Good evening,

Thank you so much for the opportunity to sit on the HRC board. It has been a pleasure working with you all. I don't want to be selfish and hold a spot when someone else may be interested in a position. I haven't been able to make the meetings as frequent as I would like. So unfortunately after careful consideration I have decided to resign from my position. Thank you again for the opportunity to serve my community.

If there's anything else I need to do please let me know.

Thanks,

Latrivia Guinn

Describe your community involvement.	As an applicant for a reappointment to serve on the DDA Board of Directors, I am thrilled to express my continued commitment to the growth and success of our beloved Jackson community. Having served on the board for several years already, I believe my experience, passion, and extensive connections with the local business community make me a valuable asset to the board. For the past decade, I have had the privilege of working in the heart of downtown Jackson, witnessing its evolution and actively participating in its revitalization efforts. Through my roles at the Jackson County Chamber of Commerce and Experience Jackson, I have gained deep insights into the challenges and opportunities that our community faces. This experience has not only equipped me with a comprehensive understanding of the dynamics of our local economy but has

also instilled in me an unwavering dedication to fostering positive change.

Growing up in Jackson, Michigan, I have developed an enduring love and strong sense of belonging to this community. I am deeply invested in its future, and my desire to see it thrive drives my every endeavor. I strongly believe that the success of any community hinges on the collaboration between its residents, businesses, and local government. In my previous term on the board, I actively engaged with community members and businesses, listening to their concerns, ideas, and aspirations. By maintaining a finger on the pulse of the community, I ensured that the board's decisions were aligned with the true needs and desires of our constituents.

One of my key strengths lies in my vast network of connections within the local business community. These relationships have allowed me to foster partnerships, advocate for economic growth, and drive initiatives that support local entrepreneurs. As a representative on the DDA Board of Directors, I have been able to utilize these connections to forge alliances between businesses, government entities, and community organizations, ultimately leading to increased collaboration and positive outcomes for our downtown area.

If reappointed to the board, I will continue to be a dedicated advocate for Jackson's economic development, employing my experience, knowledge, and relationships to promote initiatives that attract investment, drive foot traffic, and create a vibrant downtown experience. I am committed to working closely with local businesses to understand their needs, address their concerns, and provide them with the support necessary to thrive.

I firmly believe that my track record, deep roots in the community, and my passion for the success of Jackson make me an ideal candidate for reappointment to the DDA Board of Directors. I am excited about the opportunity to continue serving our community in this capacity and working together with fellow board members to shape a bright future for Jackson.

Thank you for considering my application. I am confident that, given the chance, I will contribute significantly to the growth and success of our community.

DEPARTMENTAL REPORT

MEMO TO: Jonathan Greene, City Manager

FROM: Jon H. Dowling, P.E.

DATE: August 15, 2023

RECOMMENDATION: Approve a resolution to enter into a contract with the Michigan Department of Transportation (MDOT) for North Street from Wisner Street to West Avenue, and authorize the Mayor and City Clerk to execute the appropriate documents.

SUMMARY

Attached is a resolution to enter into a contract with MDOT for North Street from Wisner Street to West Avenue, for pavement replacement.

BUDGETARY CONSIDERATIONS

The cost-participation agreement and contract number 23-5264 for this project has been prepared by MDOT and forwarded to the City of Jackson for approval. The estimate for the construction work is $511,000 with the federal share being $400,000 and the City share being $111,000.

HISTORY, BACKGROUND and DISCUSSION

Engineering records show that North Street was originally constructed from Center Street to West Avenue in 1963, and from Wisner Street to Center in 1966. The whole segment from Wisner to West was sealcoated in 1993, crack sealed in 1996, and crack sealed with sealcoating in 2006. The roadway has cracking, utility patches and potholes. The current PASER rating is 4.

DISCUSSION OF THE ISSUE

Engineering proposes to remove the existing pavement and replace the pavement structure with new hot mix asphalt. Sidewalk ramps will be upgraded to comply with current Americans with Disabilities Act (ADA) requirements. New sidewalk to be installed on the south side of North Street from the Eaton Street right-of-way to Hibbard Avenue. Also proposing pavement replacement in the intersection of Wisner and North going approximately 140 feet north of North Street and approximately 80 feet south of North.

POSITIONS

I am requesting the attached resolution to enter into the contract with the Michigan Department of Transportation be approved by the City Council, and the Mayor and City Clerk be authorized to sign the appropriate contract documents.

RESOLUTION

BY CITY COUNCIL:

WHEREAS, North Street from Wisner Street to West Avenue is in need of improvements; and

WHEREAS, the City has received Federal Surface Transportation Funds for 81.85% to a maximum of $400,000; and

WHEREAS, the cost-participation agreement and contract number 23-5264 has been prepared for this project by the Michigan Department of Transportation and forwarded to the City of Jackson for approval; and

WHEREAS, the estimate for the construction work is $511,000 with the Federal share being $400,000 and the City share being $111,000.

NOW, THEREFORE, BE IT RESOLVED that the City Council does approve the pavement replacement on North Street from Wisner Street to West Avenue; and

BE IT FURTHER RESOLVED that the City Council does approve entering into contract number 23-5264 with the Michigan Department of Transportation; and

PART I

THIS CONTRACT, consisting of PART I and PART II (Standard Agreement Provisions), is made by and between the MICHIGAN DEPARTMENT OF TRANSPORTATION, hereinafter referred to as the "DEPARTMENT"; and the CITY OF JACKSON, a Michigan municipal corporation, hereinafter referred to as the "REQUESTING PARTY"; for the purpose of fixing the rights and obligations of the parties in agreeing to the following improvements, in Jackson, Michigan, hereinafter referred to as the "PROJECT" and estimated in detail on EXHIBIT "I", dated June 5, 2023, attached hereto and made a part hereof:

Pavement removal and hot mix asphalt paving along West North Street from Wisner Street to West Avenue, including grading, aggregate base, concrete curb and gutter, sidewalk, curb ramps and permanent pavement markings; and all together with necessary related work.

WITNESSETH:

WHEREAS, pursuant to Federal law, monies have been provided for the performance of certain improvements on public roads; and

WHEREAS, the reference "FHWA" in PART I and PART II refers to the United States Department of Transportation, Federal Highway Administration; and

WHEREAS, the PROJECT, or portions of the PROJECT, at the request of the REQUESTING PARTY, are being programmed with the FHWA, for implementation with the use of Federal Funds under the following Federal program(s) or funding:

SURFACE TRANSPORTATION PROGRAM

WHEREAS, the parties hereto have reached an understanding with each other regarding the performance of the PROJECT work and desire to set forth this understanding in the form of a written contract.

NOW, THEREFORE, in consideration of the premises and of the mutual undertakings of the parties and in conformity with applicable law, it is agreed:

1. The parties hereto shall undertake and complete the PROJECT in accordance with the terms of this contract.

2. The term "PROJECT COST", as herein used, is hereby defined as the cost of the physical construction necessary for the completion of the PROJECT, including any other costs incurred by the DEPARTMENT as a result of this contract, except construction engineering and inspection.

No charges will be made by the DEPARTMENT to the PROJECT for any inspection work or construction engineering.

The costs incurred by the REQUESTING PARTY for preliminary engineering, construction engineering, construction materials testing, inspection, and right-of-way are excluded from the PROJECT COST as defined by this contract.

The Michigan Department of Environment, Great Lakes, and Energy has informed the DEPARTMENT that it adopted new administrative rules (R 325.10101, et. seq.) which prohibit any governmental agency from connecting and/or reconnecting lead and/or galvanized service lines to existing and/or new water main. Questions regarding these administrative rules should be directed to Michigan Department of Environment, Great Lakes, and Energy. The cost associated with replacement of any lead and/or galvanized service lines, including but not limited to contractor claims, will be the sole responsibility of the REQUESTING PARTY.

3. The DEPARTMENT is authorized by the REQUESTING PARTY to administer on behalf of the REQUESTING PARTY all phases of the PROJECT, including advertising and awarding the construction contract for the PROJECT or portions of the PROJECT. Such administration shall be in accordance with PART II, Section II of this contract.

Any items of the PROJECT COST incurred by the DEPARTMENT may be charged to the PROJECT.

4. The REQUESTING PARTY, at no cost to the PROJECT or to the DEPARTMENT, shall:

A. Design or cause to be designed the plans for the PROJECT.

B. Appoint a project engineer who shall be in responsible charge of the PROJECT and ensure that the plans and specifications are followed.

C. Perform or cause to be performed the construction engineering, construction materials testing, and inspection services necessary for the completion of the PROJECT.

The REQUESTING PARTY will furnish the DEPARTMENT proposed timing sequences for trunkline signals that, if any, are being made part of the improvement. No timing

adjustments shall be made by the REQUESTING PARTY at any trunkline intersection, without prior issuances by the DEPARTMENT of Standard Traffic Signal Timing Permits.

5. The PROJECT COST shall be met in part by contributions by the Federal Government. Federal Surface Transportation Funds shall be applied to the eligible items of the PROJECT COST up to the lesser of: (1) $400,000, or (2) an amount such that 81.85 percent, the normal Federal participation ratio for such funds, is not exceeded at the time of the award of the construction contract. The balance of the PROJECT COST, after deduction of Federal Funds, shall be charged to and paid by the REQUESTING PARTY in the manner and at the times hereinafter set forth.

Any items of PROJECT COST not reimbursed by Federal Funds shall be the sole responsibility of the REQUESTING PARTY.

6. No working capital deposit will be required for this PROJECT.

In order to fulfill the obligations assumed by the REQUESTING PARTY under the provisions of this contract, the REQUESTING PARTY shall make prompt payments of its share of the PROJECT COST upon receipt of progress billings from the DEPARTMENT as herein provided. All payments will be made within 30 days of receipt of billings from the DEPARTMENT. Billings to the REQUESTING PARTY will be based upon the REQUESTING PARTY'S share of the actual costs incurred less Federal Funds earned as the PROJECT progresses.

7. At such time as traffic volumes and safety requirements warrant, the REQUESTING PARTY will cause to be enacted and enforced such ordinances as may be necessary to prohibit parking in the traveled roadway throughout the limits of the PROJECT.

8. The performance of the entire PROJECT under this contract, whether Federally funded or not, will be subject to the provisions and requirements of PART II that are applicable to a Federally funded project.

In the event of any discrepancies between PART I and PART II of this contract, the provisions of PART I shall prevail.

Buy America Requirements (23 CFR 635.410) shall apply to the PROJECT and will be adhered to, as applicable, by the parties hereto.

9. The REQUESTING PARTY certifies that it is not aware if and has no reason to believe that the property on which the work is to be performed under this agreement is a facility, as defined by the Michigan Natural Resources and Environmental Protection Act [(NREPA), PA 451, 1994, as amended 2012]; MCL 324.20101(1)(s). The REQUESTING PARTY also certifies that it is not a liable party pursuant to either Part 201 or Part 213 of NREPA, MCL 324.20126 et seq. and MCL 324.21323a et seq. The REQUESTING PARTY is a local unit of government that has acquired or will acquire property for the use of either a transportation

corridor or public right-of-way and was not responsible for any activities causing a release or threat of release of any hazardous materials at or on the property. The REQUESTING PARTY is not a person who is liable for response activity costs, pursuant to MCL 324.20101 (vv) and (ww).

10. If, subsequent to execution of this contract, previously unknown hazardous substances are discovered within the PROJECT limits, which require environmental remediation pursuant to either state or federal law, the REQUESTING PARTY, in addition to reporting that fact to the Michigan Department of Environment, Great Lakes, and Energy, shall immediately notify the DEPARTMENT, both orally and in writing of such discovery. The DEPARTMENT shall consult with the REQUESTING PARTY to determine if it is willing to pay for the cost of remediation and, with the FHWA, to determine the eligibility, for reimbursement, of the remediation costs. The REQUESTING PARTY shall be charged for and shall pay all costs associated with such remediation, including all delay costs of the contractor for the PROJECT, in the event that remediation and delay costs are not deemed eligible by the FHWA. If the REQUESTING PARTY refuses to participate in the cost of remediation, the DEPARTMENT shall terminate the PROJECT. The parties agree that any costs or damages that the DEPARTMENT incurs as a result of such termination shall be considered a PROJECT COST.

11. If federal and/or state funds administered by the DEPARTMENT are used to pay the cost of remediating any hazardous substances discovered after the execution of this contract and if there is a reasonable likelihood of recovery, the REQUESTING PARTY, in cooperation with the Michigan Department of Environment, Great Lakes, and Energy and the DEPARTMENT, shall make a diligent effort to recover such costs from all other possible entities. If recovery is made, the DEPARTMENT shall be reimbursed from such recovery for the proportionate share of the amount paid by the FHWA and/or the DEPARTMENT and the DEPARTMENT shall credit such sums to the appropriate funding source.

12. The DEPARTMENT'S sole reason for entering into this contract is to enable the REQUESTING PARTY to obtain and use funds provided by the Federal Highway Administration pursuant to Title 23 of the United States Code.

Any and all approvals of, reviews of, and recommendations regarding contracts, agreements, permits, plans, specifications, or documents, of any nature, or any inspections of work by the DEPARTMENT or its agents pursuant to the terms of this contract are done to assist the REQUESTING PARTY in meeting program guidelines in order to qualify for available funds. Such approvals, reviews, inspections and recommendations by the DEPARTMENT or its agents shall not relieve the REQUESTING PARTY and the local agencies, as applicable, of their ultimate control and shall not be construed as a warranty of their propriety or that the DEPARTMENT or its agents is assuming any liability, control or jurisdiction.

The providing of recommendations or advice by the DEPARTMENT or its agents does not relieve the REQUESTING PARTY and the local agencies, as applicable of their exclusive jurisdiction of the highway and responsibility under MCL 691.1402 et seq., as amended.

When providing approvals, reviews and recommendations under this contract, the DEPARTMENT or its agents is performing a governmental function, as that term is defined in MCL 691.1401 et seq., as amended, which is incidental to the completion of the PROJECT.

Upon completion of the PROJECT, the REQUESTING PARTY shall accept the facilities constructed as built to specifications within the contract documents. It is understood that the REQUESTING PARTY shall own the facilities and shall operate and maintain the facilities in accordance with all applicable Federal and State laws and regulations, including, but not limited to, Title II of the Americans with Disabilities Act (ADA), 42 USC 12131 et seq., and its associated regulations and standards, and DEPARTMENT Road and Bridge Standard Plans and the Standard Specifications for Construction.

13. The DEPARTMENT, by executing this contract, and rendering services pursuant to this contract, has not and does not assume jurisdiction of the highway, described as the PROJECT for purposes of MCL 691.1402 et seq., as amended. Exclusive jurisdiction of such highway for the purposes of MCL 691.1402 et seq., as amended, rests with the REQUESTING PARTY and other local agencies having respective jurisdiction.

14. The REQUESTING PARTY shall approve all of the plans and specifications to be used on the PROJECT and shall be deemed to have approved all changes to the plans and specifications when put into effect. It is agreed that ultimate responsibility and control over the PROJECT rests with the REQUESTING PARTY and local agencies, as applicable.

15. The REQUESTING PARTY agrees that the costs reported to the DEPARTMENT for this contract will represent only those items that are properly chargeable in accordance with this contract. The REQUESTING PARTY also certifies that it has read the contract terms and has made itself aware of the applicable laws, regulations, and terms of this contract that apply to the reporting of costs incurred under the terms of this contract.

16. Each party to this contract will remain responsible for any and all claims arising out of its own acts and/or omissions during the performance of the contract, as provided by this contract or by law. In addition, this is not intended to increase or decrease either party’s liability for or immunity from tort claims. This contract is also not intended to nor will it be interpreted as giving either party a right of indemnification, either by contract or by law, for claims arising out of the performance of this contract.

17. The parties shall promptly provide comprehensive assistance and cooperation in defending and resolving any claims brought against the DEPARTMENT by the contractor, vendors or suppliers as a result of the DEPARTMENT'S award of the construction contract for the PROJECT. Costs incurred by the DEPARTMENT in defending or resolving such claims shall be considered PROJECT COSTS.

18. The DEPARTMENT shall require the contractor who is awarded the contract for the construction of the PROJECT to provide insurance in the amounts specified and in accordance with the DEPARTMENT'S current Standard Specifications for Construction and to:

A. Maintain bodily injury and property damage insurance for the duration of the PROJECT.

B. Provide owner's protective liability insurance naming as insureds the State of Michigan, the Michigan State Transportation Commission, the DEPARTMENT and its officials, agents and employees, the REQUESTING PARTY and any other county, county road commission, or municipality in whose jurisdiction the PROJECT is located, and their employees, for the duration of the PROJECT and to provide, upon request, copies of certificates of insurance to the insureds. It is understood that the DEPARTMENT does not assume jurisdiction of the highway described as the PROJECT as a result of being named as an insured on the owner's protective liability insurance policy.

C. Comply with the requirements of notice of cancellation and reduction of insurance set forth in the current standard specifications for construction and to provide, upon request, copies of notices and reports prepared to those insured.

19. This contract shall become binding on the parties hereto and of full force and effect upon the signing thereof by the duly authorized officials for the parties hereto and upon the adoption of the necessary resolutions approving said contract and authorizing the signatures thereto of the respective officials of the REQUESTING PARTY, a certified copy of which resolution shall be attached to this contract.

IN WITNESS WHEREOF, the parties hereto have caused this contract to be executed as written below.

After receipt of bids for the PROJECT, the REQUESTING PARTY shall have the right to reject the amount bid for the PROJECT prior to the award of the contract for the PROJECT only if such amount exceeds by ten percent (10%) the final engineer's estimate therefor. If such rejection of the bids is not received in writing within two (2) weeks after letting, the DEPARTMENT will assume concurrence. The DEPARTMENT may, upon request, readvertise the PROJECT. Should the REQUESTING PARTY so request in writing within the aforesaid two (2) week period after letting, the PROJECT will be cancelled and the DEPARTMENT will refund the unused balance of the deposit less all costs incurred by the DEPARTMENT.

F. Should it be necessary or desirable that portions of the work covered by this contract be accomplished by a consulting firm, a railway company, or governmental agency, firm, person, or corporation, under a subcontract with the REQUESTING PARTY at PROJECT expense, such subcontracted arrangements will be covered by formal written agreement between the REQUESTING PARTY and that party.

This formal written agreement shall: include a reference to the specific prime contract to which it pertains; include provisions which clearly set forth the maximum reimbursable and the basis of payment; provide for the maintenance of accounting records in accordance with generally accepted accounting principles, which clearly document the actual cost of the services provided; provide that costs eligible for reimbursement shall be in accordance with clearly defined cost criteria such as 49 CFR Part 18, 48 CFR Part 31, 23 CFR Part 140, OMB Circular A-87, etc. as applicable; provide for access to the department or its representatives to inspect and audit all data and records related to the agreement for a minimum of three years after the department's final payment to the local unit.

SECTION III

ACCOUNTING AND BILLING

A. Procedures for billing for work undertaken by the REQUESTING PARTY:

1. The REQUESTING PARTY shall establish and maintain accurate records, in accordance with generally accepted accounting principles, of all expenses incurred for which payment is sought or made under this contract, said records to be hereinafter referred to as the "RECORDS". Separate accounts shall be established and maintained for all costs incurred under this contract.

The REQUESTING PARTY shall maintain the RECORDS for at least three (3) years from the date of final payment of Federal Aid made by the DEPARTMENT under this contract. In the event of a dispute with regard to the allowable expenses or any other issue under this contract, the REQUESTING PARTY shall thereafter continue to maintain the RECORDS at least until that dispute has been finally decided and the time for all available challenges or appeals of that decision has expired.

The DEPARTMENT, or its representative, may inspect, copy, or audit the RECORDS at any reasonable time after giving reasonable notice.

If any part of the work is subcontracted, the REQUESTING PARTY shall assure compliance with the above for all subcontracted work.

In the event that an audit performed by or on behalf of the DEPARTMENT indicates an adjustment to the costs reported under this contract, or questions the allowability of an item of expense, the DEPARTMENT shall promptly submit to the REQUESTING PARTY, a Notice of Audit Results and a copy of the audit report which may supplement or modify any tentative findings verbally communicated to the REQUESTING PARTY at the completion of an audit.

Within sixty (60) days after the date of the Notice of Audit Results, the REQUESTING PARTY shall: (a) respond in writing to the responsible Bureau or the DEPARTMENT indicating whether or not it concurs with the audit report, (b) clearly explain the nature and basis for any disagreement as to a disallowed item of expense and, (c) submit to the DEPARTMENT a written explanation as to any questioned or no opinion expressed item of expense, hereinafter referred to as the "RESPONSE". The RESPONSE shall be clearly stated and provide any supporting documentation necessary to resolve any disagreement or questioned or no opinion expressed item of expense. Where the documentation is voluminous, the REQUESTING PARTY may supply appropriate excerpts and make alternate

arrangements to conveniently and reasonably make that documentation available for review by the DEPARTMENT. The RESPONSE shall refer to and apply the language of the contract. The REQUESTING PARTY agrees that failure to submit a RESPONSE within the sixty (60) day period constitutes agreement with any disallowance of an item of expense and authorizes the DEPARTMENT to finally disallow any items of questioned or no opinion expressed cost.

The DEPARTMENT shall make its decision with regard to any Notice of Audit Results and RESPONSE within one hundred twenty (120) days after the date of the Notice of Audit Results. If the DEPARTMENT determines that an overpayment has been made to the REQUESTING PARTY, the REQUESTING PARTY shall repay that amount to the DEPARTMENT or reach agreement with the DEPARTMENT on a repayment schedule within thirty (30) days after the date of an invoice from the DEPARTMENT. If the REQUESTING PARTY fails to repay the overpayment or reach agreement with the DEPARTMENT on a repayment schedule within the thirty (30) day period, the REQUESTING PARTY agrees that the DEPARTMENT shall deduct all or a portion of the overpayment from any funds then or thereafter payable by the DEPARTMENT to the REQUESTING PARTY under this contract or any other agreement, or payable to the REQUESTING PARTY under the terms of 1951 PA 51, as applicable. Interest will be assessed on any partial payments or repayment schedules based on the unpaid balance at the end of each month until the balance is paid in full. The assessment of interest will begin thirty (30) days from the date of the invoice. The rate of interest will be based on the Michigan Department of Treasury common cash funds interest earnings. The rate of interest will be reviewed annually by the DEPARTMENT and adjusted as necessary based on the Michigan Department of Treasury common cash funds interest earnings. The REQUESTING PARTY expressly consents to this withholding or offsetting of funds under those circumstances, reserving the right to file a lawsuit in the Court of Claims to contest the DEPARTMENT'S decision only as to any item of expense the disallowance of which was disputed by the REQUESTING PARTY in a timely filed RESPONSE.

The REQUESTING PARTY shall comply with the Single Audit Act of 1984, as amended, including, but not limited to, the Single Audit Amendments of 1996 (31 USC 7501-7507).

The REQUESTING PARTY shall adhere to the following requirements associated with audits of accounts and records:

a. Agencies expending a total of $500,000 or more in federal funds, from one or more funding sources in its fiscal year, shall comply with the requirements of the federal Office of Management and Budget (OMB) Circular A-133, as revised or amended.

The agency shall submit two copies of:

The OMB Circular A-133 audit must be submitted to the address below in accordance with the time frame established in the circular, as revised or amended.

b. Agencies expending less than $500,000 in federal funds must submit a letter to the Department advising that a circular audit was not required. The letter shall indicate the applicable fiscal year, the amount of federal funds spent, the name(s) of the Department federal programs, and the CFDA grant number(s). This information must also be submitted to the address below.

c. Address: Michigan Department of Education
Accounting Service Center
Hannah Building

e. Agencies shall not charge audit costs to Department's federal programs which are not in accordance with the OMB Circular A-133 requirements.

f. All agencies are subject to the federally required monitoring activities, which may include limited scope reviews and other on-site monitoring.

2. Agreed Unit Prices Work - All billings for work undertaken by the REQUESTING PARTY on an agreed unit price basis will be submitted in accordance with the Michigan Department of Transportation Standard Specifications for Construction and pertinent FAPG Directives and Guidelines of the FHWA.

3. Force Account Work and Subcontracted Work - All billings submitted to the DEPARTMENT for Federal reimbursement for items of work performed on a force account basis or by any subcontract with a consulting firm, railway company, governmental agency or other party, under the terms of this contract, shall be prepared in accordance with the provisions of the pertinent FHPM Directives and the procedures of the DEPARTMENT. Progress billings may be submitted monthly during the time work is being performed provided, however, that no bill of a lesser amount than $1,000.00 shall be submitted unless it is a final

or end of fiscal year billing. All billings shall be labeled either "Progress Bill Number _____", or "Final Billing".

4. Final billing under this contract shall be submitted in a timely manner but not later than six months after completion of the work. Billings for work submitted later than six months after completion of the work will not be paid.

5. Upon receipt of billings for reimbursement for work undertaken by the REQUESTING PARTY on projects funded with Federal monies, the DEPARTMENT will act as billing agent for the REQUESTING PARTY, consolidating said billings with those for its own force account work and presenting these consolidated billings to the FHWA for payment. Upon receipt of reimbursement from the FHWA, the DEPARTMENT will promptly forward to the REQUESTING PARTY its share of said reimbursement.

6. Upon receipt of billings for reimbursement for work undertaken by the REQUESTING PARTY on projects funded with non-Federal monies, the DEPARTMENT will promptly forward to the REQUESTING PARTY reimbursement of eligible costs.

B. Payment of Contracted and DEPARTMENT Costs:

1. As work on the PROJECT commences, the initial payments for contracted work and/or costs incurred by the DEPARTMENT will be made from the working capital deposit. Receipt of progress payments of Federal funds, and where applicable, State Critical Bridge funds, will be used to replenish the working capital deposit. The REQUESTING PARTY shall make prompt payments of its share of the contracted and/or DEPARTMENT incurred portion of the PROJECT COST upon receipt of progress billings from the DEPARTMENT. Progress billings will be based upon the REQUESTING PARTY'S share of the actual costs incurred as work on the PROJECT progresses and will be submitted, as required, until it is determined by the DEPARTMENT that there is sufficient available working capital to meet the remaining anticipated PROJECT COSTS. All progress payments will be made within thirty (30) days of receipt of billings. No monthly billing of a lesser amount than $1,000.00 will be made unless it is a final or end of fiscal year billing. Should the DEPARTMENT determine that the available working capital exceeds the remaining anticipated PROJECT COSTS, the DEPARTMENT may reimburse the REQUESTING PARTY such excess. Upon completion of the PROJECT, payment of all PROJECT COSTS, receipt of all applicable monies from the FHWA, and completion of necessary audits, the REQUESTING PARTY will be reimbursed the balance of its deposit.

2. In the event that the bid, plus contingencies, for the contracted, and/or the DEPARTMENT incurred portion of the PROJECT work exceeds the estimated cost therefor as established by this contract, the REQUESTING PARTY may be advised and billed for the additional amount of its share.

C. General Conditions:

1. The DEPARTMENT, in accordance with its procedures in existence and covering the time period involved, shall make payment for interest earned on the balance of working capital deposits for all projects on account with the DEPARTMENT. The REQUESTING PARTY in accordance with DEPARTMENT procedures in existence and covering the time period involved, shall make payment for interest owed on any deficit balance of working capital deposits for all projects on account with the DEPARTMENT. This payment or billing is processed on an annual basis corresponding to the State of Michigan fiscal year. Upon receipt of billing for interest incurred, the REQUESTING PARTY promises and shall promptly pay the DEPARTMENT said amount.

2. Pursuant to the authority granted by law, the REQUESTING PARTY hereby irrevocably pledges a sufficient amount of funds received by it from the Michigan Transportation Fund to meet its obligations as specified in PART I and PART II. If the REQUESTING PARTY shall fail to make any of its required payments when due, as specified herein, the DEPARTMENT shall immediately notify the REQUESTING PARTY and the State Treasurer of the State of Michigan or such other state officer or agency having charge and control over disbursement of the Michigan Transportation Fund, pursuant to law, of the fact of such default and the amount thereof, and, if such default is not cured by payment within ten (10) days, said State Treasurer or other state officer or agency is then authorized and directed to withhold from the first of such monies thereafter allocated by law to the REQUESTING PARTY from the Michigan Transportation Fund sufficient monies to remove the default, and to credit the REQUESTING PARTY with payment thereof, and to notify the REQUESTING PARTY in writing of such fact.

3. Upon completion of all work under this contract and final audit by the DEPARTMENT or the FHWA, the REQUESTING PARTY promises to promptly repay the DEPARTMENT for any disallowed items of costs previously disbursed by the DEPARTMENT. The REQUESTING PARTY pledges its future receipts from the Michigan Transportation Fund for repayment of all disallowed items and, upon failure to make repayment for any disallowed items within ninety (90) days of demand made by the DEPARTMENT, the DEPARTMENT is hereby authorized to withhold an equal amount from the REQUESTING PARTY'S share of any future distribution of Michigan Transportation Funds in settlement of said claim.

4. The DEPARTMENT shall maintain and keep accurate records and accounts relative to the cost of the PROJECT and upon completion of the PROJECT, payment of all items of PROJECT COST, receipt of all Federal Aid, if any, and completion of final audit by the DEPARTMENT and if applicable, by the FHWA, shall make final accounting to the REQUESTING PARTY. The final PROJECT accounting will not include interest earned or charged on working capital deposited for the PROJECT which will be accounted for separately at the close of the State of Michigan fiscal year and as set forth in Section C(1).

5. The costs of engineering and other services performed on those projects involving specific program funds and one hundred percent (100%) local funds will be apportioned to the respective portions of that project in the same ratio as the actual direct construction costs unless otherwise specified in PART I.

SECTION IV

MAINTENANCE AND OPERATION

A. Upon completion of construction of each part of the PROJECT, at no cost to the DEPARTMENT or the PROJECT, each of the parties hereto, within their respective jurisdictions, will make the following provisions for the maintenance and operation of the completed PROJECT:

1. All Projects:

Properly maintain and operate each part of the project, making ample provisions each year for the performance of such maintenance work as may be required, except as qualified in paragraph 2b of this section.

2. Projects Financed in Part with Federal Monies:

a. Sign and mark each part of the PROJECT, in accordance with the current Michigan Manual of Uniform Traffic control Devices, and will not install, or permit to be installed, any signs, signals or markings not in conformance with the standards approved by the FHWA, pursuant to 23 USC 109(d).

b. Remove, prior to completion of the PROJECT, all encroachments from the roadway right-of-way within the limits of each part of the PROJECT.

With respect to new or existing utility installations within the right-of-way of Federal Aid projects and pursuant to FAPG (23 CFR 645B): Occupancy of non-limited access right-of-way may be allowed based on consideration for traffic safety and necessary preservation of roadside space and aesthetic quality. Longitudinal occupancy of non-limited access right-of-way by private lines will require a finding of significant economic hardship, the unavailability of practicable alternatives or other extenuating circumstances.

c. Cause to be enacted, maintained and enforced, ordinances and regulations for proper traffic operations in accordance with the plans of the PROJECT.

d. Make no changes to ordinances or regulations enacted, or traffic controls installed in conjunction with the PROJECT work without prior review by the DEPARTMENT and approval of the FHWA, if required.

B. On projects for the removal of roadside obstacles, the parties, upon completion of construction of each part of the PROJECT, at no cost to the PROJECT or the DEPARTMENT, will, within their respective jurisdictions, take such action as is necessary to assure that the roadway right-of-way, cleared as the PROJECT, will be maintained free of such obstacles.

C. On projects for the construction of bikeways, the parties will enact no ordinances or regulations prohibiting the use of bicycles on the facility hereinbefore described as the PROJECT, and will amend any existing restrictive ordinances in this regard so as to allow use of this facility by bicycles. No motorized vehicles shall be permitted on such bikeways or walkways constructed as the PROJECT except those for maintenance purposes.

D. Failure of the parties hereto to fulfill their respective responsibilities as outlined herein may disqualify that party from future Federal-aid participation in projects on roads or streets for which it has maintenance responsibility. Federal Aid may be withheld until such time as deficiencies in regulations have been corrected, and the improvements constructed as the PROJECT are brought to a satisfactory condition of maintenance.

SECTION V

SPECIAL PROGRAM AND PROJECT CONDITIONS

A. Those projects for which the REQUESTING PARTY has been reimbursed with Federal monies for the acquisition of right-of-way must be under construction by the close of the twentieth (20th) fiscal year following the fiscal year in which the FHWA and the DEPARTMENT projects agreement covering that work is executed, or the REQUESTING PARTY may be required to repay to the DEPARTMENT, for forwarding to the FHWA, all monies distributed as the FHWA'S contribution to that right-of-way.

B. Those projects for which the REQUESTING PARTY has been reimbursed with Federal monies for the performance of preliminary engineering must be under construction by the close of the tenth (10th) fiscal year following the fiscal year in which the FHWA and the DEPARTMENT projects agreement covering that work is executed, or the REQUESTING PARTY may be required to repay to the DEPARTMENT, for forwarding to the FHWA, all monies distributed as the FHWA'S contribution to that preliminary engineering.

C. On those projects funded with Federal monies, the REQUESTING PARTY, at no cost to the PROJECT or the DEPARTMENT, will provide such accident information as is available and such other information as may be required under the program in order to make the proper assessment of the safety benefits derived from the work performed as the PROJECT. The REQUESTING PARTY will cooperate with the DEPARTMENT in the development of reports and such analysis as may be required and will, when requested by the DEPARTMENT, forward to the DEPARTMENT, in such form as is necessary, the required information.

D. In connection with the performance of PROJECT work under this contract the parties hereto (hereinafter in Appendix "A" referred to as the "contractor") agree to comply with the State of Michigan provisions for "Prohibition of Discrimination in State Contracts", as set forth in Appendix A, attached hereto and made a part hereof. Part 21) issued pursuant to said Act, including Appendix "B", attached hereto and made a part hereof, and will require similar covenants on the part of any contractor or subcontractor employed in the performance of this contract.

E. The parties will carry out the applicable requirements of the DEPARTMENT'S Disadvantaged Business Enterprise (DBE) program and 49 CFR, Part 26, including, but not limited to, those requirements set forth in Appendix C.

7. The contractor shall furnish and file compliance reports within such time and upon such forms as provided by the Michigan Civil Rights Commission; said forms may also elicit information as to the practices, policies, program, and employment statistics of each subcontractor, as well as the contractor itself, and said contractor shall permit access to the contractor's books, records, and accounts by the Michigan Civil Rights Commission and/or its agent for the purposes of investigation to ascertain compliance under this contract and relevant rules, regulations, and orders of the Michigan Civil Rights Commission.

APPENDIX B
TITLE VI ASSURANCE

During the performance of this contract, the contractor, for itself, its assignees, and its successors in interest (hereinafter referred to as the "contractor"), agrees as follows:

1. **Compliance with Regulations**: For all federally assisted programs, the contractor shall comply with the nondiscrimination regulations set forth in 49 CFR Part 21, as may be amended from time to time (hereinafter referred to as the Regulations). Such Regulations are incorporated herein by reference and made a part of this contract.

2. **Nondiscrimination**: The contractor, with regard to the work performed under the contract, shall not discriminate on the grounds of race, color, sex, or national origin in the selection, retention, and treatment of subcontractors, including procurements of materials and leases of equipment. The contractor shall not participate either directly or indirectly in the discrimination prohibited by Section 21.5 of the Regulations, including employment practices, when the contractor covers a program set forth in Appendix B of the Regulations.

3. **Solicitation for Subcontracts, Including Procurements of Materials and Equipment**: All solicitations made by the contractor, either by competitive bidding or by negotiation for subcontract work, including procurement of materials or leases of equipment, must include a notification to each potential subcontractor or supplier of the contractor's obligations under the contract and the Regulations relative to nondiscrimination on the grounds of race, color, or national origin.

4. **Information and Reports**: The contractor shall provide all information and reports required by the Regulations or directives issued pursuant thereto and shall permit access to its books, records, accounts, other sources of information, and facilities as may be determined to be pertinent by the Department or the United States Department of Transportation (USDOT) in order to ascertain compliance with such Regulations or directives. If required information concerning the contractor is in the exclusive possession of another who fails or refuses to furnish the required information, the contractor shall certify to the Department or the USDOT, as appropriate, and shall set forth the efforts that it made to obtain the information.

5. **Sanctions for Noncompliance**: In the event of the contractor's noncompliance with the nondiscrimination provisions of this contract, the Department shall impose such contract sanctions as it or the USDOT may determine to be appropriate, including, but not limited to, the following:

    a. Withholding payments to the contractor until the contractor complies; and/or

    b. Canceling, terminating, or suspending the contract, in whole or in part.

6. **Incorporation of Provisions**: The contractor shall include the provisions of Sections (1) through (6) in every subcontract, including procurement of material and leases of equipment, unless exempt by the Regulations or directives issued pursuant thereto. The contractor shall take such action with respect to any subcontract or procurement as the Department or the USDOT may direct as a means of enforcing such provisions, including sanctions for non-compliance, provided, however, that in the event a contractor becomes involved in or is threatened with litigation from a subcontractor or supplier as a result of such direction, the contractor may request the Department to enter into such litigation to protect the interests of the state. In addition, the contractor may request the United States to enter into such litigation to protect the interests of the United States.

APPENDIX C

TO BE INCLUDED IN ALL FINANCIAL ASSISTANCE AGREEMENTS WITH LOCAL AGENCIES

Assurance that Recipients and Contractors Must Make (Excerpts from US DOT Regulation 49 CFR 26.13)

A. Each financial assistance agreement signed with a DOT operating administration (or a primary recipient) must include the following assurance:

> The recipient shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of any US DOT-assisted contract or in the administration of its DBE program or the requirements of 49 CFR Part 26. The recipient shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure nondiscrimination in the award and administration of US DOT-assisted contracts. The recipient's DBE program, as required by 49 CFR Part 26 and as approved by US DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the recipient of its failure to carry out its approved program, the department may impose sanctions as provided for under Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 U.S.C. 1001 and/or the Program Fraud Civil Remedies Act of 1986 (31 U.S.C. 3801 et seq.).

B. Each contract MDOT signs with a contractor (and each subcontract the prime contractor signs with a subcontractor) must include the following assurance:

> The contractor, sub recipient or subcontractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of US DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this contract, which may result in the termination of this contract or such other remedy as the recipient deems appropriate.

DEPARTMENTAL REPORT

MEMO TO: Jonathan Greene, City Manager

FROM: Troy R. White, P.E., Assistant City Engineer

DATE: August 15, 2023

RECOMMENDATION: **Approve a Revocable License for Flock Safety for the installation of pole-mounted solar-powered gunshot audio detection devices within the public street rights-of-way within an area bound by Franklin Street, South Cooper Street, Prospect Street and Fourth Street and authorize the Mayor and City Clerk to execute the appropriate document(s).**

SUMMARY

Flock Group Inc. dba Flock Safety is a service provider to the Jackson Police Department (JPD). Currently, Flock Safety is working with JPD to install gunshot audio detection devices at fifty-four (54) locations within a service area bound by Franklin Street (north boundary), South Cooper Street (east boundary), Prospect Street (south boundary) and Fourth Street (west boundary).

BUDGETARY CONSIDERATIONS

The Licensee is responsible for all costs and insurance associated for the installation, operation and maintenance of the gunshot audio detection devices.

HISTORY, BACKGROUND and DISCUSSION

These gunshot audio detection devices will provide JPD with immediate and accurate information about when and where gunshots are fired within the service area.

DISCUSSION OF THE ISSUE

Because the gunshot audio detection devices, the poles they are mounted on and the solar panels that will power them will be installed, owned and maintained by Flock Safety, the attached revocable license is necessary.

POSITIONS

Engineering requests that the attached Revocable License be approved, and that the Mayor and City Clerk be authorized to execute the Revocable License on behalf of the City.

9. This License may be revoked at any time, with or without cause, by Licensor, upon thirty (30) days written notice to the Licensee.

10. Licensee, upon revocation of this License, shall, at its sole cost and expense, fully remove the structure and all materials, improvements, structures, or appurtenances pertaining thereto within thirty (30) days of the date of mailing of a Notice of Revocation.

DEPARTMENTAL REPORT

MEMO TO: Jonathan Greene, City Manager

FROM: Jon H. Dowling, PE, City Engineer

DATE: August 15, 2023

RECOMMENDATION: Approve the award for the MLK Corridor Reimagined Engineering contract to Hubbell, Roth & Clark, Inc. of Jackson, Michigan in the amount of $ 1,069,099.00 and authorize the Mayor and City Clerk to execute the appropriate document(s) in accordance with the Purchasing Agent.

SUMMARY

On June 30, 2023, qualification documents and proposals were received from four consultants by the Purchasing Coordinator for preliminary design and construction engineering services for the MLK Corridor Reimagined project. The qualifications and proposals were reviewed by a team consisting of Jon Dowling, City Engineer and Troy White, Assistant City Engineer.

BUDGETARY CONSIDERATIONS

The following is a list of firms that submitted proposals and their ratings and ranks as determined by the review team. Costs proposals were opened and reviewed for the two most qualified firms based on their ratings. Hubbell, Roth & Clark had the highest rating, and a cost of $ 1,069,099.00.

Company	Rating (1000 max)	Cost	Hours	Cost per hour
Hubbell, Roth & Clark (HRC), Inc., Jackson, MI	945	$1,069,099.00	8,843	$120.90
Spaulding DeDecker, Novi, MI	781	$ 849,875.00	6,946	$122.35
Fleis & Vandenbrink, Grand Rapids, MI	653		5,569	
Williams & Works, Grand Rapids, MI	412		4,107	

The Engineer's estimate for this engineering was $1,977,000. The work included in this contract will be paid for with a combination of Major Street Funds, Sewer Funds and Water Funds.

Unlike bid solicitations, Requests for Qualifications and Proposals (RFQPs) are requested for professional services and are designed to allow the respondents to demonstrate their understanding of the project needs and their qualifications to perform the work. The City follows the Brooks Act for Qualification Based Selection (QBS) in the evaluation of the proposals with some modification to allow for consideration of cost. A point system is used to evaluate proposals and select the most qualified firms that consider experience, method of approach, time and effort, and understanding of the project. Cost proposals are opened and evaluated only for the most qualified firms, preventing potential Freedom of Information Act exposure to cost information by unsuccessful respondents.

HISTORY, BACKGROUND and DISCUSSION

This contract includes preliminary design and construction engineering for a one mile section of the MLK Corridor on Martin Luther King Jr Drive from the south City Limits at South Street to Morrell Street. The goal is to update the critical underground utilities while also improving the appearance, function and livability of the surface transportation features for current and future neighborhood residents. The proposed improvements through the corridor include the following:

- Sanitary sewer replacement
- Water main replacement
- Lead service line replacements
- Curb and gutter replacement to decrease pavement width and increase green space
- Construction of a mixed-use micro-mobility trail on one side of the street
- Sidewalk replacement on the other side of the street
- New street lighting installations
- Infill tree plantings
- Permanent sign replacements
- Traffic signal reconstruction with mast arm mounted signals at High Street and Prospect Street intersections.

The construction of these improvements will be funded in part by a federal RAISE grant and a federal EPA grant. The RAISE grant has been approved. The EPA grant has been shortlisted and final approval is pending.

DISCUSSION OF THE ISSUE

Attached for your review are the worksheets used to determine the level of qualification for each firm. These sheets show the critical elements that were considered during the rating process. Engineering recommends that the firm most qualified receive the contract to ensure the highest quality design and contract administration services for this project. The highest rated firms scored higher than the other respondents because their proposals demonstrated an experienced staff, a good understanding of the proposed project, and a thorough work plan to execute the required services. While HRC is the more costly of the two that were deemed most qualified, it is the recommended firm because their proposal demonstrates a deeper understanding of the work entailed based on past project experience and they also included the on-site fabrication inspection that will be required for the traffic signal poles.

POSITIONS

Based on their qualification ranking, and in concurrence with the Purchasing Agent, Engineering recommends that the MLK Corridor Reimagined Engineering contract be awarded to Hubbell, Roth & Clark of Jackson, Michigan, at their not-to-exceed cost of $ 1,069,099.00. We also request that the Mayor and City Clerk be authorized to sign the contract documents

DEPARTMENTAL REPORT

MEMO TO: Jonathan Greene, City Manager

FROM: Troy R. White, P.E., Assistant City Engineer

DATE: August 15, 2023

RECOMMENDATION: **Approve Change Order 1 to the 2022 Pavement Marking contract with PK Contracting of Troy, Michigan in the amount of $107,882.50 for street pavement markings and authorize the City Manager and City Engineer to execute the appropriate document.**

SUMMARY

The attached Change Order 1 will add items for pavement markings for long lines, stop bars, crosswalk stripes and lane use symbols on city streets for the 2023 calendar year.

BUDGETARY CONSIDERATIONS

This change order represents an increase of $107,882.50, bringing the current contract amount to $181,190.50.

HISTORY, BACKGROUND and DISCUSSION

On September 8, 2020, City Council approved the award of the 2020 Pavement Marking Contract to PK Contracting, Inc. of Troy, Michigan in the amount of $73,308.00. This contract was subject to two one-year renewals at the same unit prices as the original contract. The contract was renewed in both 2021 and 2022.

DISCUSSION OF THE ISSUE

A new contract for the City's annual pavement marking program was let on June 20, 2023. However, no bids were received. Because the annual reapplication of pavement markings is critical to public safety, a quote was solicited directly from PK Contracting, the holder of the pavement marking contract that was renewed in 2022. PK Contracting provided the attached quote of $107,882.50. This is less than the Engineer's Estimate of $134,767.00 that was anticipated based on cost increases throughout the construction industry over the past several years. The quote from PK Contracting is $26,884.50 less than the Engineer's Estimate and is found to be fair and reasonable.

POSITIONS

I request approval of Change Order 1 and authorization for the City Manager and the City Engineer to sign the document.

Michigan Avenue and Pearl Street and authorize the City Manager and City Engineer to execute the appropriate document.**

SUMMARY

The attached Change Order 1 will add items for asphalt pavement patching to City of Jackson Parking Lot #21 located on Blackstone Street between W. Michigan Avenue and Pearl Street.

BUDGETARY CONSIDERATIONS

This change order represents an increase of $39,923.75, bringing the current contract amount to $181,604.80.

HISTORY, BACKGROUND and DISCUSSION

On May 23, 2023, City Council approved the award of a contract to Bailey Excavating, Inc. of Jackson, Michigan in the amount of $141,681.05. The original contract was for HMA cold milling and HMA paving to patch sections of failing pavement on the travel lanes on West Avenue between Fourth Street and Griswold Street and on Brown Street between Michigan Avenue and Daniel Road

DISCUSSION OF THE ISSUE

The patching included in this Change Order 1 is for surface defects and subgrade settlements at the location of a previously demolished building which has caused the parking lot to develop major depressions which have become hazardous to vehicles. There are also areas where deterioration and erosion have washed the asphalt away and the surface is now exposed gravel base material. The proposed maintenance work will extend the service life of the pavement and help maintain the structural integrity of this parking lot

The proposed maintenance work will include subgrade undercutting to remove the building demolition debris and backfilling with engineered fill and resurfacing with new hot mix asphalt.

POSITIONS

I request approval of Change Order 1 and authorization for the City Manager and the City Engineer to sign the document.

Michigan Avenue and Pearl Street. The contract amount after the approval of Change Order No. 1 is $181,604.80.

DISCUSSION OF THE ISSUE

The sanitary sewer on Page Avenue was constructed in 1912 of vitreous clay pipe to serve an area of approximately 90 acres. A section at the intersection of Elm Avenue collapsed causing the subsurface material above it to wash into the sewer resulting in a substantial sink hole in the intersection and a partially blocked sewer. This sink hole was investigated by City of Jackson DPW and the sewer collapse was located. The sewer is located 14 feet below the surface which exceeds the capabilities of the equipment used by the City of Jackson DPW. A run of approximately 24 feet of 24-inch sanitary sewer and the adjoining 5 foot in diameter manhole were replaced on an emergency basis to provide immediate relief to the impacted residents and the hazard caused by the sink hole in the roadway.

POSITIONS

I request approval of Change Order 2 and authorization for the City Manager and the City Engineer to sign the document.

RECOMMENDATION: **Approve a Revocable License for RJ'S Metropolitan Ice Cream for the installation of an Illuminated Awning within the E. Michigan Avenue public right-of-way at 135 E. Michigan Avenue and authorize the Mayor and City Clerk to execute the appropriate document(s).**

SUMMARY

The City has received a Revocable License request from RJ's Metropolitan Ice Cream for the installation of an illuminated awning on the building at 135 E. Michigan Avenue. The awning will extend into the E. Michigan Avenue public right-of-way.

BUDGETARY CONSIDERATIONS

The Licensee is responsible for all costs and insurance associated for the construction, use and maintenance of the awning.

HISTORY, BACKGROUND and DISCUSSION

As the face of the building at 135 E. Michigan Avenue is located on the property line of the parcel upon which it sits, the proposed Awning, although attached to the building face, will be located within the E. Michigan Avenue public right-of-way. As such, the installation of the sign requires a Revocable License.

DISCUSSION OF THE ISSUE

Exhibit A of the attached Revocable License document shows the size, location and appearance of the proposed awning that will project into the E. Michigan Avenue right-of-way.

POSITIONS

Engineering requests that the attached Revocable License be approved, and that the Mayor and City Clerk be authorized to execute the Revocable License on behalf of the City. If you have any questions, please contact me.

MEMO TO: Mayor and Councilmembers

FROM: Jonathan Greene, City Manager

DATE: August 15, 2023

SUBJECT: **Change Order No. 2 to the Wastewater Treatment Plant Clean Water State Revolving Fund 2022 Improvements Contract with Allied Mechanical Services, Inc.**

Recommendation:

Approval of Change Order No. 2 to the Wastewater Treatment Plant Clean Water State Revolving Fund 2022 Improvements Contract with Allied Mechanical Services, Inc. in the increased amount of $704,785, and authorize the City Manager and Director of Public Works to execute the appropriate documents.

Your consideration and concurrence are appreciated.

DEPARTMENTAL REPORT

MEMO TO: Jonathan Greene, City Manager

FROM: Michael Osborn, Director of Public Works

DATE: August 15, 2023

RECOMMENDATION: Approval of Change Order No. 2 to the Wastewater Treatment Plant Clean Water State Revolving Fund (CWSRF) 2022 Improvements Contract with Allied Mechanical Services, Inc. in the increased amount of $704,785, and authorize the City Manager and Director of Public Works to execute the appropriate documents.

SUMMARY

In August of 2022, the City's Wastewater Treatment Plant (WWTP) experienced a power outage during a storm event, which resulted in significant flooding of the WWTP facilities. This flooding caused a great deal of damage to various pumps, electrical, and other equipment housed in those facilities. In working closely with the City's insurance adjuster and our engineering firm, Fishbeck, it was found that a majority of the flood damaged equipment was planned for replacement under the Wastewater Treatment Plant CWSRF 2022 Improvements project, which was awarded to Allied Mechanical Services, Inc. (AMS) in the fall of 2022, shortly after the flood event. It was determined the best course of action would be to work with AMS to make all the necessary repairs. It was also advised to include the valves associated with three of the impacted pumps, as these valves were already planned for replacement simultaneously. The insurance claim amount has recently been confirmed and the City would like to move forward with making the repairs. To proceed with completing the repairs for the flood damage, including reallocating the funding sources from the CWSRF loan to the insurance claim reimbursement, extending the contract completion date, and changing the existing contract price, the change order to modify the contract requires the approval of City Council.

BUDGETARY CONSIDERATIONS

This change order to the Wastewater Treatment Plant CWSRF 2022 Improvements Contract will be funded using the following funds:

Source of Funds	Amount
Insurance Claim Reimbursement	$581,557
Sewer System Funds	$123,228
Change Order No. 2 Total	$704,785

Change Order No. 2 will not be funded with the CWSRF loan, as the work was not originally part of the CWSRF project plan. However, an additional insurance claim reimbursement amount of $592,254 will offset the original CWSRF loan amount.

HISTORY, BACKGROUND and DISCUSSION

In August of 2022, the City's Wastewater Treatment Plant (WWTP) experienced a power outage during a storm event, which resulted in significant flooding of the WWTP facilities. This flooding caused a great deal of damage to various pumps, electrical, controls, and other drive equipment housed in those facilities. The City worked closely with our insurance adjuster and our engineering firm, Fishbeck, to inventory the impacted equipment. It was determined that a majority of the equipment was planned for replacement under the Wastewater Treatment Plant CWSRF 2022 Improvements project, which was awarded to Allied Mechanical

Services, Inc. (AMS) in the fall of 2022, shortly after the flood event. Of the remaining impacted equipment, a large portion was also planned for replacement under a separate project that was still in the design phase by Fishbeck at the time.

In working with the insurance adjuster and Fishbeck, it was determined the best course of action would be to work with AMS to make all the necessary repairs. It was also determined it would be best to include the replacement of the valves associated with three of the impacted pumps, as these valves were already planned for replacement simultaneously under the design work.

The insurance claim amount has recently been confirmed. The insurance claim includes more than the $581,557 necessary to add the pump replacements to this contract. An amount of $123,228 is required from the sewer fund to replace the associated valves (which were not impacted by the flood but were already planned for replacement). It will be most cost-efficient to replace the valves at the same time as the impacted pumps.

The insurance claim also includes $592,254 for the impacted equipment that was already slated for replacement in the CWSRF project; this amount does not change the contract price but will offset (reduce) the CWSRF loan amount needed.

POSITIONS

Approve Change Order No. 2 to the Wastewater Treatment Plant Clean Water State Revolving Fund 2022 Improvements Contract with Allied Mechanical Services, Inc., and authorize the City Manager and Director of Public Works to execute the appropriate documents.

Change Order No. 2
To Contract for
Jackson WWTP CWSRF 2022 Improvements
Wastewater Treatment Plant Jackson, Michigan

Notice is hereby given that the following additional information and changes shall become a part of the Contract Documents of the above-named contract.

ORIGINAL CONTRACT AMOUNT	**$11,030,000.00**
CHANGE ORDER NO. 1	**$158,668.00**
CHANGE ORDER NO. 2	**$704,785.00**
NEW CONTRACT AMOUNT AS SET BY CHANGE ORDER NO. 2	**$11,893,453.00**

REASON FOR AMENDMENT:

As outlined in the attached memo from Fishbeck, to replace equipment impacted by a flood event: service water pumps (SWP-1, SWP-2) and wiring; service water auto strainer (SWSTRN); control panel (SWSTRNR-CP) and wiring; dilution water pump (DWP-2) and wiring; eliminate (demolish) the local disconnects and pushbutton stations for the service water and dilution water pumps (breakers and pushbuttons at the respective motor control centers will be used instead); final effluent sampler pump; and east aeration tank drain pump. The memo also outlines replacement of four knife gate valves associated with the service water pumps and auto strainer; and four valves associated with the dilution water pumps including two knife gate valves, one swing check valve, and one plug valve. Allied Mechanical Services, Inc. would require an extension of the substantial completion date of the contract to complete the work outlined in this change order. The substantial completion date shall be extended from the original date of March 1, 2024, to May 1, 2025.

RE: Jackson WWTP Flood Insurance Claim – Equipment Replacements

Overview

The Jackson WWTP was impacted by a flood event in August 2022. Fishbeck is assisting the City in determining replacement costs, including labor and materials for the impacted equipment listed below, in order to submit an insurance claim. We understand a lump-sum replacement cost will serve as suitable documentation for the City's insurance adjuster to make payment.

Equipment Included in Insurance Claim

Please provide costs to furnish and install the following equipment:

A. As specified under the CWSRF 2022 Improvements Project:
   1. Three primary clarifier drives (CD1, CD2, CD3) and wiring.
   2. Six motor actuators for primary sludge valves (101, 102, 103, 104, 105, 106) and wiring.
   3. Demolition and installation of control panel for sludge valves (PPP).

IO&M Supplement

Model 2596 Automatic Strainer

MODEL 2596 AUTOMATIC STRAINER IO&M SUPPLEMENT
(Items Below Replace Corresponding Items in Model 2596 IO&M)

Read all instructions before installation or operation of equipment. Failure to comply with these instructions could result in bodily injury or property damage.

Installation

2. Be sure sufficient headroom is provided for removal of internal parts. See Sales Drawing for removal clearance. NOTE: Clearance for rigging equipment must also be considered.

3. Support the filter in the line as follows:

   Fabricated filters are provided with mounting feet. The footpads are drilled to accommodate the use of anchor bolts. Place the filter in the line on concrete or steel mounts. **Do not** support the filter, or the piping coming to and from the filter, by the line flanges and flange bolting. See Figure 1 Supplement and Sales Drawing.

10. The NPT coupling under the outlet pipe could be used for a clean side drain line. See Figure 1 Supplement.

11. Attach the blow-off/drain line to the NPT coupling in the center of the bottom head. See Figure 1 Supplement. Install a ball, gate or plug valve in this line. Keep this valve closed except when necessary to drain the strainer or blow-off debris settled on the bottom.

12. Attach the backwash line to the side flanged opening. It is important to prevent backpressure by having a short, free-flowing backwash line with no vertical risers and a minimum of bends.

Removal of Cover & Operating Mechanism Assembly

3. Loosen swing bolt nuts and swing bolts to clear blocks.

4. Lift the cover assembly gently, using the lifting lugs on the cover. These lifting lugs are for the cover assembly.

NOTE: See Installation, Item 1 to lift filter.

All internal parts may now be inspected for deterioration, wear or blockage and replaced or repaired as necessary. Inspection should include the element and bushing. The replacement procedures for the reducer, motor and filter are contained herein.

Replacement or Maintenance of Filter Element (Totally revised as follows:)

Replacement or Maintenance of Element & Backwash Arm Bushing (See Figure 1 Supplement)

The Hayward Model 2596 is furnished with a removable element secured to a support ring by four roll pins. The support ring is secured to the cover by four bolts, washers and locknuts.

1. Refer to **Removal of Cover & Operating Mechanism Assembly**, page 7.

2. Lift the cover assembly from the body and lower cover assembly to supports placed under support ring. Remove the four bolts between the support ring and cover, and then lift the cover assembly.

3. Inspect the element, sealing surfaces and bushing located at bottom of backwash arm. Clean element & sealing surfaces as required. Remove existing element by removing the roll pins. Replace element by aligning the element tab holes with the support ring holes and replace the roll pins. Replace backwash arm bushing as required.

4. Lower the cover & backwash arm assembly into the center of the support ring/element assembly. Secure cover to support ring with bolts, washers & locknuts.

5. Lift cover assembly and place into body.

6. Before tightening swing bolts, rotate manually to insure freedom from binding. See “Manual Operation of Backwash Arm” page 7, Steps 2 - 10.

7. Align cover and body bolt blocks and secure with swing bolts.

8. Connect the electrical leads to the motor. Please note that the direction of rotation is not important.

9. Install fuses and connect power source.

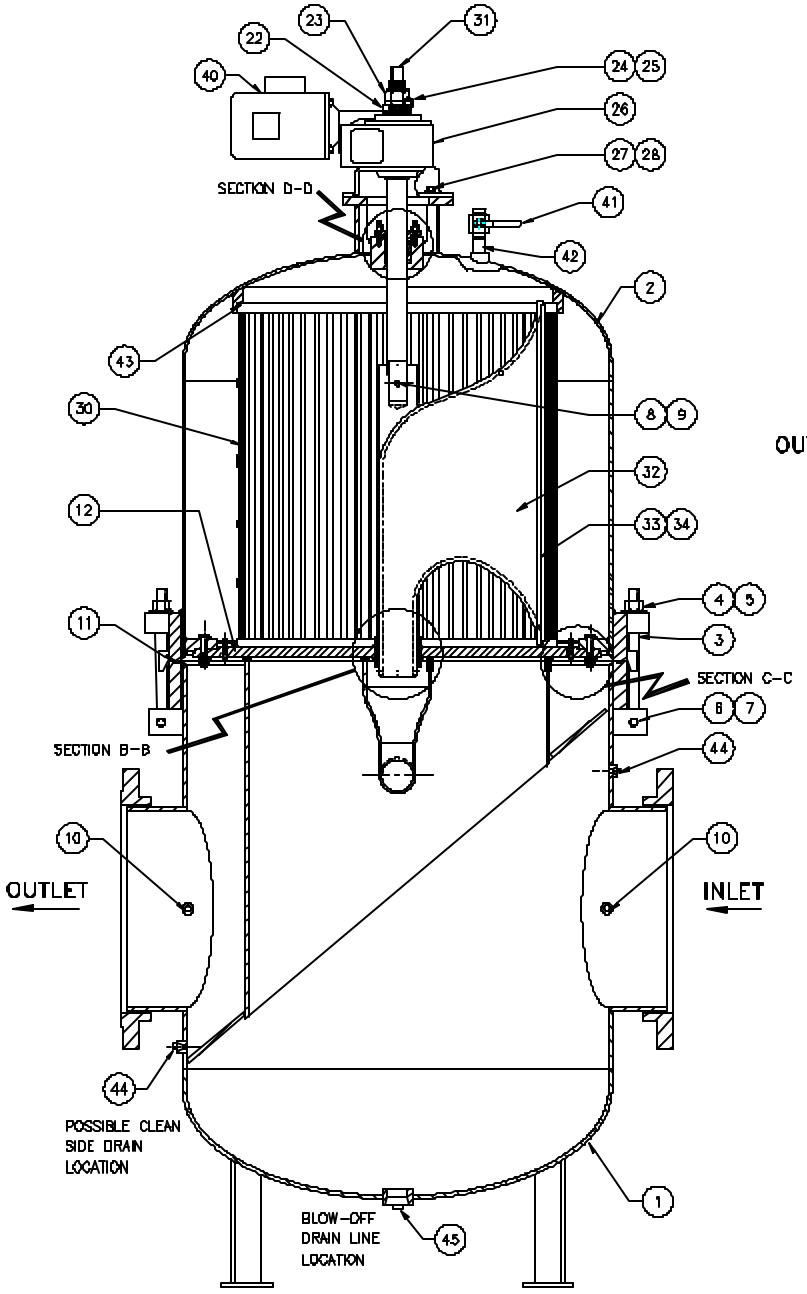

10. The unit is now ready for operation.

11. Refer to “Start-Up” procedures on page 5.

Introduction

A self-cleaning strainer is a device installed in a pipeline to remove dirt and other unwanted debris from fluids. Straining is accomplished by directing the fluid through "sized" openings in perforated straining elements. Self-cleaning strainers have integral backwash systems designed to isolate and clean a small portion of the element while the remaining area continues to strain normally. During operation, fluid flow through the strainer is continuous. A small quantity of "clean" fluid is used to wash the element and then carry the concentrated debris away from the strainer through the backwash system.

Introduction, Continued

Self-cleaning strainers are installed where continuous removal of debris from the process fluid is required and where fluid flow cannot be interrupted for cleaning the straining elements. These strainers are used where manual cleaning is not convenient or practicable for reasons such as: the need for frequent cleaning, possibility of strainer not being cleaned when required due to remote location, variable loading rate, etc. Trapped debris is retained inside straining element cavities. These accumulated solids are then backwashed through the hollow backwash arm shaft to a waste line. Self-cleaning strainers are rated to withstand the pressure of the piping system design.

Receiving, Handling and Inspection

Prior to shipment, strainers have all external machined surfaces coated to protect against rust. All openings are covered and the motor-reducer unit is wrapped with plastic.

Inspect strainer after unpacking for damage incurred during transit. Report any damage to carrier immediately. If strainer is not to be installed immediately, refer to storage instructions.

Remove preservative with solvent wetted cloths. Exercise care when using solvent.

Check to be sure the rated pressure and temperature on the strainer nameplate is not less than the maximum pressure and temperature of the system. The rated pressure shown on the nameplate is the maximum working pressure - including shock - at which the strainer may be operated.

Check to be sure the available electrical power matches the voltage, phase, and cycle requirements of the strainer motor.

Remove flange and thread protectors. Check for and remove any foreign or loose materials such as blocking, desiccant bags, etc. that could be carried downstream when fluid is introduced into the strainer.

Storage

Store strainers indoors in a clean, dry environment whenever possible.

Replace all protective wrappings, flange protectors, plugs, etc. which may have been removed during receiving inspection.

Outdoor storage, when unavoidable, requires special treatment described below:

Place a bag of silica gel or similar desiccant in each pipe connection to absorb moisture

Attach to inside of flange protectors and put reminder labels on outside.)

Reapply rust preventative to any machined surface that became exposed due to handling or receiving inspection.

Make sure all openings are covered. Seal flange protectors with waterproof tape.

Wrap motor-reducer unit with plastic and secure with tape. Permit air circulation or provide adequate desiccant for moisture control.

Protect the entire strainer with heavy polyethylene wrap and seal with waterproof tape.

CAUTION: Before strainers are put into operation after storage be sure to remove all desiccants, protective bags, caps, plugs, etc. Inspect gasketing and shaft seals for possible deterioration and replace as required.

Inspect oil level in reducer and check lubricant for accumulated condensation.

Installation

Position the strainer in the line so that the fluid enters the connection marked inlet.

CAUTION: Lift strainer with slings under the inlet line nozzles and through the reducer mount. Connect all 3 points above strainer for stability.

Be sure sufficient headroom is provided for easy removal of the internal parts.

Support the strainer in the line as follows:

These strainers are provided with footpads or slotted openings to accommodate the use of anchor bolts. Put the strainer in place on concrete or foot mounts. DO NOT support the strainer or the piping coming to and from the strainer by the strainer flanges or flange bolting.

Do not support the strainer, or the piping coming to and from the strainer by the strainer flanges and flange bolting.

Connect the strainer to the line. Use the same type flange faces. For example: **Do not** bolt raised face flanges to iron flat face flanges. Iron flanges must be flat with full face gaskets.

> Strainers are subject to face-to-face variations due to shrinkage, machining and fabrication tolerances. Prefabricated piping systems must allow adjustment at the strainer connections.

Be sure flange gaskets are in place and fasteners are tightened to correct torque values.

Attach a drain line to the bottom NPT drain connection. Install a ball, gate, or plug valve in this line. Keep this valve closed except when necessary to drain the strainer.

Attach the backwash line to the bottom NPT backwash connection. A vigorous backwash flow is necessary for proper operation of the strainer. It is important to prevent pressure loss by having a short, free-flowing backwash line with a minimum of bends, elbows or vertical runs.

Install a backwash valve in the backwash line. The valve may be manually or automatically operated. This backwash valve is to be used only for full-on/full-off control.

For all applications, a manually operated pinch valve (supplied by others) to throttle backwash flow may be installed downstream of the backwash valve. See 'Suggested Backwash Line Installation', Figure 3.

Prior to start up, inspect the inlet waterway for wooden chocks that may have been provided to restrain the backwash arm during shipping. Remove wooden chocks if provided.

Prior to start up, rotate the backwash arm manually to assure freedom of movement. To operate manually, the drive pin must be removed from the top of the shaft.

See "MANUAL OPERATION OF THE EXTERNAL BACKWASH SYSTEM". Use an adjustable wrench on the flats provided on the shaft to allow at least one complete revolution to assure freedom of movement.

CAUTION: Be sure power source matches motor requirements. Damage may occur if improperly connected. Motor starter should incorporate a thermal overload device to protect the motor. Interlock strainer motor with process fluid service pump where feasible. Install a fusible disconnect or circuit breaker on the incoming power service.

Start-Up

Check the reducer for lubricant. Reducers are shipped filled with oil. Before operating, the breather plug must be installed in the top of the reducer (should be placed in the uppermost side). See "Maintenance Reducer" section.

Open reducer vent that has been plugged to prevent lubricant loss during shipment.

Energize strainer motor and/or controls.

Open vent on strainer cover.

Slowly fill the strainer with fluid. Close strainer vent when fluid begins to overflow the vent.

CAUTION:
The strainer must be filled with the working fluid for operation to lubricate all bushings. Do not operate strainer dry.

NOTE: Good operating practice dictates that the operator observe the strainer carefully for several weeks to determine the best operating mode, that is, continuous or intermittent backwash. Refer to "Self-Cleaning Strainer Control Panel Instructions" provided with such equipment.

Operation

Operate the strainer in the continuous mode only, unless controls for intermittent operation have been provided and energized.

Normally the vent and drain valve are left in the closed position. Approximately once each week, open the drain valve for two to three minutes to remove any settled debris on the strainer bottom. Note amount of debris discharged. Frequency of this operation is dependent upon the type and amount of trapped solids in the liquid.

Take daily readings of the pressure drop across the strainer to ensure proper operation.

CAUTION: Total pressure drop in excess of 10 psig is a warning signal requiring investigation and corrective action. Permanent damage may result if operated in excess of 15 psig.

Start-Up...Continued

If the differential pressure exceeds 10 psid:

Check strainer to verify rotation of the backwash arm. If the shaft (visible at top of strainer) is rotating then arm is rotating (refer to Trouble Shooting Section).

Check backwash line for restrictions. Valves in this line should be opened fully, except for high pressure or mesh screen applications in which case the backwash control and/or throttling valve should be adjusted to a flow rate which produces thorough cleaning.

Position drain valve fully open for 2 to 3 minutes to clear strainer of accumulated debris.

Increase the duration of the backwash cycle by adjusting the timer in the control panel.

Should the pressure drop still remain above normal with the backwash operating, close the outlet valve and open the backwash valve fully for several minutes. If the pressure drop is not normal upon resuming flow through the unit, the strainer should be shutdown and internally examined.

Normal Shut-Down

Backwash the strainer for at least six minutes to clean the strainer element.

Close the inlet/outlet flow valves. Then slowly open the bottom drain valve and the vent on the strainer cover.

De-energize strainer motor and/or controls.

Follow standard maintenance procedures contained herein. Do not allow the straining elements to dry while full of debris.

Emergency Shut-Down

To quickly shut-down the system, close the inlet and outlet flow valves.

Fully open all vents and drains. **Proceed with caution as the strainer may be under full pressure.**

De-energize strainer motor and/or controls.

Follow standard maintenance procedures as soon as possible.

Maintenance—Internals

At scheduled intervals, the strainer cover should be removed for internal inspection (refer to "Normal Shut-Down" procedures).

Follow "Removal of Cover and Operating Mechanism Assembly" procedures.

Inspect assembly for damage or wear due to normal operation.

Examine straining element and check for mechanical damage or blinding. Refer to Disassembly and Replacement Parts Procedures.

Clean straining element thoroughly. Cleaning may be accomplished by scrubbing the straining element with a bristle brush or spraying with a high pressure hose. If necessary the straining element may be steam cleaned.

Maintenance—Reducer

The oil in a new reducer should be drained at the end of two weeks or 100 hours of operation, whichever comes first, and the case thoroughly flushed with a light flushing oil. The original oil can be used for refilling if it has been filtered; otherwise new oil must be used.

After the initial maintenance in Item 1 above, it is recommended to change the reducer oil every 2500 hours of operation or every six months (whichever comes first) for units operating under normal conditions. If the unit is operating in extremely dirty or high temperature environments, the oil should be changed more often.

The unit should be filled when not running to the center of the oil sight gauge or the oil level plug with Mobil 600W cylinder oil or equivalent AGMA 7 or 7EP lubricant when the ambient temperature does not exceed 90oF.

For units operating in ambient temperatures normally between 80oF – 125oF, Mobil 600W super cylinder oil or equivalent AGMA 8 or 8EP lubricant is recommended. Please refer to gear reducer manufacturer's instruction operation manual.

Manual Operation of the Backwash Arm

.The Strainer is furnished with a drive pin that when removed allows manual operation.

De-energize the power supply to the strainer motor.

Remove the drive pin.

The drive shaft is now disconnected from the reducer and may be rotated manually.

Manually open the backwash control valve (manual cleaning only).

Place a wrench on the flats at the top of the backwash arm/shaft. Rotate the shaft at 1-1/2 turns per minute and long enough to get the required low pressure drop. Direction of rotation is clockwise.

CAUTION: Do not use excessive force on the backwash arm. Disconnecting the shaft from the reducer also disconnects the shaft from the protection of the motor overloads. If excessive resistance is met, the cover must be removed and the source of blockage cleared away.

To return the strainer to normal operation, first close the backwash control valve.

Replace the drive pin.

Energize the power supply to the strainer drive motor.

The strainer is now ready for operation.

Disassembly and Parts Replacement Procedures

The strainer cover assembly may be removed and disassembled without removing the body from the process piping. This permits examination or replacement of any internal part.. Refer to this manual and the included assembly drawings for the location of parts.

CAUTION: Do not perform any maintenance on this strainer until normal shut down procedures have been performed

Removal of Cover and Operating Mechanism Assembly

Complete "NORMAL SHUT-DOWN" procedure.

Disconnect power source and remove fuses in the control panel.

Removal of Cover and Operating Mechanism Assembly...Continued

Disconnect electrical connections to the motor.

Match mark the body girth flange with the cover girth flange.

Loosen and remove all studs and nuts from the cover assembly.

Using slings under the gear reducer that attach above the whole strainer cover assembly, gently lift the cover assembly straight up.

Place the cover assembly on an elevated SECURE surface with wooden blocks that has enough room the loosen the bolts securing the bottom Cenpeller plate to the cover.

Loosen and remove the four bolts securing the bottom Cenpeller plate to the cover.

Carefully lift the cover assembly straight up until it clears the top of the straining element. This will leave the backwash arm/shaft attached to the cover assembly.

Place the cover assembly on a SECURE surface. Take precautions to prevent tipping over and or falling of the cover assembly.

The straining element with Cenpeller support will be left on the secure surface. This will allow removal of the straining element. The straining element may now be inspected and replaced as necessary. Note: the top element o-ring is now available for inspection.

To remove the backwash arm/shaft, position the cover assembly in an upright position. Make sure that there is ample support under the backwash arm/shaft.

Make note of the relative position of the shaft and the reducer top. Remove the drive pin from the top of the backwash arm/shaft.

Using slings under the gear reducer that attach above the whole strainer cover assembly, gently lift the cover assembly straight up. This allows the backwash arm/shaft to slide out of the gear reducer and the top seal. Note: You must be positioned to support the backwash arm/shaft as it will be unsupported as it clears the reducer and seal.

Other components to be inspected at this time include the lower bushing, inner and outer internal seals in the body and body O-ring. To reassemble, reverse the above steps as applicable.

Body O-Ring, Inner and Outer Internal Seals Replacement

First, complete “Normal Shut Down” procedure.

Disconnect power to the strainer motor, and disconnect the motor leads.

See "Removal of Cover Assembly and Straining Element" Instruction Steps 1 through 7.

Inspect body O-Ring, inner and outer internal seals and replace as necessary.

Replace Cover Assembly by reversing steps referred to in “Removal of Cover Assembly and Straining Element” above.

Lower Bushing Replacement

First, complete “Normal Shut Down” procedure.

Disconnect power to the strainer motor, and disconnect the motor leads.

See "Removal of Cover Assembly and Straining Element" instructions Steps 1 through 11.

Inspect the lower bushing on the backwash arm/shaft for signs of wear. If wear is excessive, remove and replace the bearing.

NOTE: This is a composite material and is force fit on the backwash arm. The nature of this material is to relax and therefore become loose. The bushing should be changed if there is a very loose fit. Excessive or eccentric wear will then occur on the backwash arm. To remove a tight fitting damaged bushing, carefully cut apart and slide off the arm.

To replace the lower bushing, press fit the bushing "inside" diameter over the "bushing" surface of the backwash arm. Approximately 200 pounds of force will be required.

Replace Cover Assembly by reversing the Instruction in “Removal of Cover Assembly, Straining Element & Backwash Arm/Shaft”.

Upper Shaft Seal Removal

First, complete “Normal Shut Down” procedure.

Disconnect power to the strainer motor and disconnect the motor leads.

Disconnect power and remove fuses in the control panel.

Disconnect electrical connections to the motor.

Upper Shaft Seal Removal.. Continued

Make note of the relative position of the backwash arm/shaft and the reducer top. Remove the drive pin from the top of the backwash arm/shaft.

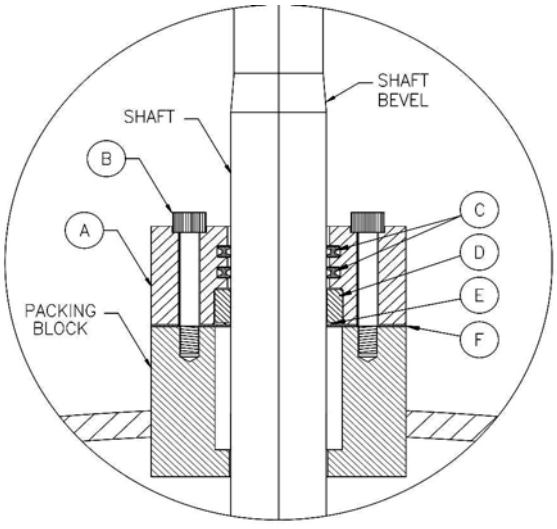

Remove the four (4) bolts holding the speed reducer and motor to the cover assembly.

Carefully lift the reducer and motor straight up until it clears the top of the backwash arm/ shaft.

Remove Screws (B) from the Housing (A) & slide Housing (A) over the backwash arm/shaft. See Figure 1

The Upper Bushing (D) and the two (2) Quad-Rings (C) can be inspected and replaced as needed. See Figure 1.

Figure 1

FINAL INSTALLATION OF SHAFT SEAL KIT

NOT TO SCALE

Upper Shaft Seal Replacement

Refer to Figure 1.

Slide Gland Gasket (F) down the backwash arm/shaft to the Packing Block (machined area around the top central hole of the cover).

Slide O-Ring (E) down the backwash arm/shaft to the Gland Gasket (F).

Slide Upper Bushing (D) over the backwash arm/shaft to the Upper O-Ring (E).

Lubricate the two (2) Quad-Rings (C) with a light film of Process Compatible Lubricant and insert each into the Housing (A).

Upper Shaft Seal Replacement..Continued

Slide Housing (A) over the backwash arm/shaft, until the Housing (A) rests on the Packing Block and over the Upper Bushing (D).

Align holes in Housing (A) and Gland Gasket (F) to the Packing Block.

Insert the Screws (B) into Housing (A) going through the Gland Gasket (F) and into Packing Block and screw until tight.

Replace the gear reducer and motor using Instruction Steps 8 through 13 in “ SPEED REDUCER REPLACEMENT”.

Motor Replacement

First, complete “Normal Shut Down” procedure.

Disconnect power source and remove fuses in the control panel and motor leads.

Remove bolts holding the motor to the reducer and the key from the motor output shaft.

CAUTION: Do not Allow the Motor to Drop Or For It To Rest On The Shaft.

Install the key on the new motor output shaft. Install the new motor on the reducer and secure with motor mounting cap screws.

Reconnect the power leads to the motor.

Replace fuses and reconnect power source.

Speed Reducer Replacement

First, complete “Normal Shut Down” procedure.

Disconnect power and remove fuses in the control panel.

Disconnect electrical connections to the motor.

Remove bolts holding the motor to the reducer and place the motor on a secure surface.

Remove the key from the motor output shaft.

CAUTION: Do not Allow the Motor to Drop Or For It To Rest On The Shaft.

Speed Reducer Replacement..Continued

Make note of the relative position of the shaft and the reducer top. Remove the drive pin from the top of the backwash arm/shaft.

Remove the four (4) bolts holding the speed reducer to the cover assembly.

Carefully lift the reducer straight up until it clears the top of the drive shaft.

Position the new reducer in relative position as in Step 5 above. Secure with bolts.

Install the drive pin.

Install the motor key on the motor output shaft. Install the motor on the reducer and secure with motor mounting cap screws.

Check lubricant levels in the reducer and check the vent.

Reconnect the power leads to the motor.

Replace fuses and reconnect power source.

Trouble Shooting

High Differential Pressure due to high solids loading in process fluid:

Increase length of backwash cycle or backwash continuously.

Backwash Arm not rotating, Motor overloads tripped:

Obstruction between straining element and back-wash arm.

Misalignment of backwash arm.

Bearing failure.

High Differential Pressure due to piping:

Shorten backwash piping by eliminating elbows, vertical pipe runs and restrictions due to valves, fittings, etc. By removing pipe friction loses, system pressure losses are reduced.

Trouble Shooting, Continued

Backwash Arm not rotating, Motor and/or reducer failure:

Incorrect voltage applied to strainer motor.

Overload heaters in motor starter improperly sized.

Lubricant level in reducer too low, reducer vent plugged, or no lubricant.

Control Problems:

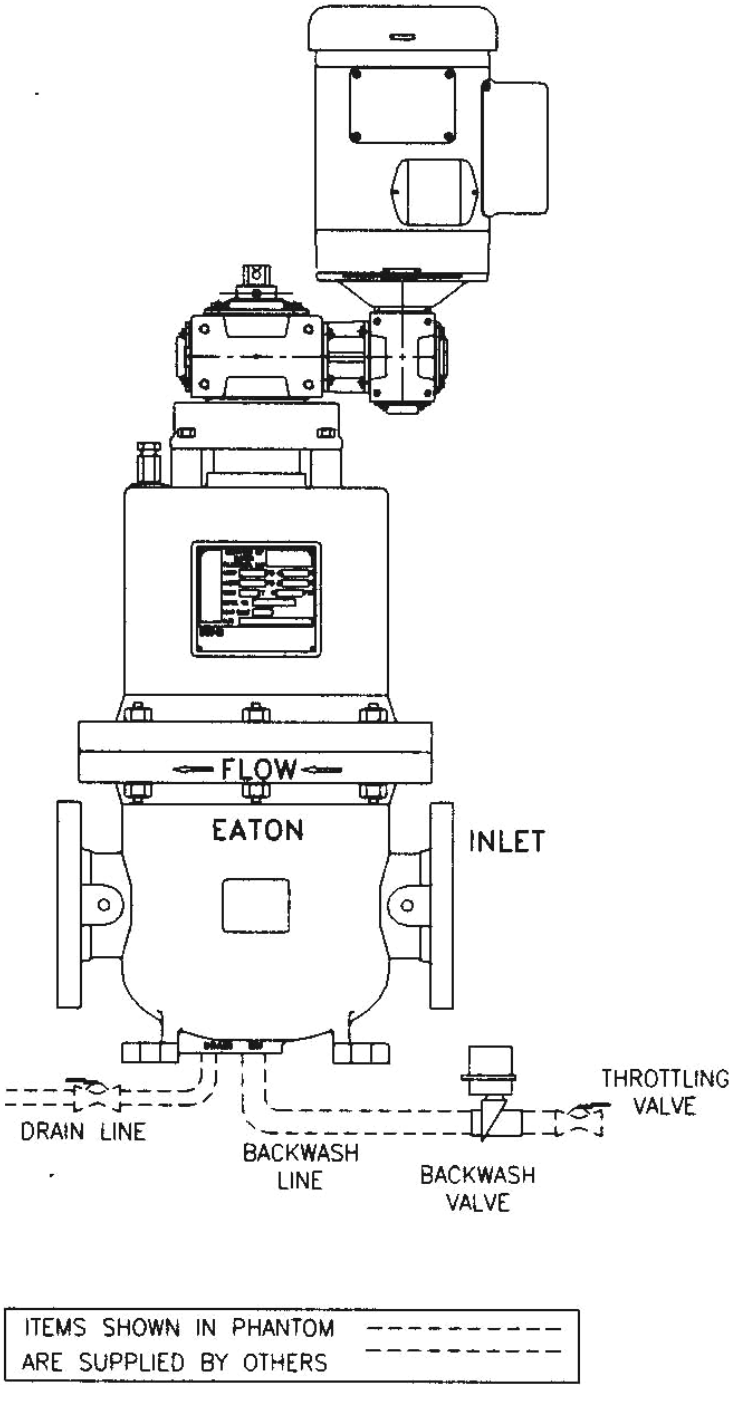

Blown fuses.
Incorrect voltage applied to control panel and/or valves, switches, etc.

Incorrect wiring between control panel and valves, switches, alarms, etc.

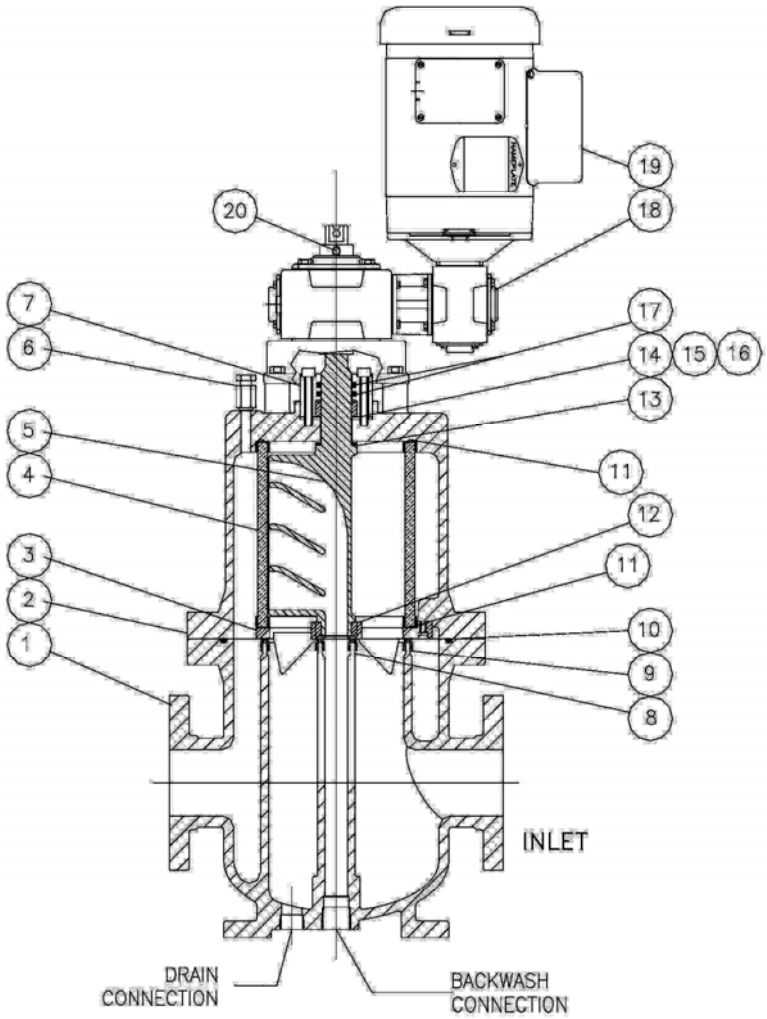

Differential pressure switch improperly adjusted.

Insufficient air pressure applied to pneumatically operated backwash valves

The Developer is Pivotal formally MVAH. The Blackstone Lofts development is proposed to be 44-53unit, 4-story apartment complex (1,2 and 3 bedroom units), located on the East side of the 200 Block of N. Blackstone Street. BUDGETARY CONSIDERATIONS

$400,000 Purchase Offer

HISTORY, BACKGROUND and DISCUSSION

Developer MVAH now Pivotal built The Francis Lofts which is a senior living complex in the City of Jackson. Pivotal is pursuing two additional developments within the City. Each development is part of a LIHTC project. In 2021 City Council approved a PILOT ordinance for the The Blackstone Dividend Housing Association (TBDHA) so that Pivotal could complete the LIHTC application with the State of Michigan for The Blackstone Lofts. Pivotal has submitted plan document for The Blackstone Lofts to the Building Division. Since 2021 Pivotal has been engage with talks with City Staff to move the project forward after the LIHTC award is received. The Blackstone Lofts has been approved for LIHTC funding. Pivotal has moved to the next phase of the development which entails securing ownership of the build location. TBDHA (Pivotal) submitted a purchase offer of $400.00 for property located at 209 N. Blackstone and the Southwest corner of 221 W. Louis Glick Hwy (132 ft x 132 ft), to construct a 4-Story apartment complex that will have 44-53 units (1, 2 and 3 bedroom). Early education center will be located on the main floor. As part of an associated development agreement, the City will lease 37 parking passes to TBDHA to accommodate parking for the occupants. Developer agrees that the construction of the Development and the

units located thereon shall result in an investment of approximately $230,000 per unit, or approximately $12.2 million dollars in construction contract

POSITIONS

The Blackstone Lofts will help fill the gap of affordable housing options for the Citizens of Jackson. Zimmerman and Volk and Guidhouse housing studies indicate a need to increase housing options in the City. Staff recommends approval of the sales agreement and development agreement.

5. Inspection Period; Seller's Deliverables.

5.1. Inspection Period. Purchaser, at Purchaser sole cost and expense, shall have until 5 p.m. EST on September 30, 2023 or such other date as mutually agreed upon by Seller and Purchaser (the "Inspection Period"), in which to conduct its due diligence review of the Property, testing, investigations and inspections of the physical aspects of the Property, and otherwise to determine the desirability and utility of the Property for Purchaser's intended use, as determined by Purchaser, in Purchaser's sole and absolute discretion, including but not limited to the following:

5.1.1. Zoning and Permits. Purchaser shall have confirmed that the Property is zoned to permit the construction of residential housing units (the "Purchaser's Intended Use"). If the Property must be rezoned for Purchaser's Intended Use, Seller agrees to cooperate with Purchaser in the rezoning process. Purchaser, at its cost and expense, shall have obtained, upon terms and conditions satisfactory to Purchaser, all necessary permits, licenses, variances and approvals (collectively, the "Permits") pertaining to the building, occupancy, signs, utilities, curb cuts, driveways (including ingress and egress to and from public thoroughfares), zoning, use, environmental controls, and any other permits which, in the sole judgment of Purchaser, are necessary for Purchaser's Intended Use. Seller agrees to execute any applications or other documents and make such other appearances as reasonably requested by Purchaser in order to obtain the Permits.

5.1.2. Utilities. Purchaser shall have confirmed that all utilities, including telephone, storm sewer, sanitary sewer, water, gas and electric (collectively, the "Utilities") have been adequately extended within satisfactory easements or rights-of-way to a location on the perimeter of the Property at which Purchaser can tap into and receive service without the imposition of tap-in charges to Purchaser other than tap-in charges which are customarily and normally charged in the locality in which the Property is located. Such Utilities shall be available in a size and pressure appropriate for Purchaser's Intended Use. Seller shall grant, or cause to be granted to Purchaser all necessary utility easements.

5.1.3. Lot Split. Purchaser may, at Purchaser's sole cost and expense, complete any subdivision or lot split of Seller's property which is necessary in order to convey the Property to Purchaser as a separate, transferable and taxable parcel.

5.1.4. Title Insurance. Purchaser shall have obtained a satisfactory Title Commitment in accordance with Section 6.1 of this Agreement.

5.1.5. Environmental Phase I and Related Testing. Purchaser, at Purchaser's cost and expense, shall have obtained a current satisfactory Phase I Environmental Audit of the Property.

5.1.6. Financial Feasibility. Purchaser must have determined, in its sole and absolute discretion, that the purchase and development of the Property for Purchaser's Intended Use is financially feasible.

5.1.7. Termination. If Purchaser determines in its sole and absolute discretion that the Property is not acceptable, Purchaser shall have the right for any reason or no reason either to: (a) terminate this Agreement by written notice to Seller on or before the date of Closing, or any extensions thereof as mutually agreed upon by Seller and Purchaser, and the Title Company shall immediately return the Deposit to Seller and neither party shall have any further rights or obligations to the other under this Agreement, subject to the conditions set forth in Section 3.2; or (b) waive the requirements and/or contingencies regarding such due diligence review and proceed with this Agreement.

5.2. As a material inducement to Purchaser's execution hereof, Purchaser and Seller agree that it would be impracticable and extremely difficult to fix actual damages in case of Purchaser's default. Seller agrees that the amount of the Deposit paid prior to default or Purchaser's notice to Seller of its intent to default is a reasonable estimate of such damages, and that Seller shall retain the Deposit as liquidated damages, and its sole remedy against Purchaser. Furthermore, Seller agrees that the amount of the Deposit is a sufficient remedy for such Purchaser default, Seller shall no longer have any cause of action or claim against Purchaser in law or in equity, including specific performance, and Purchaser shall be fully released from any action of Seller arising out of Purchaser's alleged breach of this Agreement. The parties further agree that the Deposit is a reasonable sum considering all of the circumstances of the transactions contemplated by this Agreement.

5.3. Seller's Deliverables. Within seven (7) days after the date of this Agreement, Seller agrees to provide Purchaser with copies of any and all environmental reports, wetlands permits, geotechnical reports, concurrency documents, plans and specifications, plans, bids, covenants, construction contracts, aerial photographs, development agreements, warranties, leases and rent roll, topos, correspondence, utility locations and capacity documents, traffic studies, surveys, title work commitments or policies, surveys, soil tests or other inspection reports regarding the Property which are in Seller's possession and any and all reports or information in Seller's possession affecting the Property.

6. Title Commitment; Survey.

6.1. Title Commitment. Purchaser may cause to be furnished to Purchaser, at Purchaser's costs and expense, a title insurance report and commitment for an ALTA Owner's Title Insurance Policy in a coverage amount equal to the amount of the Purchase Price, from the Title Company (the "Title Commitment"), in which the Title Company commits that upon delivery and recordation of the Deed and other documents provided for in this Agreement, the Title Company will issue, at its usual rate, an ALTA Owner's Title Insurance Policy, insuring access to the Property and such other endorsements as Purchaser may request (the "Title Policy"). Title to the Property shall be good and marketable in fee simple in the name of Seller, as determined in accordance with the standards of the state bar association where the Property is located and free and clear of all Encumbrances other than Permitted Encumbrances. If the Title Commitment or the exceptions show that title is unmarketable, then Purchaser shall notify Seller of Purchaser's objections prior to the expiration of the Inspection Period. Seller shall undertake, with due diligence, to have the defects identified by Purchaser eliminated. If Seller is unable or unwilling to eliminate defects identified by Purchaser within fifteen (15) days, Seller shall notify Purchaser in writing, and Purchaser shall have the option, within fifteen (15) days of the written notice by Seller, to be exercised in Purchaser's sole discretion, to: (i) proceed with Closing of this transaction subject to such title defects; or (ii) terminate this Agreement, in which event the Title Company shall return to Purchaser the Deposit. Notwithstanding the foregoing, Purchaser shall have the right to object to any new title exceptions which are identified between the date of the Title Commitment and the Closing Date.

6.2. Survey. Purchaser may cause to be delivered to Purchaser, a survey of the Property, at Purchaser's cost and expense (the "Survey").

7. Representations by Seller. As of the date of this Agreement and as of the Closing Date:

7.1. Title to Property. Seller represents that Seller has good, marketable and indefeasible fee simple title to the Property, free and clear of all Encumbrances of any nature except Permitted Encumbrances. On the Closing Date the Property shall be unoccupied and free of any lease or other right of possession or claim of right of possession by any person or entity other than Purchaser.

7.2. Authority and Organization. Seller represents that it is a municipal corporation, duly organized, validly existing, and in good standing under the laws of the State of Michigan, and has all requisite power and authority to carry on its business as it is presently being conducted. The execution and delivery of this Agreement have been duly authorized and validly executed and delivered by Seller, and will not violate any provision of any municipal, state or federal law, statutory or otherwise, to which Seller or the Property may be subject.

7.4. Property Rights. Seller represents that other than this Agreement, there are no outstanding options, contracts, commitments, warranties, pledges, agreements or other rights of any character entitling any Person to acquire any or all of the Property. Further, all service and maintenance contracts with respect to the Property will, unless Purchaser notifies Seller in writing during the Inspection Period that Purchaser intends to assume the same, be terminated by Seller, at Seller's cost, at Closing.

7.5. Litigation. There is no pending or threatened litigation, arbitration, administrative action or examination, claim, or demand whatsoever relating to the Property. No attachments, execution proceedings, liens, assignments or insolvency proceedings are pending or threatened against Seller or the Property or contemplated by Seller.

7.6. Environmental. To the best of Seller's knowledge, Seller: (i) has not used the Property for the storage, treatment, generation, production or disposal of any toxic or hazardous waste, material or substance nor does Seller have knowledge of such use by others; (ii) has not caused or permitted and has no knowledge of the release of any toxic or hazardous waste, material or substance on or off site of the Property; (iii) has not received any notice from any governmental authority or other agency concerning the removal of any toxic or hazardous waste, material or substance from the Property; and (iv) has disclosed to Purchaser the location of all underground storage tanks on the Property, if any. 8.2. Enforceability. This Agreement has been duly authorized and approved by Purchaser, has been duly and validly executed and delivered by Purchaser and is a valid and legally binding agreement of Purchaser, enforceable against Purchaser in accordance with its terms, except to the extent that such enforcement may be limited by bankruptcy, insolvency, reorganization, moratorium or other laws relative to or affecting the rights and remedies of creditors generally and by general principles of equity (regardless of whether in equity or at law).

Gross Potential Rents means the total potential rents as defined by the U.S. Department of Housing and Urban Development in regulations promulgated pursuant to Section 8 of the U.S. Housing Act of 1937, as amended, (as set forth in the schedule of charged rents that is to be provided to the City of Jackson on or before December 31 of each tax year) that could be charged to all sources if all units are occupied.

G. HUD means the U.S. Department of Housing and Urban Development

H. Mortgage Loan means a loan that is Federally-Aided (as defined in Section 11 of the Act) or a loan or grant, an allocation under the LIHTC Program by the Authority, or HUD or Authority pass-through bonds, made or to be made by the Authority to the Sponsor for

the construction, rehabilitation, acquisition and/or permanent financing of the housing project, and secured by a mortgage on the housing project.

I. Sponsor means The Blackstone Limited Dividend Housing Association LLC.

J. Utilities means charges for gas, electric, water, sanitary sewer, trash removal and other utilities furnished to the occupants that are paid by the housing project.

SECTION 4. Class of Housing Projects.

It is determined that the class of housing projects to which the tax exemption shall apply and for which a service charge shall be paid in lieu of such taxes shall be housing projects for low income persons and families that are financed by an allocation under the LIHTC Program by the Authority. It is further determined that The Blackstone Limited Dividend Housing Association LLC's "The Blackstone" apartments are of this class.

SECTION 5. Establishment of Annual Service Charge.

The housing project and the property on which it is located shall be exempt from all *ad valorem* property taxes from and after the commencement of construction. The City of Jackson acknowledges that the Sponsor and the Authority have established the economic feasibility of the housing project in reliance upon the enactment and continuing effect of this Ordinance, and the qualification of the housing project for exemption from all *ad valorem* property taxes and a payment in lieu of taxes as established in this Ordinance. Therefore, in consideration of the Sponsor's offer to construct and operate the housing project, the City of Jackson agrees to accept payment of an annual service charge for public services in lieu of all *ad valorem* property taxes. Subject to receipt of a mortgage loan, cash, or an allocation under the LIHTC Program by the Authority, the annual service charge shall be six (6%) percent of the gross potential rents charged and (6%) of any non-monetary consideration of any form given in return for occupancy. There is no reduction for rents charged but not paid or not paid timely. There is no reduction for any utilities. Notwithstanding the foregoing, the parties agree that the annual service charge shall not exceed the *ad valorem* property taxes that would be paid if the property were not tax exempt.

SECTION 6. Contractual Effect of Ordinance.

Notwithstanding the provisions of section 15(a)(5) of the Act to the contrary, a contract between the City of Jackson and the Sponsor with the Authority as third party beneficiary under the contract, to provide tax exemption and accept payments in lieu of taxes, as previously described, is effectuated by enactment of this Ordinance.

SECTION 7. Limitation on the Payment of Annual Service Charge.

Notwithstanding Section 5, the service charge to be paid each year in lieu of taxes for the part of the housing project that is tax exempt but which is occupied by other than low income persons or families shall be equal to the full amount of the taxes which would be paid

on that portion of the housing project if the housing project were not tax exempt.

SECTION 8. Payment of Service Charge.

The annual service charge in lieu of taxes as determined under this Ordinance shall be payable in the same manner as general property taxes are payable to the City of Jackson and distributed to the several units levying the general property tax in the same proportion as prevailed with the general property tax in the previous calendar year. The annual payment for each operating year shall be paid on or before June 1 of the following year. Collection procedures shall be in accordance with the provisions of the General Property Tax Act (1893 PA 206, as amended; MCL 211.1, *et seq).*

SECTION 9. Duration.

This Ordinance shall remain in effect and shall not terminate so long as a Mortgage Loan remains outstanding and unpaid, or the Authority or HUD has any interest in the property, including a regulatory agreement in connection with an allocation under the LIHTC Program or Section 8 assistance under the Act, but not more than thirty (30) years; provided, that:

A. Sponsor files with the City Assessor a certified notification of exemption, as required by Section 15a(l) of the Act; and

B. Pursuant to Section 15a(6) of the Act, the annual service charge to be paid in lieu of taxes for that part of the housing project which is occupied by other than persons of low income, shall be equal to the full amount of taxes that would be paid on that portion of the housing project if the housing project were not exempt; and

C. Acquisition of the housing project property described on Exhibit A by Sponsor occurs within 120 days of the effective date of this Ordinance.

SECTION 10. Severability.

The various sections and provisions of this Ordinance shall be deemed to be severable, and should any section or provision of this Ordinance be declared by any court of competent jurisdiction to be unconstitutional or invalid the same shall not affect the validity of this Ordinance as a whole or any section or provision of this Ordinance, other than the section or provision so declared to be unconstitutional or invalid.

SECTION 11. Effective Date.

This ordinance shall become effective thirty (30) days from the date of its adoption. All other ordinances or parts of ordinances in conflict herewith are hereby repealed to the extent of their conflict.

The foregoing Ordinance No. 511 was adopted by the Jackson City Council on the 28th day of September 2021 and a summary was published on October 3, 2021.

MEMO TO: Honorable Mayor and City Councilmembers

FROM: Jonathan Greene, City Manager

DATE: August 15th, 2023

SUBJECT: Allocation of funds for demolition of structures

Recommendation: Approve a budget amendment from budge year 2023/2024 to reallocate $193,402 from the General Fund to the Building Demolition Fund.

Your consideration and concurrence is appreciated.

DEPARTMENTAL REPORT

MEMO TO: Honorable Mayor and City Council Members

FROM: Jonathan Greene, City Manager

DATE: **Council Meeting August 15th, 2023**

RECOMMENDATION: Approve a budget amendment from budge year 2023/2024 to reallocate $193,402 from the General Fund to the Building Demolition Fund.

SUMMARY

There are approximately 40 structures throughout the City that are pending demolition, eight of which are in urgent need of being razed due to the safety hazards and negative impact on the surrounding properties. The 2023/2024 budget did not include an allocation to the Building Demolition Fund (BDF). The BDF is used to account for revenues earmarked for building demolition expenditures that are not otherwise funded with Brownfield Redevelopment or CDBG monies. BDF is used to account for the receipts and expenditures related to the cost of demolitions determined necessary by the Building Inspection Department and upheld by the City's Building Board Code of Examiners and Appeals. All structures identified for demolition have been deemed a dangerous/ unsafe and a public nuisance.

BUDGETARY CONSIDERATIONS

$193,402 re-allocation from the General Fund to the Building Demolition Fund
Average demolition Cost 2023: $18.23 Sq/Ft – Plus remediation cost

POSITIONS

Demolition funds were not allocated to the 2023/2024 Building Demolition Fund. Staff is requesting a budget amendment to direct $193,402 of General fund Dollars to the BDF. To increase transparency of the demolition program, the decision to bring all demolition projects before City Council if General Fund dollars would be required is most prudent. Chief Building Official Brian Taylor identified eight of approximately 40 structures on the City's demolition list that are in urgent need of being razed due to the negative impact on the surrounding properties and neighborhood. Seven of the eight structures were victim of fire. All structures were condemned by the Chief Building Official. Hearings were held by the Building Board Code of Examiners and Appeal (BCBA). Each property condemnation was upheld by the BCBA.

BCBA entered orders authorizing the Community Development Department to demolish the structures or otherwise make safe. All properties owners were provided an opportunity to attend the BCBA Hearing to present evidence and to testify as to the dangerous conditions and as to whether they should be allowed to re-occupy the structure.

If funds are authorized to complete the demolitions. Staff will put the projects out to bid. Once the bid award are granted. City Staff will work with contractors to work expeditiously to remove the unsafe, blighted structures from the Community.

Staff recommends Council approval demolition of 809 S Blackstone, 110 E Wilkins, 707 Seymour, 717 Fifth, 515 Oak, 441 Jefferson, 1205 Linwood and 140 Bates.

HISTORY AND BACKGROUND

On November 9, 2021, the Jackson City Council officially formed the Affordable Housing Development Board (AHDB). Comprised of seven members, the intent of the board is to promote the health, safety, and general welfare of the people of the City of Jackson, by serving as an advisory body to the Jackson City Council, to propose remedies on the implementation of housing goals, objectives, and policies. The Jackson Affordable Housing Development Board (AHDB) was originally charged with recommending (to City Council) the allocation of $3.5 million in American Rescue Plan Act (ARPA) funds, focusing on policies, expenditures and projects to create safe, dignified, and affordable housing options in the City of Jackson.

The City of Jackson contracted with Guidehouse, for assistance with the expenditure of its American Rescue Plan Act (ARPA) funds). Guidehouse was tasked with conducting a Citywide comprehensive housing assessment, and their “Housing Strategy and Policy Framework” was presented to the AHDB and City Council in early 2023. This comprehensive, data-drive analysis of Jackson’s current and future housing needs outlined numerous housing objectives, with an implementation target of ten years, including: the construction of 1,500 new units; the preservation of 3,000 existing units; a first-time homebuyer program; and a public land strategy.

DISCUSSION OF THE ISSUE

At their meeting on March 21, 2023, the Jackson City Council approved a recommendation from the Jackson Affordable Housing Development Board for an allocation from the City of Jackson's ARPA funds (in the amount of $3.31 million), with $2.5 million of those funds earmarked for a down-payment assistance program and $310,000 earmarked for program administration costs (commonly referred to as the 100 Homes Program). Program documents, including program guidelines and requests for proposals, were reviewed by the AHDB.

At their meeting on June 13, 2023, the Jackson City Council approved the Program Guidelines, Nonprofit Request for Proposals, and Developer Request for Proposals, for the 100 Homes Program. Developer and Nonprofit RFPs were promptly distributed, and submissions for each were due on July 14, 2023. The focus of this agenda item is the previously approved Program Guidelines document for the 100 Homes Program.

The previously approved Program Guidelines outlined the administration of the 100 Homes Program by a non-profit partner. Through the RFP process, one proposal was submitted for non-profit program administration. The requested budget for program administration, as submitted during the RFP process, far exceeded the original allocation for program administration expenses. Staff from the Community Development Department carefully considered the proposal, as well as our own internal staff/departmental capacity. After considerable dialogue, research, and financial analysis, it was determined that City staff can fully administer the 100 Homes Program without the need for non-profit assistance. It is therefore necessary to amend the previously approved 100 Homes Program Guidelines to adjust for this change. The Community Development Department is confident this program can be administered by current City staff, providing an outstanding program at a reasonable cost.

POSITIONS

Requested action is for City Council to approve the revised Program Guidelines for the 100 Homes Program, and authorize the City Manager and City Attorney to make minor modifications as needed.

Program Guidelines, 100 Homes Program

I. Executive Summary

A. Overview

These Program Guidelines provide guidance to the City of Jackson's Community Development Department to administer financing for the 100 Homes Program. Funding is provided by the U.S. Department of the Treasury's American Rescue Plan Act (ARPA) funds, and is allocated to specific activities by the Jackson City Council. All new home construction assistance under this program must meet guidelines and regulations established by the funding source as well as requirements contained within this manual.

Staff from the Community Development Department must certify that program recipients meet the standards set forth by the U.S. Department of the Treasury and the City of Jackson eligibility requirements. The following Program Guidelines have been prepared to provide direction in the allocation, management, and monitoring of program funds. The Jackson City Council may waive any local policy in this manual not statutorily required by the funding source whenever it is determined undue hardship adversely affects the achievement of the program's purpose.

B. Background

On November 9, 2021, the Jackson City Council officially formed the Affordable Housing Development Board (AHDB). Comprised of seven members, the intent of the board is to promote the health, safety, and general welfare of the people of the City of Jackson through the development of housing goals and objectives catered to low and moderate income residents. Chapter 14, Article IX, Section 14-702, of the City of Jackson Code of Ordinances dictates the AHDB shall oversee and administer the City's affordable housing fund, provide for the preservation and development of affordable housing, and ~~to~~ make recommendations to the City Manager and City Council on programs, policies, expenditures and projects to create decent, safe, and affordable housing options in the City of Jackson.

The City of Jackson contracted with Guidehouse for assistance with the expenditure of its ARPA funds. Guidehouse was tasked with conducting a City-wide housing assessment, and a draft of their "Housing Strategy and Policy Framework" was presented to the AHDB for review in November 2022. This comprehensive, data-driven analysis of Jackson's current and future housing needs outlined numerous housing objectives, with an implementation target of ten years, including:

- The construction of 1,500 new units;
- The preservation of 3,000 existing units;
- A first-time homebuyer program; and,
- A public land strategy.

Between 2012 and 2017, the City of Jackson utilized federal Troubled Assets Relief Program (TARP) funds, combined with other program dollars, for a large-scale demolition program in an effort to remove blight residential neighborhoods. The City currently owns roughly 600 clean, buildable vacant residential lots for the reconstruction of its neighborhoods.

At their meeting on March 21, 2023, the Jackson City Council approved a recommendation from the Jackson Affordable Housing Development Board to allocated $2.5 million in buyer supports for a discount homebuilding program, referred to here as the "100 Homes Program." These funds are part of the ARPA dollars apportioned to the City of Jackson in response to the recent Coronavirus pandemic.

C. Goals and Objectives

The 100 Homes Program aims to construct 100 new houses in the City of Jackson over the next 3 years, utilizing vacant City residential lots. All homes will be sold to qualified buyers earning between 60-80% of the Area Median Income (AMI) as defined by the U.S. Department of Housing and Urban Development (HUD) and must be owner-occupied. Acknowledging the need to keep these homes affordable, the City of Jackson will provide $25,000 down-payment assistance per home (up to 100 Homes). All funds for this program must be expended by December 31, 2026.

The City recognizes that homeownership stabilizes families, builds neighborhoods, strengthens communities, and provides the opportunity for generational wealth. The City of Jackson also recognizes that down-payment assistance alone may not be enough to make a home truly affordable for Jackson families. Working as a facilitator, the City of Jackson will oversee this program with the support of many uniquely positioned groups, including builders, financial institutions, and others as needed.

D. Authorization to Proceed

Approval of this Policy and Procedure Manual by the Jackson City Council authorizes staff of the Community Development Department to administer the 100 Homes Program. Deviations from any policy or procedure must be approved by the Jackson City Council at its next regularly scheduled meeting. The Jackson City Council may waive any local policy set forth in this Rehabilitation Policy and Procedure Manual for extenuating circumstances, but does not have authority to waive any statutory or regulatory federal requirement.

II. Partners

The 100 Homes Program will create a path to affordable home ownership through partnerships and collaboration. All entities will work together to offer financial supports and other homebuyer assistance through a multi-layered approach. This program will be successful if each partner recognizes their unique role in the process and works together with all participants to achieve the common goal of affordable home ownership. Partnerships will be codified through written agreements, such as a Memorandum of Understanding or Memorandum of Agreement. Detailed responsibilities are set forth in subsequent sections of this Program Guide.

A. City of Jackson

The City of Jackson will serve as the program facilitator to ensure partners work in unison to achieve the stated goals of the 100 Homes Program. Residentially-zoned vacant lots owned by the City will be selected at the City's sole discretion to offer for program use.

City staff will negotiate set construction prices with Developers for the 100 Homes Program. In addition to a discounted lot price, numerous incentives will be offered to the Developer, such as a curb cut for the driveway, sidewalk repairs, one (1) street tree, and water/sewer connections at no cost. Developers will also receive priority site and building plan reviews.

The City will establish and maintain a list of pre-qualified homebuyers and facilitate access to homebuyer education classes, counseling, and other assistance deemed necessary to prepare purchasers for homeownership. The City will also seek out additional financial supports, and will work to bring developers and homebuyers to successful home closings.

The City of Jackson does not discriminate against any individual or group because of their actual or perceived race, color, religion, national origin, sex, age, height, weight, marital status, physical or mental disability, family status, sexual orientation, or gender identity.

B. Developers

Developers in the 100 Homes Program will be expected to construct quality homes at a pre-determined price negotiated with the City. Homes must meet all federal, state, and local codes imposed by the City. Developers will fully finance all projects with no subsidy from the City, recouping its construction costs upon sale of the property to the homebuyer.

C. Financial Institutions

Financial institutions participating in the 100 Homes Program will work directly with the City, offering mortgage products affordable to the qualified purchaser.

D. Homebuyers

Homebuyers participating in the 100 Homes Program must adhere to the income qualification requirements, which may not exceed 80% AMI. The purchaser must also successfully complete homebuyer education and other classes deemed necessary. Purchasers must use the property as their primary residence during the five (5) year period of affordability.

III. The Home

A. Site Selection and Plans

All lots will be preselected by the City of Jackson Community Development Department. Properties must remain owner-occupied for the duration of the affordability period. All home designs shall be pre-approved by the City of Jackson Community Development Department, and shall meet all building design standards as set forth in Chapter 28, City of Jackson building code.

B. Home Design

A mixture of one and two-story homes will be constructed, matching the overall neighborhood fabric of their locations. Two-story homes will have a minimum of three (3) bedrooms and one-and-one-half (1.5) bathrooms. One-story homes will have a minimum of two (2) bedrooms and one-and-one-half (1.5) bathrooms. All homes must also have a detached shed for storage. Additional minimum requirements shall include:

1. Concrete or asphalt driveway
2. Full basement
3. Covered front porch
4. Front and rear entrance with necessary landing

The City of Jackson will work with selected builder(s) to ensure homes are of quality construction and meet all necessary federal, state, and local building codes.

2. Sewer tap and lead stub to property line (back of City sidewalk)
3. Water tap and connection to City stop box at sidewalk
4. Replacement of any damaged City sidewalks in front of new home build sites

A. Basic Requirements

To be eligible for participation in the 100 Homes Program, all Developers and their subcontractors must:

1. Be actively licensed by the State of Michigan and registered with the City of Jackson. 8. The finished product must secure a Certificate of Occupancy before being offered for sale. Upon the sole discretion of the Chief Building Official, a Temporary Certificate of Occupancy may be used to begin the sale process; however, a full Certificate of Occupancy must be issued by the closing date.

B. Equal Opportunity

The Developer and its subcontractors shall take the necessary steps to ensure that employees and applicants for employment are treated without regard to their race, color, religion, sex, national origin, age or disability. Such action shall include but not be limited to the following: employment, upgrading, demotion or transfer; recruitment or recruitment advertising; layoff or termination; rates of pay or other forms of compensation; and selection for training, including apprenticeship. The Developer and its subcontractors also agrees to post in conspicuous places, available to employees and applicants for employment, notices setting forth provisions of this non-discrimination clause. All solicitations or advertisements for employees placed by or on behalf of the Developer and its subcontractors, must state all qualified applicants will receive consideration for employment without regard to race, color, religion, sex, national origin, age, or disability. The Developer and its subcontractors shall comply with the provisions of Federal Executive Order 11246 of 1965 as amended by Federal Executive Order 11375 of 1967 and the Equal Employment Act of 1972.

The City of Jackson also recognizes that down-payment assistance alone may not be enough to make a home truly affordable for Jackson families. The City will seek out additional financial supports for homebuyers, in an effort to lower both the overall cost of the new home purchase, and the monthly expenses required to maintain the home long-term. This complete outline of available financial supports shall be provided to prospective homebuyers. Please note, homebuyers are not required to accept any/all layered supports offered should they wish to purchase a new home built for this program. However, anyone accepting any/all supports offered must meet all additional income qualification requirements, as stated in sections II and VI.

C. Participant Qualification Requirements

The following basic requirements must be met by all prospective homebuyers:

1. Combined household income may not exceed 80% AMI, adjusted for household size.

D. Intake

All intake procedures shall be determined and administered by City staff, and shall meet all requirements set forth by the U.S. Department of the Treasury. Household income level must be

documented using HUD's Income Eligibility Calculator found at https://www.hudexchange.info/incomecalculator/. Results must be kept on file electronically with a printed copy placed in the applicant's file.

E. Income Guidelines

Verification

Verification and certification of income and assets is required to determine program eligibility. Income includes all wages and salaries, interest and dividends, alimony, and child support for all adults living in the house. It excludes food stamps, medical reimbursement, and foster childcare assistance. The calculation used to determine annual household income shall be consistent with HUD regulations at 24 CFR Part 5 (Part 5 income, formerly referred to as Section 8 income) and HUD's definition of income including the sources of income that are to be included or excluded from the calculation. Income of all household residents 18 years of age and older, unless they are a full-time student, will be included in the total annual household income determination.

1. Assets include funds in checking and savings accounts, interest or dividends earned from Certificates of Deposit, stocks, bonds or mutual funds. Assets also include the value of real estate (other than primary residence).
2. Assets do **not** include pre-tax payroll deductions, deferred compensation accounts, 401Ks, health or dependent care allowances, two vehicles, the subject property and furnishings and fixtures.
3. If assets are $5,000 or above, income on all assets (actual or imputed per worksheet) must be included to determine income eligibility. However, earnings from retirement accounts do **not** need be included unless the funds are being removed from the account.

3. No employee shall solicit or accept gratuities, favors or anything of monetary value from contractors, providers or potential subcontractors.

1. Combined household income may not exceed 80% AMI, adjusted for household size.
2. The property must be the primary residence of the property owner.
3. Verification and certification of income and assets is required to determine program eligibility.
4. If an applicant's current assets total in excess of $25,000, that applicant is determined to have substantial resources and does not qualify for homeowner assistance.
5. See section V (above) for additional income verification and initial application requirements.

B. Repayment of funds

The grant amount provided as down-payment assistance must be repaid to the City of Jackson (specific repayment schedule below) if any of the following occur:

The required grant repayment amount will decrease by $1/60^{th}$ each month, beginning one (1) month after the date of closing. 0% repayment will be required at the conclusion of five (5) years.

If the homeowner dies, the City of Jackson may approve assumption of these responsibilities for the duration of the affordability period, under the following circumstances:

1. An heir to the property lives in the house, is income eligible, and will use the home as their primary residence
2. An immediate family member to an heir of the property desires to use the property as their primary residence, is income qualified, and all other heirs to the property are in agreement.

C. Support Opt-Out

Homebuyers are not required to accept any/all layered supports offered should they wish to purchase a new home built for this program. In the case of complete homeowner support opt-out, all income, asset, debt-to-income ratio, and down payment assistance repayment requirements will not apply. However, anyone accepting supports offered by the City of Jackson as part of the 100 Homes Program must meet all additional income qualification requirements (as stated in section V above) and complete all homebuyer education courses (as needed).

HISTORY AND BACKGROUND

On November 9, 2021, the Jackson City Council officially formed the Affordable Housing Development Board (AHDB). Comprised of seven members, the intent of the board is to promote the health, safety, and general welfare of the people of the City of Jackson, by serving as an advisory body to the Jackson City Council, to propose remedies on the implementation of housing goals, objectives, and policies. The Jackson Affordable Housing Development Board (AHDB) was originally charged with recommending (to City Council) the allocation of $3.5 million in American Rescue Plan Act (ARPA) funds, focusing on policies, expenditures and projects to create safe, dignified, and affordable housing options in the City of Jackson.

The City of Jackson contracted with Guidehouse, for assistance with the expenditure of its American Rescue Plan Act (ARPA) funds). Guidehouse was tasked with conducting a Citywide comprehensive housing assessment, and their “Housing Strategy and Policy Framework” was presented to the AHDB and City Council in early 2023. This comprehensive, data-drive analysis of Jackson’s current and future housing needs outlined numerous housing objectives, with an implementation target of ten years, including: the construction of 1,500 new units; the preservation of 3,000 existing units; a first-time homebuyer program; and a public land strategy.

DISCUSSION OF THE ISSUE

At their meeting on March 21, 2023, the Jackson City Council approved a recommendation from the Jackson Affordable Housing Development Board for an allocation from the City of Jackson's ARPA funds (in the amount of $3.31 million), with $2.5 million of those funds earmarked for a down-payment assistance program and $310,000 earmarked for program administration costs (commonly referred to as the 100 Homes Program). Program documents, including program guidelines and requests for proposals, were reviewed by the AHDB.

At their meeting on June 13, 2023, the Jackson City Council approved the Program Guidelines, Nonprofit Request for Proposals, and Developer Request for Proposals, for the 100 Homes Program. Developer and Nonprofit RFPs were promptly distributed, and submissions for each were due on July 14, 2023. The focus of this agenda item is the developer proposals and necessary development/purchase agreements.

Through the RFP process, three bids were submitted by qualified developers for participation in the 100 Homes Program. Staff from the Community Development Department reviewed all submitted bids, and recommend entering into a development agreement with two developers for participation in this program: Norfolk Homes, to construct a mix of 76 one and two-story homes; and Paragon Building Company, to construct 24 two-story homes. It is necessary to enter a development agreement with each of these developers for participation in the 100 Homes Program. It is further necessary to enter into purchase agreements for the purchase of City-owned lots at various stages during the administration of this program. Drafts of each agreement are included with this memo.

POSITIONS

Requested action is for City Council to approve the Development Agreements and Lot Purchase Agreement for the 100 Homes Program; authorize the City Manager and City Attorney to make minor modifications as needed; authorize the City Manager to effectuate the sale and transfer of 100 Homes Program eligible lots to the recommended developers; and further authorize the City Manager to execute the appropriate documents necessary to complete these agreements.

WHEREAS, Developer desires to purchase no less than **twenty-four (24)** Eligible Lots from the City for construction of a single family residence that meets the construction requirements of the City's '100 Homes Program RFP and approved contract award, as amended; and

WHEREAS, Developer will abide by the terms set forth in this Agreement and pay the

WHEREAS, this Agreement is being entered into between the parties to set forth the conditions for the sale and transfer the Property; establish the requirements and construction standards on Developer to construct a single family residence on the Property; and the conditions under which Developer will sell that residence to a qualifying buyer under the City's '100 Homes' Program.

NOW, THEREFORE, in consideration of the above recitals, the City and the Developer agree as follows:

1. RECITALS. The foregoing recitals are incorporated in this Agreement and form a part of this Agreement.
2. ELIGIBLE LOT SELECTION. City Staff will identify pre-selected Eligible Lots from its pool of City-owned vacant properties as part of the '100 Homes' Program. Developer and City Staff shall work collaboratively to identify and select Eligible Lot(s) for purchase by Developer; facilitate a walk-thru of the lot and identify any alternate available lots in the event the proposed lot does not meet building requirements. While the City shall have the final decision as to which Eligible Lot(s) will be purchased by Developer for new home construction, alternative Eligible Lots as selected or proposed by Developer for purchaser from the pool of Eligible Lots shall not be unreasonably withheld by the City.
3. LOT INFRASTRUCTURE IMPROVEMENTS. As part of the City's overall goal of improving neighborhoods and local streets, the City shall provide, at no expense to the

The purchase and transfer of title shall be pursuant to a separate purchase agreement executed by and between the City and Developer. Upon execution of this Property Transfer and Development Agreement, the City shall transfer ownership of the Property to Developer in accordance with a fully-executed purchase and sale agreement.
5. '100 HOMES' PROGRAM FACILITATION BY CITY. Pursuant to City Council-approved '100 Homes' Program Request for Proposal, as amended, the terms of which are incorporated herein by reference, the City shall identify and facilitate, in cooperation and coordination with its private sector partners, eligible home buyers who qualify under the '100 Homes' program criteria and create a que of qualified buyers for newly constructed homes on the Eligible Lots.

Notwithstanding the foregoing, if a prospective buyer who is not otherwise eligible under the City's '100 Homes' Program makes an offer on a new home constructed by Developer, the Developer shall have the right to market and sell said home to that buyer, and shall not be capped at the $175,000 sales price. However, in such event any such home sold outside of the '100 Homes' Program shall not count against the Developer's obligation to construct the minimum number of homes under this Agreement.

The Developer must permit inspections of the Property as requested by the City to monitor compliance with this Agreement, and the City will provide reasonable notice to Developer unless an emergency arises, in which case, the City will make a good faith attempt to contact Developer.

WHEREAS, this Agreement is being entered into between the parties to set forth the conditions for the sale and transfer the Property; establish the requirements and construction standards on Developer to construct a single family residence on the Property; and the conditions under which Developer will sell that residence to a qualifying buyer under the City's '100 Homes' Program.

NOW, THEREFORE, in consideration of the above recitals, the City and the Developer agree as follows:

1. RECITALS. The foregoing recitals are incorporated in this Agreement and form a part of this Agreement.
2. ELIGIBLE LOT SELECTION. City Staff will identify pre-selected Eligible Lots from its pool of City-owned vacant properties as part of the '100 Homes' Program. Developer and City Staff shall work collaboratively to identify and select Eligible Lot(s) for purchase by Developer; facilitate a walk-thru of the lot and identify any alternate available lots in the event the proposed lot does not meet building requirements. While the City shall have the final decision as to which Eligible Lot(s) will be purchased by Developer for new home construction, alternative Eligible Lots as selected or proposed by Developer for purchaser from the pool of Eligible Lots shall not be unreasonably withheld by the City.
3. LOT INFRASTRUCTURE IMPROVEMENTS. As part of the City's overall goal of improving neighborhoods and local streets, the City shall provide, at no expense to the

Developer an extension of the public water line to the City stop-box; sewer laterals to the edge of the public right-of-way for all Eligible Lot(s) purchased by Developer; and shall waive any connection fees for water and sewer service. The City shall further provide any required sidewalk repairs and/or replacement, as determined in the sole discretion of the City's Chief Building Official and/or Director of Public Works, and curb cuts (excluding the apron/approach) for Eligible Lots at no cost to the Developer. A street tree/trees may be installed within the public right-of way by the City in its sole discretion.

4. PURCHASE AND SALE OF ELIGIBLE LOTS. City agrees to sell and Developer agrees to purchase not less than **seventy-six (76)** Eligible Lots, subject to building and use restrictions, easements and other title issues of record for the purchase price of $300 per Eligible Lot. The purchase and transfer of title shall be pursuant to a separate purchase agreement executed by and between the City and Developer. Upon execution of this Property Transfer and Development Agreement, the City shall transfer ownership of the Property to Developer in accordance with a fully-executed purchase and sale agreement.
5. '100 HOMES' PROGRAM FACILITATION BY CITY. Pursuant to City Council-approved '100 Homes' Program Request for Proposal, as amended, the terms of which are incorporated herein by reference, the City shall identify and facilitate, in cooperation and coordination with its private sector partners, eligible home buyers who qualify under the '100 Homes' program criteria and create a que of qualified buyers for newly constructed homes on the Eligible Lots.
6. HOME CONSTRUCTION BY DEVELOPER. Subject to paragraph 7 below, Developer shall be required to build no less than **seventy-six (76)** single family homes

on the Eligible Lots it purchases pursuant to this Agreement, with the building specifications, improvements, fixtures and appliances as set forth on attached Exhibit A (the "Construction Criteria"). All improvements constructed on an Eligible Lot shall be performed in a workmanlike manner and pursuant to all applicable building code and City Ordinance standards.

7. SALES PRICE AND MARKETING OF NEW HOME CONSTRUCTION. Developer understands and agrees that for any newly constructed single family home sold to an eligible City-approved buyer who qualifies under the City's '100 Homes' Program criteria, the final sales price for the home shall be One Hundred Seventy Five Thousand and 00/100 Dollars ($175,000). Notwithstanding the foregoing, if a prospective buyer who is not otherwise eligible under the City's '100 Homes' Program makes an offer on a new home constructed by Developer, the Developer shall have the right to market and sell said home to that buyer, and shall not be capped at the $175,000 sales price. However, in such event any such home sold outside of the '100 Homes' Program shall not count against the Developer's obligation to construct the minimum number of homes under this Agreement.

8. CONSTRUCTION TIMELINE. All Eligible Lots required to be purchased by Developer under this Agreement must have a single family home constructed in accordance with the **Exhibit A** Construction Standards, and all Eligible Lots must have a single family home completed thereon, with a final certificate of occupancy issued not later than October 31, 2026.

9. FINANCIAL ABILITY. Developer acknowledges that it has the financial resources available in order to comply with this Agreement; purchase and construct the minimum

number of Eligible Lots and single family homes as set forth herein; and sell a newly constructed home on an Eligible Lot for the One Hundred Seventy Five Thousand and 00/100 Dollar ($175,000) sales price to '100 Homes' Program eligible person(s) who qualify under the approved income and application criteria.

10. INSPECTIONS. The Developer must permit inspections of the Property as requested by the City to monitor compliance with this Agreement, and the City will provide reasonable notice to Developer unless an emergency arises, in which case, the City will make a good faith attempt to contact Developer.
11. BROKERS. City and Developer agree that no broker, sales agents or other persons shall be entitled to a commission from the City in relation to the sale of an Eligible Lot.
12. COSTS AND EXPENSES. Costs and expenses incurred by the City in implementing and enforcing the provisions of this Agreement, shall be a lien on the premises which shall be enforceable in accordance with Section 15.7 of the Jackson City Charter and/or other applicable City Charter and City Ordinance provisions. In addition to any other lawful enforcement methods, the City shall have all remedies authorized by State law, the Jackson City Charter and/or City Ordinances.
13. CHANGE OF OWNERSHIP INTEREST. This Development Agreement shall be binding on and inure to the benefit of City and Developer and all of their respective heirs, successors, assigns and transferees.
14. MODIFICATION AND ASSIGNMENT. The promises, covenants, terms and conditions herein contained may not be modified, altered, or extended without the mutual written consent of both parties.

However, Developer shall not be required to indemnify the City for such injury, death,

loss, or damage cause by the City's sole negligence. Developer's obligation to indemnify City shall survive termination and/or expiration of this Agreement.

17. SEVERABILITY. If any one or more provisions of this Agreement, or in any instrument or other document delivered pursuant to this Agreement, or the application thereof to any person or circumstance is, to any extent, declared or determined to be invalid or unenforceable, the validity, legality and enforceability of the remainder of this Agreement, or the application of such provision to persons or circumstances other than those as to which it is invalid or unenforceable, will not be affected or impaired thereby, and each provision of this Agreement is valid and enforceable to the fullest extent of the law.

BUDGETARY CONSIDERATIONS

Funds from the MSHDA Investing in Community Housing (MICH) grant will be used to construct four (4) visitable / accessible homes, and will provide funds for grant administration, with a total grant award of $880,000. All construction and administrative costs will be paid for with grant funds.

HISTORY, BACKGROUND, and DISCUSSION

On April 21, 2023, the City of Jackson submitted a competitive application for funding to the Michigan State Housing Development Authority, through the Investing in Community Housing (MICH) grant program. 88 applications were submitted by various non-profit, for-profit, and government entities, with 29 grants awarded. On June 16, 2023, staff from the Community Development Department were notified that the City of Jackson was awarded $800,000 to construct 4 new homes in the City: 2 visitable and 2 accessible homes. The City was also awarded $80,000 for administrative costs, making the total grant award $880,000.

The City must enter a contract for construction by September 30, 2024, and all grant funds must be expended by April 30, 2026. The City is further required to build 4 additional homes as a “match” for this program, and these homes will be funded through other current grant

programs. All granted-funded and match-funded homes will be constructed in one of two qualified census tracts: N. Cooper between Michigan Avenue and the Northern boundary of the City, and the 300 block of West Mason and/or West Wilkins. Once completed, these homes will be sold to an income-qualified individual or family earning 60% of less of the Area Median Income (based on household size).

2023 Area Median Income Limits

	1	2	3	4	5	6	7	8
60%	$32,220	$36,840	$41,460	$46,020	$49,740	$53,400	$57,120	$60,780

City staff will work with qualified builders to complete this project on time and within budget. This grant award provides further financial assistance in the City's efforts to construct affordable new homes throughout the City of Jackson.

THIS GRANT AGREEMENT (the "Agreement") made and entered into as of _____, 2023, by and between the City of Jackson, a Michigan nonprofit, whose address is 161 W Michigan Ave, Jackson, Michigan, 49201 (the "Grantee"), and the Michigan State Housing Development Authority, a public body corporate and politic of the State of Michigan, whose address is 735 East Michigan Avenue, Lansing, Michigan 48912 (the "Authority").

I. GRANT SUMMARY AND OFFER

The State Housing Development Authority Act of 1966, Public Act 346 of 1966, Part 125.1458 *et seq.*, as amended, charges the Authority with creating and implementing the Housing and Community Development Fund ("HCDF") Program for the purposes of developing and coordinating public and private resources to meet the affordable housing needs of low income, very low income, and extremely low-income households and to revitalize downtown areas and adjacent neighborhoods in the State of Michigan. Effective March 30, 2022, the HCDF Program was federally funded utilizing the United States Department of Treasury ("Treasury") American Rescue Plan Coronavirus State and Local Fiscal Recovery Funds ("ARP-SLFRF"), which were awarded to the State of Michigan on May 13, 2021, and the Michigan Legislature appropriated to the Authority pursuant to the Public Act 53 of 2022, as amended (the "Act"). Pursuant to Section 352 of the Act, the Authority must use the HCDF Program funds to expand access to affordable and attainable housing for populations or regions disproportionately impacted by the Coronavirus Disease 2019 ("COVID-19") pandemic.

The Authority, acting pursuant to the Act and Public Act 346 of 1966, as amended, hereby offers to the Grantee grant assistance subject to the availability of Authority HCDF Program funds, terms, conditions, and limitations as set forth herein.

The terms of Section 352 of the Act, Public Act 346 of 1966, State Housing Development Authority Administrative Rules, and Section 9901 of the American Rescue Plan of 2021 allow as Eligible Expenses reimbursement to the Grantee for HCDF activities that support for qualifying households as described in

Exhibit A, attached to and made a part of this Agreement, provided those expenditures were made for the specific purposes described in this Agreement. No payment or reimbursement for Eligible Expenses must be made for HCDF activities performed after April 30. 2026, or prior to the date of this Agreement, and only qualifying expenditures made between April 30, 2026, and the date of this Agreement, are eligible for reimbursement out of HCDF Program funds. This grant assistance will expire upon the earlier of the full expenditure of the Total Grant Amount or April 30, 2026 (the "end date").

If the Grantee has failed to comply with this Agreement, or in the event that funds are no longer available to the Authority, on reasonable notice to the Grantee, the Authority may suspend the grant and prevent further electronic funds transfer or prohibit the Grantee from incurring additional obligations of HCDF Program funds, pending corrective action by the Grantee, resumption of funding from the Authority, or a decision to terminate in accordance with this Agreement. The Authority must allow all necessary and proper costs which the Grantee could not reasonably avoid during the period of suspension.

25. The Authority may terminate this Agreement, in whole or in part, at any time before the end date of this Agreement, whenever it is determined that the Grantee has failed to comply with the conditions of this Agreement, in the event that funds are no longer available to the Authority, or in the event that there are amendments to the terms of Section 352 of the Act, Public Act 346 of 1966, State Housing Development Authority Administrative Rules, and/or Section 9901 of the American Rescue Plan of 2021, subsequent to the date hereof, significantly changing the terms of the HCDF Program. If it is determined that the Grantee has provided incomplete, inaccurate, nonqualifying, or fraudulent information, in whole or in part, the HCDF Program funds must be immediately returned to the State of Michigan. In accordance with the Uniform Guidance, the Authority reserves the right to monitor the Grantee and take such corrective action for noncompliance as it deems necessary and appropriate, including but not limited to termination of this Agreement and return of HCDF Program funds previously provided to the Grantee. Any amounts subject to recovery must be repaid within thirty (30) days of receipt of any notice of recoupment.

The Grantee shall have fifteen (15) business days within which to object to such schedule and the Grantee's failure to timely object will be deemed as an agreement with the Authority's determination, and the Authority may withhold from future reimbursements and/or advancements an amount equal to any and all inaccurate and/or inappropriate reports and/or expenditures, or otherwise recapture such sums.

HCDF MICH DEI Requirements

3/7/2023

HCDF Diversity, Equity, and Inclusion Requirements	
Fair Housing Plan and Training Component	Subrecipient Agencies will need to adopt a fair housing plan as part of their program guidelines. In addition, HCDF program administrative staff and community partners will participate in one Fair Housing training approved by the MSHDA Office of Equity and Engagement within the first 60 days of working directly within an HCDF program and annually for the duration of the program. Approved trainings found on the MSHDA Fair Housing webpage include virtual and recorded trainings.
Accessibility and Visit-Ability	MSHDA encourages the building of more accessible and adaptable housing. Based on CDC data Michigan has a 26% disability rate among adults, meaning one out of every four adults in Michigan has a disability, with 12% being mobility, 5% hearing and 3% vision. The older adult population in the state is growing and so is the need to build housing designed to age in place. Investing in accessible and adaptable housing will address these demands and further equitable housing opportunities. Further details are outlined in the overview document below. The HCDF funds are being used to assist marginalized groups in accessing affordable housing and services while combating housing inequities and lack of access to opportunities. Once a subrecipient agency is selected, as part of their program guidelines, they will need to identify the marginalized groups that will be served with these resources and inequities that will be addressed with the activities proposed in your submission. It is imperative that stakeholders from diverse backgrounds (i.e., race, gender, ethnicity, disability status, geography, etc.), be informed and authentically represented in the distribution of funding. Once a subrecipient agency is selected, as part of their program guidelines, they will need to identify the explain specific engagement steps taken to inform area residents of the funding opportunity and that will be undertaken to ensure marginalized groups have access to this program. Once a subrecipient agency is selected, as part of their program guidelines, they will need to identify the provisions will be in place to ensure ongoing data collection, stakeholder participation, and public feedback. Once a subrecipient agency is selected, as part of their program guidelines, identification of the measures that will be used to determine program success (data indicators and benchmarks, anecdotal). A plan for ongoing evaluation measures that will be used to assess the level of diversity, inclusivity and quality of ongoing stakeholder engagement as well as a report process will also be included in the program guidelines.

HCDF DEI Requirements 03/7/2023

Program Accessibility	All program documents, trainings, webinars, and services must be ADA accessible and translation services must be provided and MSHDA can assist Subrecipients with translation and grant administrative funding can pay for this activity. Key program documents must (to the extent possible) be published in English, Spanish, and any other language/dialect based on local community needs.

MSHDA
Residential Physical Accessibility Overview

When MSHDA talks about building accessibility, we use the Michigan Building Code, International Code Council, Fair Housing Act, and the Uniform Federal Accessibility Standard as the source for three levels of accessibility. The construction industry uses the terms Type A, Type B, and Type C units from the building code. The percentage of each unit that may be required by different programs and sources of funding is not included.
Physically Accessible Housing:
Both privately owned and publicly assisted housing, regardless of whether they are rental or for sale units, must meet the accessibility requirements.

Type A Units:

Type A units are designed for those residents who require a wheelchair to move around in the apartment.

1. Type A units are sometimes called accessible units.
2. Some elements that are constructed for accessibility. For example: 32" clear-width doors with maneuvering clearances.
3. Designed and constructed to provide accessibility for wheelchair users throughout the unit.
4. Some elements that are constructed as adaptable, meaning that they are not built to be compliant at first occupancy but are provided with the infrastructure to be made accessible, later if needed. For example: kitchen wall cabinet height, roll-under sinks, lowered kitchen sink and countertops that can be rolled under.
5. Type A units are distributed throughout a development and disbursed by the number of bedrooms in a unit.

Type B Units:

Dwelling units designed and constructed for accessibility in accordance with this code and provisions for Type B units in ICC A117.1, consistent with the design and construction requirements of the federal Fair Housing Act. Since there aren't legal guidelines to define Universal Design, we use the legally defined Type B or a Fair Housing unit.

1. Type B units are sometimes referred to as Fair Housing units because they are intended to be consistent with the Fair Housing Design Manual.
2. Are constructed to provide a minimal level of accessibility.
3. Less accessible than Accessible Unit or Type A unit.
4. Type B units are designed for life or aging in place, and they are usable by a person in a wheelchair.

Type C Units: Visit-Ability

Type C or visitable units are intended for single family residences since Type A, and Type B units are for multifamily developments.

1. Applicable to Single-family homes and duplexes typically fall below any of the accessibility requirements.
2. The intent of the Type C is planning for persons to be able to age-in-place, like Type B units.
3. At least one zero-step entrance approached by an accessible route on a firm surface no steeper than 1:12, proceeding from a driveway or public sidewalk.
4. 32 inches or more of clear passage space through interior doors, including bathrooms.
5. At least a half bathroom on the main floor
6. Reinforcement in bathroom walls and showers for future grab bars
7. Accessible placement of electrical and heating controls
8. Use of lever door handles

Rehabilitation Accessibility Retrofit Elements

- Wheelchair Ramp retrofit no steeper than 1:12, made of non-decay material, preferably to the side door or back entry. Paint ramp color to match the home siding, porch deck/railings or foundation. Install camouflage plantings to blend the ramp into property aesthetics. NOTE: Avoid large directional ramps at the front of the home if possible.
- Zero-step entry at the front, side or back using Type C Units Visit-Ability standards utilizing well-designed ramp alternatives and techniques.
- Use of lever door handles on the interior.

June 22, 2023

Dear MICH Applicant,

We have made the initial funding determinations for Phase One of the MSHDA Investing in Community Housing (MICH) Program. Based on our initial review of your submission, further information is needed prior to formal reservation of funding. Congratulations on making it through the first evaluation portion of this extremely competitive funding process. For MICH Phase One, we received 88 proposals for over $55 Million. Based on funding availability, we have selected up to 29 recipients which equates to approximately 1/3 of the submissions moving forward for funding consideration in an amount of $11.5 Million. Please note that not all activities and/or funding amount requests are being granted in their entirety as cuts were made to multiple submissions and not all component requests were approved.

Inadvertently, a non-negotiable eligibility funding requirement for combined HCDF and SLFRF funding was left out of the initial application process and must be added to the program's parameters. For full transparency of the rules and regulations attached to the funding source we have attached a copy of the HCDF-SLFRF Program funding, and the MICH funding is being authorized out of Bucket 4. This additional requirement will impact eligibility restrictions of all assisted households and proposed projects originally anticipated to be fully qualified within a QCT area(s). To be eligible for funding an assisted property must be located within a qualified census tract area and 1) sold/rented to a maximum of 60% area median income household OR 2) the households being assisted and/or purchasing the property must be receiving or qualifying for a federal benefit (refer to Exhibit A, #3). Please notify our office immediately at MSHDA-NHID-Research@michigan.gov if this change will prohibit your proposal from moving forward and you will no longer be able to utilize MICH funding for your proposed project(s).

Attached is a draft funding reservation memorandum for you to complete. Please fill in all blanks either with specific information or a zero or not applicable – no blanks should be left unaddressed and provide all supporting documents.

If you have identified the activities to be undertaken in a Qualified Census Tract area then you need to do the following: #1) If Type C3: New Construction Single-Family and the specific site location is determined - then provide a screenshot at the site https://www.huduser.gov/portal/sadda/sadda_qct.html and under QCT Area Confirmed select Yes based on the screenshot provided. #3 – Tier 1 should be selected, and the location defined, and the confirmed box checked: #5 – should reflect the boundaries/site location. Identified previously Tier 1 item #3 for additional language added.

NOTE – Newly constructed units are required to be a minimum of 50% accessible and 50% visitable rounded up – no ½ units allowed. Therefore, if you have 3 units one must be accessible and 1 must be visitable with the other one either visitable or accessible - identify this on #1 broken into both # Visitable and # Accessible.

If you have selected new construction as a component activity, additional information is being requested to fully determine the project scope. Please complete this information and submit the draft memorandum and supporting documents. Note that given the household eligibility parameters outlined above, there will be a requirement for a covenant that runs with the land to ensure affordability.

Please complete the attached document and return to the MSHDA-NHID-Research@michigan.gov mailbox no later than June 30th. We will then review each response and create a final reservation memorandum.

Please note that all reservations at this time are tentative and contingent upon approval of the information provided and are subject to applicable program rules and regulations. Note: all information provided within the application is being substituted for this document and the application itself in its entirety is no longer valid and is subject to modifications based on the award determination.

Please Provide the Following for Component C Only:

How to Complete the Annual Profile Review

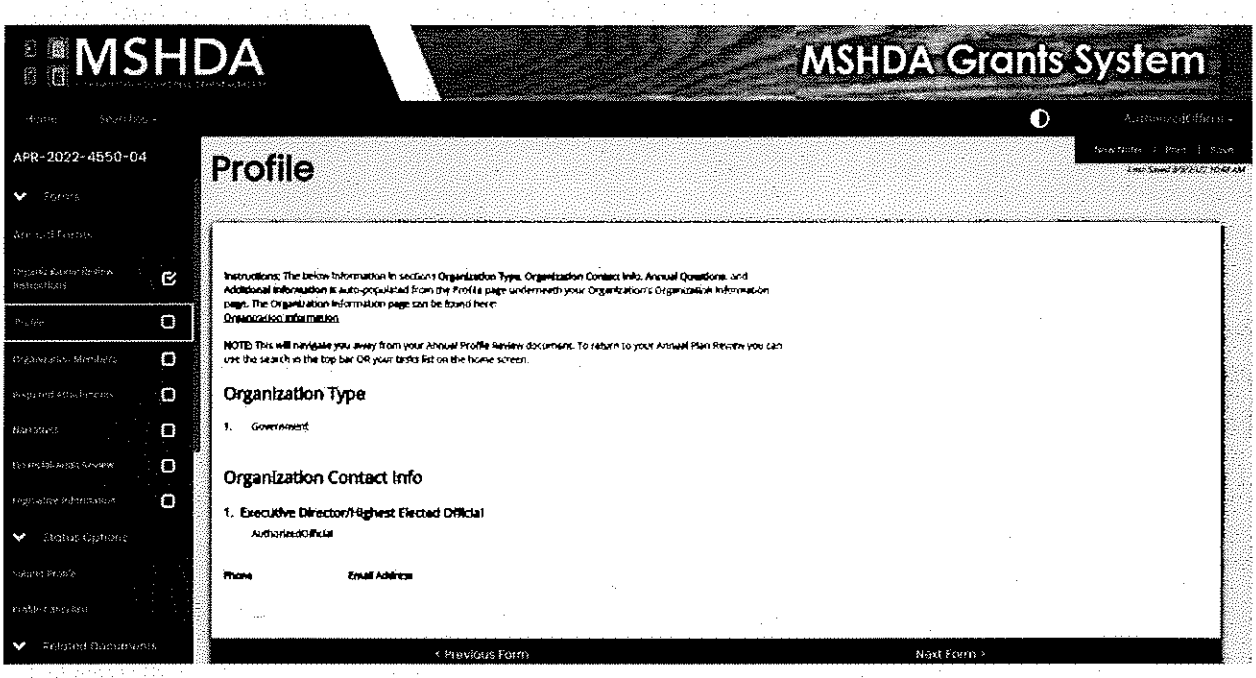

This document pulls data from your Organization's Information pages. Specifically, the "Organization Profile", "Required Documents", "Organization Members", and "Legislative Information" pages. Before starting this document, you must save these pages within your Organization's Information Pages.

If the only page you can see in your Annual Profile Review is the Organizational Review Instructions, that indicates that you have not completed these forms OR there are errors on them. Please navigate to your Organization and make sure all forms are complete. You can reach these forms by navigating to your User profile (in the upper right dropdown where you see your name) or by clicking on the below hyperlink on the Organizational Review Instructions within the Annual Profile Review.

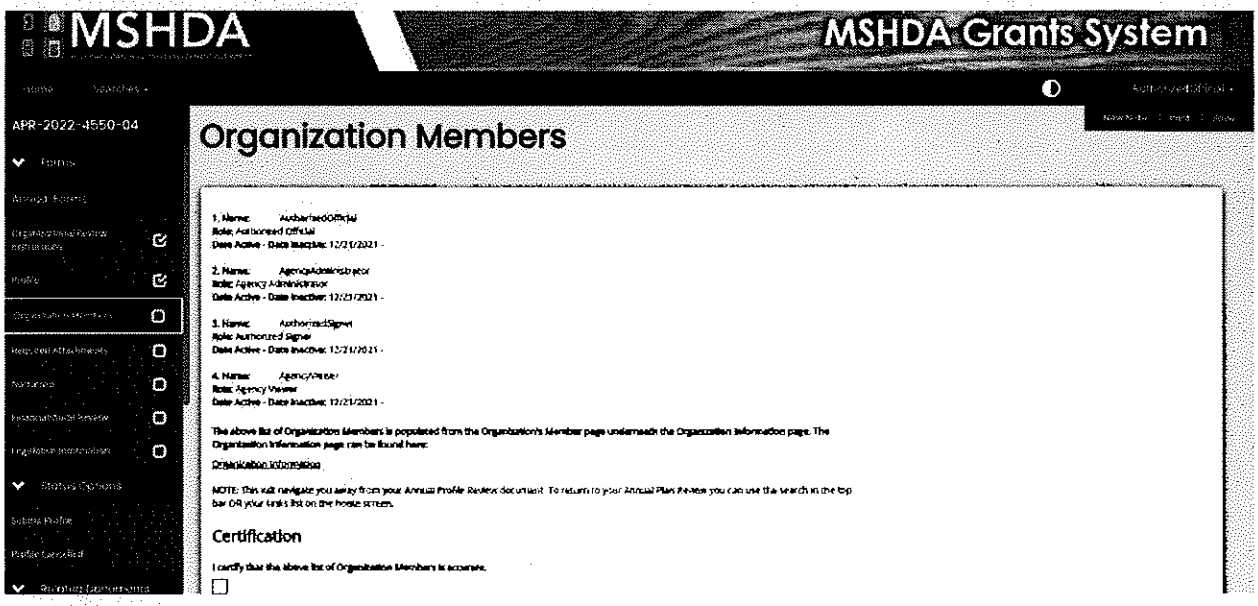

NOTE: Once you've filled out the organization pages you must return to the Annual Profile Review using the Annual Profile Review Search in the top bar OR your Tasks list on the home screen. Then, Save this page and if all 3 pages attached to your Organization have been completed without errors, the rest of the Annual Profile Review pages will appear in the left-hand menu.

The Profile form auto-populates from the Organizations Information page. Check to see if any changes need to be made to either section. If something needs to be changed you can click on the Organization Information link under the first paragraph. If both sections are correct, you can continue scrolling to the Annual Questions.

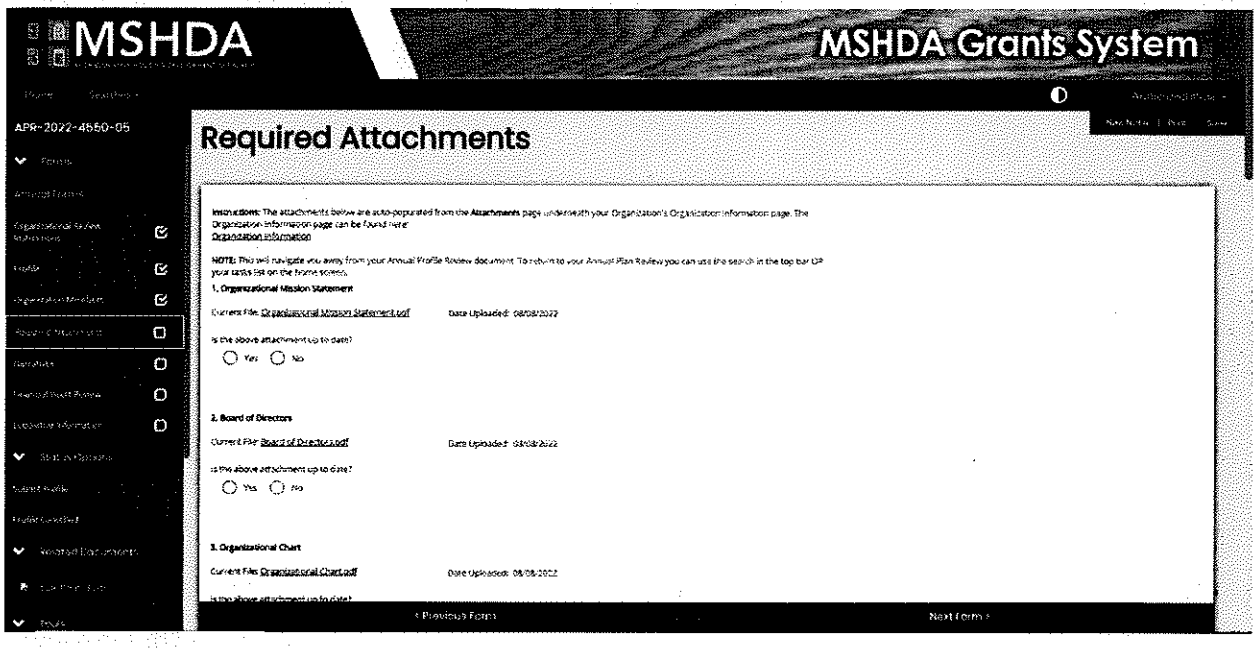

The Organization Members page lists the members of your organization who are listed as active in the system. Check to ensure that this list is correct. Go to the Organizational Information page to update the list if changes need to be made. When the list is correct, check the box certifying that the list of Organization Members is accurate.

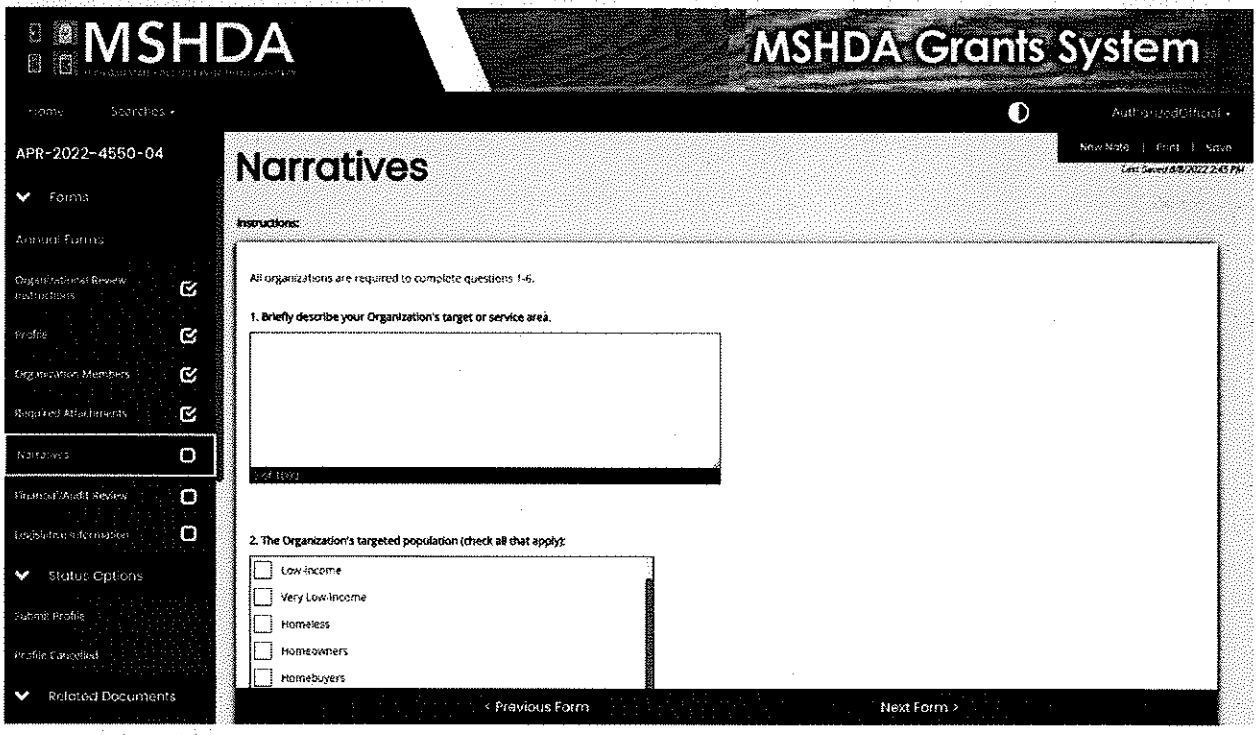

The attachments on the Required Attachments form are auto populated from the Attachments page within your Organization Information page.

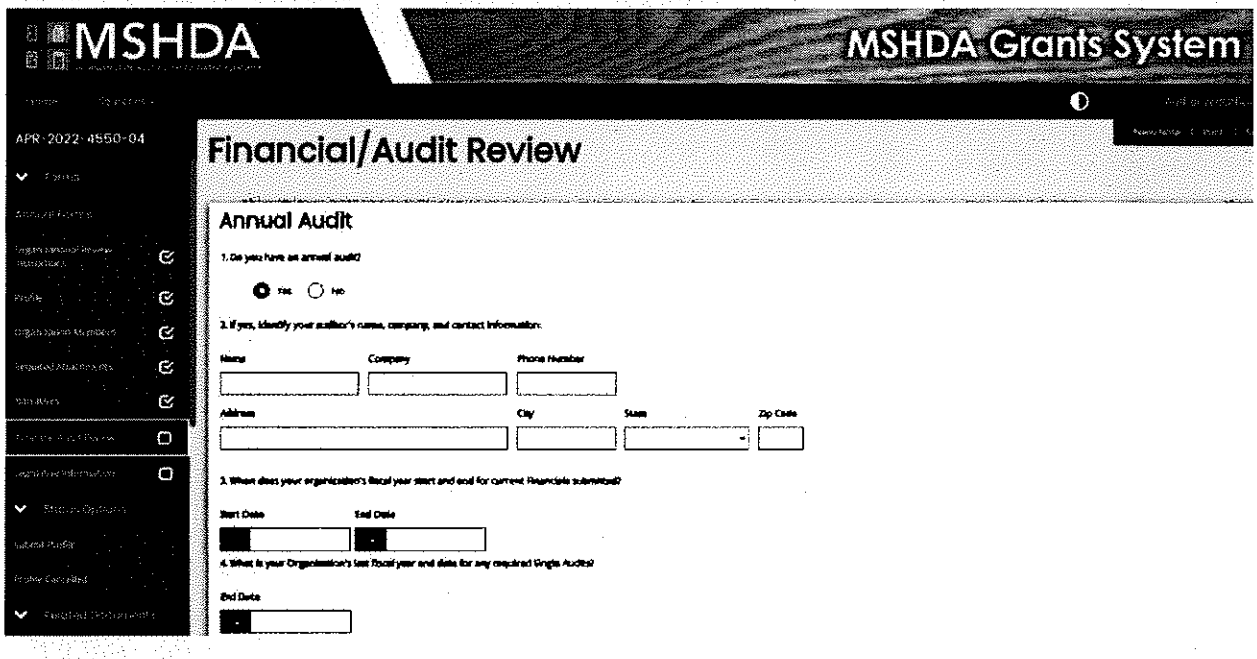

Check to make sure that each attachment is up to date. If the attachment is up to date, select yes. If the attachment is not up to date, you will need to go to the Organizational Information page to upload the new file.

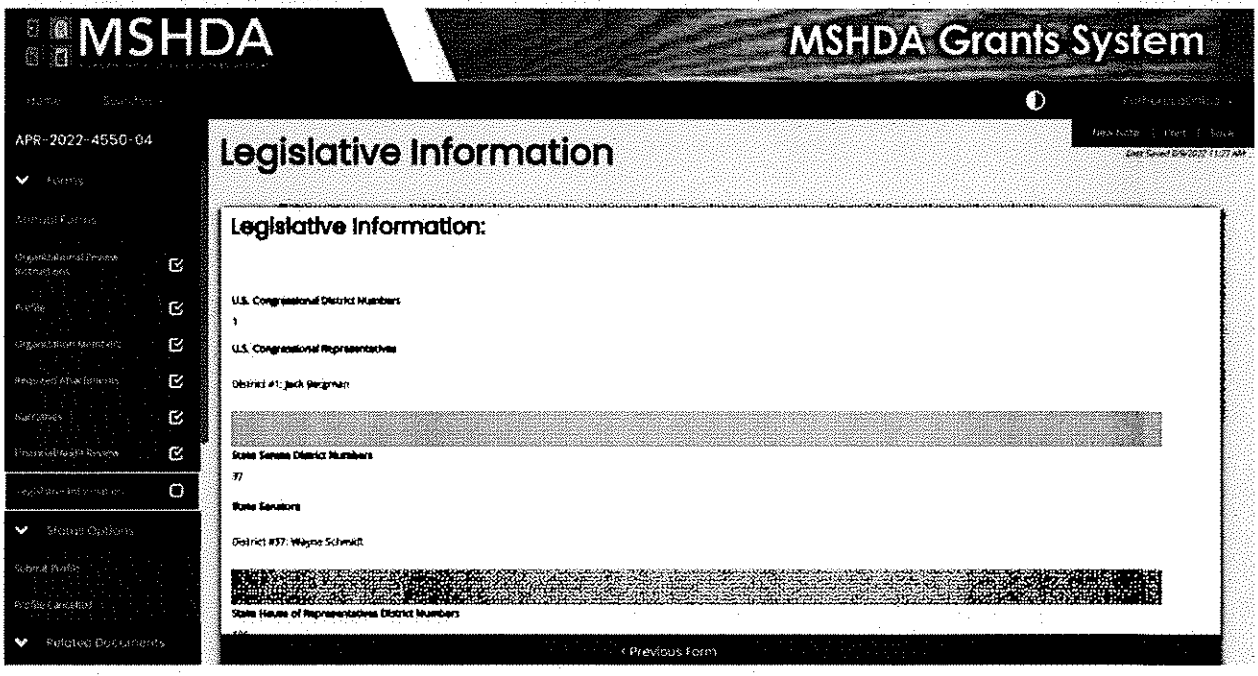

The Narrative form asks questions about the organization including your target population, service area, staffing, and local services.

The Financial Information form asks about annual audits, auditors, annual financial statements, single audits, and the organizations budget.

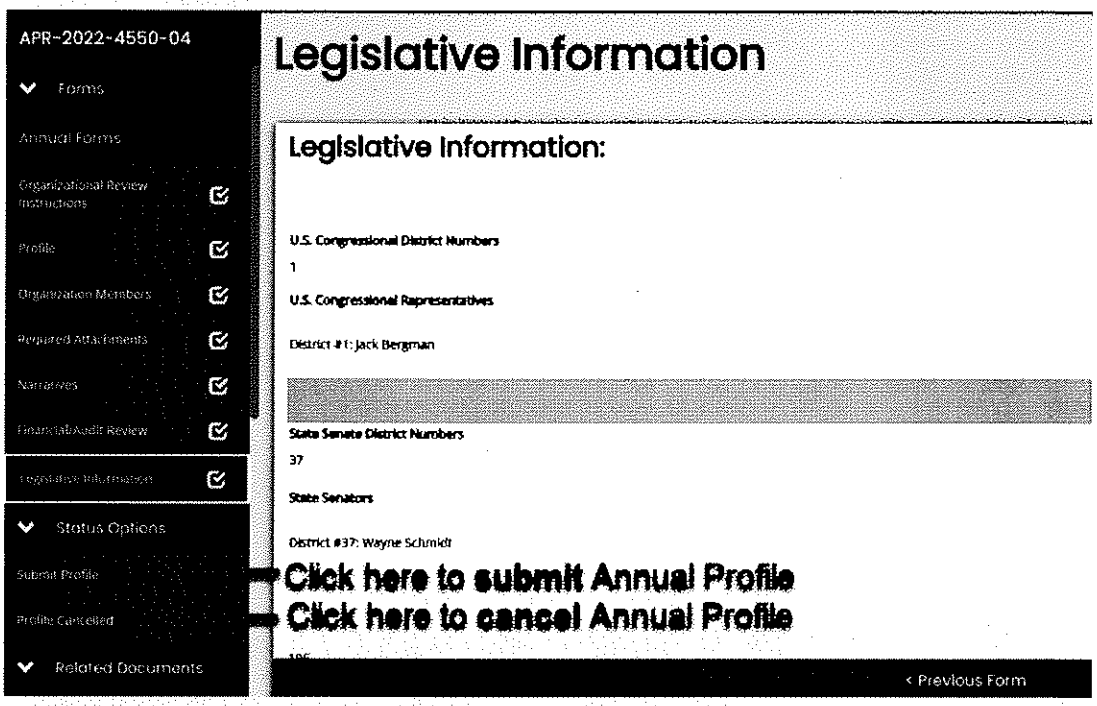

The Legislative Information form is auto filled from the Organizational Information page. Check to ensure that the US Congressional Districts, State Senate Districts, and State House of Representative Districts for your organization are correct. Certify that the data is up to date and accurate at the bottom of the page, then save.

MEMO TO: Mayor and City Councilmembers

FROM: Jonathan Greene, City Manager

DATE: August 15, 2023

SUBJECT: ARPA-funded Social Workers

Recommendation:

Approve the change in scope of work for the Police Department's social workers.

Attached is a memorandum from Director Elmer Hitt regarding the potential positive outcomes resulting from a change in scope for the Police Department's social workers.

I recommend approving the change in scope. Your consideration and concurrence is appreciated.

DEPARTMENTAL REPORT

MEMO TO: Jonathan Greene, City Manager

FROM: Elmer J. Hitt, Director of Police and Fire Services

DATE: August 15, 2023

RECOMMENDATION: Approval of Change in ARPA Fund Expenditures

SUMMARY

City Council approved ARPA funds in 2021 to support the Group Violence Intervention (GVI) strategy. Part of this funding was allocated for the hiring of two social workers to provide services to community residents such as crisis intervention, mediation, and referrals. The Jackson Police Department partnered with LifeWays to fill one of these two positions in the coming months. The original approval was narrowly focused on the GVI strategy and those community members associated with group violence. These social worker positions can certainly benefit other members of the community as well. It is the recommendation of the City's ARPA consultant Guidehouse to seek authorization from City Council to utilize these positions for GVI and to serve other members of the community in need of services as well.

BUDGETARY CONSIDERATIONS

There will be no change to the already approved budgeted use of ARPA funding.

HISTORY, BACKGROUND and DISCUSSION

Officers of the Jackson Police Department regularly have contact with individuals in need of a wide variety of services in the community. These services include mental health, housing assistance, food assistance, counseling, and childcare to name a few. Officers do not have the expertise in these areas to provide the best level of service our citizens deserve. Having social workers on staff at the Jackson Police Department increases our ability to serve community members in a more professional and dignified manner.

DISCUSSION OF THE ISSUE

Authorizing the change in scope for the two social worker positions will allow the Jackson Police Department to move forward with filling the two positions. It is anticipated the Lifeways position will be filled by the end of October 2023. There are current talks with the Department of Health and Human Services to fill the second position by the end of 2023.

POSITION

I recommend approving the change in scope of the social worker positions.

The table below identifies the surrounding zoning designations and current land uses.

	North	South	East	West
Current Zoning	I-2, Light Industrial	C-2, Community Commercial	C-2, Community Commercial	PUD, Planned Unit Development
Current Land Use	Commercial Resale/Rental	Commercial	Commercial	Vacant

FUTURE LAND USE/MASTER PLAN

The Future Land Use map contained within the 2016 Master Plan demonstrates use designation of the subject properties "Mixed Use Arts and Cultural Corridor".

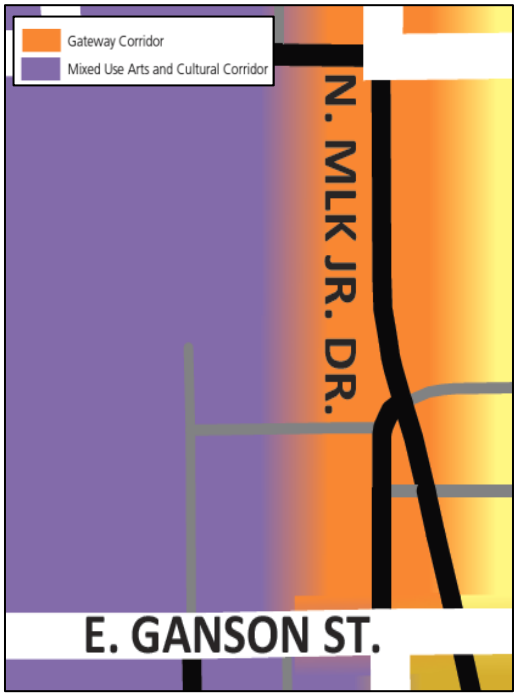

The purpose of the "Mixed Use Arts and Cultural Corridor" is described as:

> The stretch of Jackson between downtown and approximately the center of its north border is dominated by three corridors: rail, the Grand River, and business US-127 (Cooper / Francis streets). The purpose of this district is to loosely tie its eclectic mix of uses, which includes the County Fairgrounds, the historic prison, current and obsolete industrial operations, and niche shops, into a visually and functionally cohesive gateway into the City. The mixed use, arts-related Armory Arts Village within the grounds of the old state prison/national guard armory has given the area a solid start in the development of a cultural and arts district that blends its utilitarian history with a bold, bright future.

It is important to note the four (4) lots northwest of the E. Ganson St. and N. Martin Luther King Jr. Dr. These lots are currently zoned C-2, Community Commercial, owned by the applicant, are within the Gateway Corridor future land use designation. These lots are included in the overall development plan.

The purpose of the "Gateway Corridor" is described as:

> These are major state thoroughfares which directly connect Jackson to its neighboring communities and the region. Commercial development has long been concentrated along such routes with maximum priority given to access and convenience at the expense of aesthetics and character, and these choices are reflected in the built environment. The purpose of this district is to bring a greater balance among them.

Due in part to the commercial use component of Mixed Use Arts and Cultural Corridor, Gateway Corridor, and proximity to a primary gateway into the City of Jackson, the proposed zoning classification is consistent with the 2016 Master Plan.
