Notices. All notices shall be in writing and shall be deemed given when sent by recognized courier service or when mailed by first class mail, postage pre-paid and addressed

in the case of Municipality to: City Manager
 City of Jackson
 161 West Michigan Avenue
 Jackson, MI 49201

with a copy to: City Attorney

or to such other address as either party may, from time to time, designate in writing to the other.

(d) Governing Law. This Agreement shall be construed and enforced in accordance with the laws of the State of Michigan.

(e) Severability. If any term or provision of this Agreement or the application thereof to any person, property or circumstance shall to any extent be invalid or unenforceable, the remainder of this Agreement, or the application of such term or provision to persons, properties and circumstances other than those as to which it is invalid or enforceable, shall not be affected thereby, and each term and provision of this Agreement shall be valid and enforced to the fullest extent permitted by law.

(f) Binding Nature. This Agreement shall be binding on the parties and their respective successors and permitted assigns.

(g) Surviving Clauses. Paragraphs 9, 10, 11, 12 and 14 of this Agreement shall survive the termination of this Agreement.

The parties have executed this Agreement the last day and year written below.

DEPARTMENTAL REPORT

MEMO TO: Patrick Burtch, City Manager
FROM: Jon H. Dowling, P.E., City Engineer
DATE: January 10, 2017

RECOMMENDATION: Approval of five easements to MDOT and the acknowledgement that the City is donating the property to MDOT and waiving the just compensation of the property needed for the two-way conversion on Louis Glick Highway and Washington Avenue, and authorization for the Mayor and City Clerk to sign the easements and Donation Form.

SUMMARY

MDOT has prepared five easements for property from the City to MDOT to facilitate the construction of the two-way conversion of Louis Glick Highway and Washington Avenue along with a donation form for the City to acknowledge the waiving of just compensation of these properties.

BUDGETARY CONSIDERATIONS

MDOT will be paying the City \$1.00 for each of these easements and the City will be waiving the just compensation of these properties.

HISTORY, BACKGROUND and DISCUSSION

The City is working with MDOT to convert the one-way pair of Louis Glick Highway and Washington Avenue to two-way. As part of the construction to create the two-way roads, some realignment and radius improvements need to be made which require easements from the City and adjacent property owners.

DISCUSSION OF THE ISSUE

MDOT is in the process of obtaining many easements for right-of-way needed to construct the two-way on Louis Glick and Washington. The five parcels that MDOT needs easements from the City are:

MDOT Parcel 252 – 7,403 sq ft	Easement on west end of land between Michigan, Wildwood and Steward
MDOT Parcel 256 – 505 sq ft	Easement on northwest corner of Louis Glick Hwy. and Wildwood Ave.
MDOT Parcel 261 – 213 sq ft	Easement on southwest corner of Louis Glick Hwy. and Mechanic St.
MDOT Parcel 273 – 325 sq ft	Easement on northeast corner of Washington Ave. and Francis St.
MDOT Parcel 275 – 413 sq ft	Easement on southeast corner of Washington Ave. and S. Cooper St.

Attached are the easement forms along with sketches showing the removal and proposed construction in the areas of the easements.

POSITIONS

It is the recommendation of Engineering that the easements and donation form be approved by City Council and that the Mayor and City Clerk be authorized to sign the appropriate forms..

HISTORY, BACKGROUND and DISCUSSION

After the reconstruction on S. Mechanic Street, a property owner requested Engineering review parking regulations on the west side of the 300 block of S. Mechanic.

DISCUSSION OF THE ISSUE

After reviewing the parking situation in the 300 block of South Mechanic Street, Engineering has the following recommendations.

On the west side of Mechanic Street, between Washington and Wesley parking shall be prohibited from Washington to 200 feet south of Washington. From 200 feet south of Washington to 25 feet north of Wesley no vehicle shall remain parked for a period exceeding 30 minutes, Monday through Friday, from 8 am to 5 pm and from 25 feet north of Wesley to Wesley parking shall be prohibited.

On the east side of Mechanic between Wesley and Washington parking shall be prohibited from Wesley to 30 feet north of Wesley. From 30 feet north of Wesley to 35 feet south of Washington no vehicle shall remain parked for a period exceeding 2 hours, Monday through Friday, 8 am to 5pm and from 40 feet south of Washington to Washington parking shall be prohibited.

POSITIONS

It is the recommendation of Engineering that Traffic Control Order 2234 be approved. If you have any questions please do not hesitate to contact me.

DEPARTMENT REPORT

MEMO TO: Honorable Mayor and City Councilmembers
FROM: Bethany M. Smith, City Attorney
DATE: Council Meeting – January 10, 2017
RECOMMENDATION: **Approve the Ordinance for the Amendment of Section 14-47
Vacating of Unfit Building**

SUMMARY

The attached Ordinance amends Section 14-47 which deals with the vacating of buildings found to be unfit for human habitation.

HISTORY, BACKGROUND and DISCUSSION

The proposed ordinance revisions provide a list of example conditions which may require the vacating of a building as an unfit building for human habitation. The example conditions are provided to clarify that conditions such as the following may require that a building be vacated:

- (1) Lack of essential electric service;
- (2) Lack of essential gas service;
- (3) Lack of essential water service;
- (4) Evidence of a lead hazard as demonstrated by a child with an elevated blood level who resides in or visits the dwelling as reported by the Jackson County Health Department or other health agency;
- (5) Evidence of infestation by rodents or bugs;
- (6) Evidence of a sewage backup;
- (7) Evidence of active methamphetamine components; and
- (8) Evidence of other living conditions which are unsanitary and unfit for human habitation.

When a building is vacated, the Chief Building Official must give permission for the building to be reoccupied after the offending condition(s) are abated. Individuals are permitted in the building only for the purposes of vacating the offending condition until the Chief Building Official gives permission to reoccupy.

POSITION

Approve the Ordinance for the amendment of Section 14-47 – Vacating of Unfit Building.

ORDINANCE NO. 2017-_____

An ordinance amending Section 14-47 of Article II, Chapter 14 of the City of Jackson, Michigan Code of Ordinances, to list property conditions that may result in vacating of a building to protect the health, safety and welfare of the Citizens of Jackson.

THE PEOPLE OF THE CITY OF JACKSON ORDAIN:

Section 1. Purpose

The City Council adopts this Ordinance to list property conditions that may result in vacating of a building to protect the health, safety and welfare of the Citizens of Jackson.

Section 2. That Chapter 14 of the Code of the City of Jackson be, and the same hereby is, amended to read as follows:

Sec. 14-47 - Vacating of unfit building.

Any dwelling or dwelling unit which has been declared unfit for human habitation shall be vacated within a reasonable time as required by the chief building official, chief of police or fire official. No person shall occupy such dwelling or dwelling unit until written approval is secured from the chief building official. Any person who willfully refuses to vacate a building ordered vacated under this section, who reoccupies or causes or allows such a building to be reoccupied without satisfying all requirements of a notice or order issued under this section, or who, without permission, removes a notice posted on a building pursuant to this section, shall be guilty of a misdemeanor and punished upon conviction thereof as provided in section 1-18 of this Code. Examples of property conditions that may result in vacating of a building include, but are not limited to:

- (1) Lack of essential electric service;
- (2) Lack of essential gas service;
- (3) Lack of essential water service;
- (4) Evidence of a lead hazard as demonstrated by a child with an elevated blood level who resides in or visits the dwelling as reported by the Jackson County Health Department or other health agency;
- (5) Evidence of infestation by rodents or bugs;
- (6) Evidence of a sewage backup;
- (7) Evidence of active methamphetamine components, or other drug related or hazardous materials; and
- (8) Evidence of other living conditions which are unsanitary and unfit for human habitation.

Section 3. This Ordinance takes effect thirty (30) days from the date of adoption.

ORDINANCE NO. 2017-_____
